Tools

PT tools: Load Runner, Performance Center, Jmeter, Neoload, VSTS, WAPT, App Loader, Locust, K6

Monitoring Tools: HTTP Watch, Fiddler, Postman, Chrome Console, Perfmon, SAR, MAT, Jconsole, VisualVM, New Relic, Egg cloud, Grafana, Splunk, Dynatrace, App Dynamics, JDK Utilities, SiteScope.

Load Runner Protocols: Web http/html, Mobile http/html, SAP GUI, SAP http/html, Citrix, ODBC, SQL Server, AJAX Truclient, Web Services, ASP.Net, RDP, Flex.

Utilities Created: Lighthouse capture metrics via Load runner, Upload Files more than 2 GB in LR, Reading HTTP error codes from Log files, Front end metrics, Rading LR vuser log files, analysing web server and App server log files via java script, Send email via MS API, Send teams msg via MS API etc....

Analytics Tool: Google analytics, ADOBE analytics.

Performance Testing Domain Exp: AEM, Healthcare, Telecom, Airways, Manufacturing, Banking, Ecommerce etc..

WORK EXPERIENCE

Jun 2017 - Till Date

ADOBE SYSTEMS,
Senior Consultant,
Bangalore.

Performance Testing and engineering end to end activities .

Mar 2015 - Jun 2017

IBM India Pvt Ltd,
Test Soecialist,
Chennai/Bangalore

Performance Testing and engineering end to end activities .

Jun 2014 - Mar 2015

Sapient Consulting Ltd,
Senior Associate,
Bangalore

Performance Testing and engineering end to end activities .

Jun 2012 - Jun 2014

Verizon Data Services,
Analyst,
Chennai

Performance Testing and engineering end to end activities .

Sep 2008 - May 2012

DXC India Pvt Ltd,
Quality Engineer,
Chennai

Performance Testing and engineering end to end activities .

SKILLS

Load Runner

Performance Center

New Relic

Grafana

NeoLoad, App Loader, MS VSTS

Jmeter, Grafana K6, Locust

DynaTrace

SiteScope

C & JavaScript

Google Analytics

ADOBE Analytics

Performance Testing & Engineering

LANGUAGES

C , Java Script, CURL, PowerShell

SUMMARY

Good experience in Requirement Gathering, Preparing Test proposal document, Test plan document, Workload model, Detailed Test Outcome Report, Recommendation document.

Independently developed Load Runner Test Scripts for more than 100 applications according to test specifications / Requirements.

Very good experience in Sales force application, API performance testing. Good experience in Adobe Experience Manager Performance testing (AEM) and on-prem and cloud services applications.

Experience in setup the Load generator machines, Analyze server log files using inbuilt utility, heap dump, thread dump. Very good experience in Cloud services application – Azure Kubernetes, Cloud Manager pipelines and identifying issues in Cloud architecture.

Very good in fixing and troubleshooting issues in Load runner tools and Scripting.

Very good knowledge in LR scripting, customizing scripts using most of the LR functions and C functions and very good in Load runner scripting out of (10/10) and handled Async calls, APIs and followed scripting standards in all LR scripts.

Having very good experience in Test execution, monitoring server-side statistics using SAR, VMSTAT and defect tracking tool – JIRA, Confluence. Developed/automated utilities like send email, read passcode from outlook email, send message in teams via load runner script.

Very good experience in Cloud services application – Azure Kubernetes, Cloud Manager pipelines and identifying issues in Cloud architecture

Developed/automated utilities like send email, read passcode from outlook email, send message in teams via load runner script.

Working experience in AEM, Airways, Healthcare, Telecom, Banking, Automobile, Retail, Travel Leisure and E-Commerce Domain and AEM performance testing, Sales force application, API performance testing

Good experience in Adobe Experience Manager Performance testing (AEM author, AEM dispatcher, AEM publisher performance testing) and on-prem and cloud services applications.

Very good performance testing experience in enterprise applications (SAP, Workday, Salesforce).

PROJECTS

ADOBE: Adobe Experience Manager Solutions (AEM Author, AEM Dispatcher, AEM Publisher) – 100 Projects, ADOBE Campaign, Adobe Experience Platform, Magento applications, AEM forms.

Internal Projects

IBM: AT & T, Ericsson, Nationwide Building Society.

Sapient: Target.

Verizon: Internal products - Telecom

DXC: Internal products - Healthcare
