Around Media, Mobile App

Background

- Around Media brings innovation to the real estate market by offering smart, interactive tools in an affordable way. It uses the latest new technology to offer customers the most appropriate solution. With a team of 35 people and more than 150 projects successfully completed, they are market leaders in everything 3D and Virtual reality in Belgium.
- The customer wanted a QA service provider
- With a product mindset for their Around Media System
- With an excellent QA process
- Who would take total ownership of delivering the QA independently and give an unbiased assessment

Solution

- QAonCloud studied the customer's product requirements and devised the appropriate QA solution
- Hired 3 offshore testers using the Aptitude Test specified by the customer and trained them within 2 weeks. A delivery manager was also assigned
- Delivered test cases, bug reports and an analytics report.
- Out of the 243 test cases written, 127 bugs were found.
- Met the bug acceptance rate SLA of 90%

Achievement

- 2 testers scored above 90% and one scored 100% in the customer's aptitude test, where 80% was the required score
- 95% of the bugs raised were accepted, while the SLA was 90%
- On time delivery of the product by being an equally responsible member of the product team
