PROFESSIONAL SUMMARY

- Proactive and goal-oriented leader with strong functional, technical knowledge and having proven track record in BFS applications testing with over 15 years in strategic roles, adept in System Integration Testing, User Acceptance Testing, defect management, API testing, functional test automation, quality metrics and QA project management
- Successfully led and executed projects that resulted in successful deployments for several organizations including Standard Chartered Bank, MetLife Investments, Royal Bank of Canada, Lloyds Banking Group, Northern Trust, Fidelity Investment Services, Franklin Templeton, Citibank NA and Deutsche Leasing. My hands-on involvement in these projects ensured alignment with organizational goals and stakeholder expectations, contributing to enhance operational efficiency and quality assurance across various BFS applications
- Having experience in developing robust and comprehensive test automation framework / test suite using Selenium WebDriver and Java. This initiative significantly streamlined the regression testing process and facilitated consistent execution of test cases across multiple project releases
- Possess hands-on experience in API testing using REST Assured and TestNG which has simplified the process of writing comprehensive tests with minimal code, making it an essential tool for ensuring the quality of APIs
- Major Project worked: TCS BaNCS-SCB (Corporate Actions, SWIFT regulatory), Wealth Management portfolio-MetLife Investments, Risk IT portfolio (Credit Risk, Market Risk, Liquidity Risk)-RBC, AFS (Collateral Management, Corporate Lending), Bankway (Core Banking)-Citibank NA, EBS (Core Banking)-Citibank Germany, Private Label Credit Card-GE Capital, CSP (Order Booking and Order Management)-Citibank Zurich
- Expertise in both Agile Scrum and Waterfall methodologies, enabling me to effectively deliver projects that meet stakeholder expectations
- Having strong domain knowledge in Capital Markets, Investment Banking, Core Banking, Corporate Lending, Private Banking and Cards

KEY SKILLS

- Functional Testing: (Business Requirement Analysis, Test estimation, Test Strategy, Test Planning, Scrum Framework, Test Case Prep and Exec for SIT, UAT, Regression Testing, API Testing, ETL Testing, Defect Management, Quality Metrics, Test Data Management
- Agile Scrum Master (practitioner)
- Test Automation: Selenium WebDriver, Java, Python, REST Assured, TestNG, SQL, QTP, ALM
- Banking products: BaNCS, Bankway and FLEXCUBE, TLM
- Project Management: JIRA, SharePoint, Confluence, MS Projects and resource management

WORK HISTORY

Standard Chartered Bank GBS, Chennai, India

SENIOR TEST MANAGER 10/2018 to 12/2023

- Worked hands-on and successfully tested 18 sprints for global custodian Corporate Actions solution BaNCS for APAC and MEA markets
- Led defect triage meetings, managing ~60 critical defects and ensuring 80% timely resolution
- Managed 20+ key stakeholder relationships to secure 100% on-time delivery in SIT and UAT phases
- Identified 60 regression test flows for automation covering ~80% of critical functionalities. Automated regression test suite using Java and Selenium WebDriver and leveraged it for core releases which has reduced the regression timeline and cost by ~30%
- Leveraged ChatGPT to create SIT test scenarios and cases for Corporate Action events which has shortened the test preparation timeline by ~40%
- Proactively trained 12 new entrants on capital markets domain and BaNCS Corporate Action functions which has resulted in increased test quality and productivity by ~25%

Cognizant Technology Solutions, Chennai, India

SENIOR MANAGER – PROJECTS 09/2007 to 10/2018

- Led a team of 25 test analysts and 4 leads to increase System Integration Testing efficiency ~15%

- Developed and implemented a comprehensive test strategy and test plan for MetLife Investments, Royal Bank of Canada reducing time-to-market by ~2.5 months
- Taken initiative to improvise testing processes and ensured test quality so as to lower defect leakage of less than 1% non-critical defects in production
- Leveraged CRAFT automation framework that decreased regression testing cost and timeline by ~30%
- Led cross-functional training initiatives that has bridged the technical and functional knowledge within the team which resulted in reduction of SIT cost and timeliness by ~20%
- Made significant contribution to develop an RFP that secured 2 major deals from MetLife Investments USA and Royal Bank of Canada

Hexaware Technologies Ltd, Chennai, India

SYSTEM ANALYST 01/2004 to 08/2007

- Worked hands-on various testing stages (business requirement analysis, creation of test scenarios, test cases, traceability matrices, SIT, UAT support, defect management, test logs, test metrics and test closure) for Enhanced Banking System (EBS) for Citibank Germany, Automated Financial System for Citibank USA, Unified Contract System for Deutsche Leasing Germany and Dolphin for Deutsche Leasing Germany with high quality and met customer expectations
- Effectively coordinated with both development and business teams to ensure timely delivery of project milestones. This collaboration was crucial in aligning testing efforts with development cycles and business requirements, facilitating smooth communication and addressing any potential issues or risks early in the life cycle
- Actively participated in the identification of 25 regression candidates for automation, ensuring comprehensive coverage of critical functionalities
- Successfully automated regression test suite using QTP and integrated with ALM, for the Dolphin project releases which has improved test efficiency, quicker feedback on software quality and significantly reduced the turnaround time for regression testing by ~25%

Thinksoft Global Services P Ltd, Chennai, India

SENIOR TEST ENGINEER 01/2001 to 12/2003

- Successfully tested System Integration Testing for Private Label Credit Card (PLCC)-GE Thailand, Authorization module in Vision Plus system for GE Asia Pacific, Sharesave - Standard Chartered Bank, GE PROBE - GE Capital UK and eOrion phase-I - Morgan Stanley Dean Witter Bank UK
- Successfully performed User Acceptance Testing and ensured high quality for Client Service Platform (CSP) Phase-III EMEA - Citibank Switzerland and UK
- Actively participated in defect triage sessions to prioritize and manage defects effectively, ensuring that critical issues were addressed promptly on time
- Developed regression test suite using Win Runner and leveraged it for CSP project releases regression which decreased the regression timeline and cost by ~30%

EDUCATION

Master of Computer Applications - Gandhigram Rural Institute - Deemed University, Dindigul, Tamilnadu

Bachelor of Science (Computer Science) - Bharathidasan University, Tiruchirappalli, Tamilnadu

CERTIFICATIONS

- Cognizant Certified Professional in Level-0: Banking & Financial Services
- Cognizant Certified Professional in Level-1 - Investment Banking & Brokerage
- Software Testing and Project Management certifications from Brainbench

ACCOLADES

- 'Applause Dream Team Award' for the successful implementation of a Collateral Management system of RBC in Cognizant
- Many appreciations from LBG project stakeholders for the quality testing delivery and successful implementation of ISA Verde, ISA GR11, ISA GR12, ECM R4, 4A, 5, 5+ project releases in Cognizant
- 'Applause Award' for the outstanding performance in Metavante's Bankway project in Cognizant
- 'Team Award' for the best performance in GE Capital projects in Thinksoft Global Services
