

Dhanalakshmi Muthusamy

Quality Engineer@Qualitest

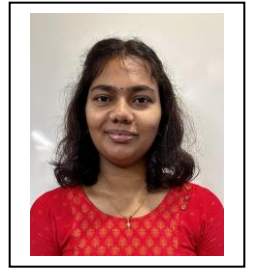

Email ID- **dhanalakshmim2605@outlook.com**

Alternate Email ID- **dhanam9926@gmail.com**

Mobile No-**8144288404**

LinkedIn Profile- <https://www.linkedin.com/in/Dhanalakshmi-m-99b6aa236>

Address- No 45, 3rd Cross Street, Vaithiyalingam Salai, Neelankarai, Chennai-600115

Objective

Dedicated and results-driven Performance Testing Engineer with 2 years of hands-on experience in designing, implementing, and executing performance tests. A quick learner with a proven ability to swiftly adapt to new environments, seeking a dynamic role where I can leverage my adaptability and rapid learning skills to contribute effectively to a diverse and challenging work environment.

Executive Summary

- Involved in Various types of Performance Tests covering Load Test, Stress Test, Endurance Test.
- Extensive working knowledge on Performance Testing Web Applications and Web Services.
- Good Exposure in Analysis of performance bottleneck identification.
- Knowledge of the Software Development Life Cycle (SDLC) and Software Testing Life Cycle (STLC)
- Good knowledge in capturing the Server-side metrics like CPU Utilization, Memory, Bottlenecks etc.
- Good knowledge in providing the Analysis reports after the Performance test executions.
- Good exposure in Linux/Ubuntu environment.
- Good exposure in Docker, Kubernetes.

Technical Skills

- Performance Testing Tools: Neoload, JMeter, LoadRunner, BlazeMeter, Taurus, K6, Eggplant.
- Monitoring Tools: Grafana, InfluxDB.
- CI/CD Tools: Jenkins.
- Version Control Tools: GitHub
- Conceptual Knowledge: SQL, Java, C and Python

Work Experience

- Organization Name: HCL Technologies (Jan 2022- Apr2022)
- Technology Skill set: Network Analyst
- Organization Name: Qualitest India Private Limited (Apr 2022- Present)
- Technology Skill set: Performance Testing Engineer

Projects

Project: MS Amlin

Duration: Dec2024-Present

Job Role: Performance Test Engineer

Performance and Monitoring Tools: Neoload(Web & Real Browser)

Responsibilities:

- Worked closely with the application owner to understand user behaviors, critical user journeys, and expected traffic patterns. Collected relevant data to simulate realistic scenarios during performance testing.
- Utilized Neoload for scripting, creating scenarios that accurately replicated user interactions in both web and real browser environments. This involved scripting navigation paths, form submissions, and other essential user actions.
- Planning for Execution of load tests using Neoload to simulate various user loads, measuring system behavior under different conditions.
- Maintained open communication with the application owner throughout the testing process. Validated the test scenarios against real-world usage patterns to ensure accurate representation.

Project: Transamerica

Duration: From Oct2023 – Dec2023

Job Role: Performance Test Engineer

Performance and Monitoring Tools: Load Runner (Web & Truclient) and AppDynamics

Responsibilities:

- Collaborated with cross-functional teams to gather performance requirements and ensure testing aligns with business objectives.
- Utilized tools such as JMeter and LoadRunner to simulate virtual users and analyze system behavior under various load conditions.
- Developed and executed comprehensive performance test plans for web applications, identifying and addressing performance bottlenecks.
- Conducted root cause analysis of performance issues, providing detailed reports and recommendations for improvement.

Project: Imperial

Duration: Jul2023-Sep2023

Job Role: Performance Test Engineer

Performance and Monitoring Tools: JMeter

Responsibilities:

- Creating Test data for workflows as per requirements.
- Recording test Scripts for multiple business critical workflows using JMeter.
- Customizing the scripts using correlation, parameterization, and user defined functions.
- Executing **Load Tests** for different types of scenarios using Redline13.
- Analyzed the results and prepared test execution report.

Project: Qualiview

Duration: Mar2023-Jun2023

Job Role: Performance Test Engineer

Performance and Monitoring Tools: JMeter, Influx DB and Grafana.

Responsibilities:

- Recording test Scripts for multiple business critical workflows using JMeter.
- Customizing the scripts using correlation, parameterization, and user defined functions.
- Executing **Load Tests** for different types of scenarios.
- Setting up influx DB and dashboards on Grafana for monitoring Client-Side Metrics.
- Analyzed the results and prepared test execution report.

Project: Equifax**Duration:** Dec2022-Jan2023**Job Role:** Performance Test Engineer**Performance and Monitoring Tools:** JMeter, Influx DB and Grafana.**Responsibilities:**

- Developed Test Scripts and Test scenarios using API's. For application developed.
- Customizing the scripts using correlation, parameterization, and user defined functions.
- Executing **Load Tests, Stress tests** for different types of APIs.
- Setting up influx DB and dashboards on Grafana for monitoring Client-Side Metrics.
- Analyzing the results and prepared test execution report.

Project: Asure – Advanced HR**Duration:** Oct2022-Nov2022**Job Role:** Performance Test Engineer**Performance and Monitoring Tools:** JMeter, Blazemeter, New Relic, Influx DB and Grafana.**Responsibilities:**

- Recording test Scripts for multiple business critical workflows using Blazemeter plugin, Fiddler and JMeter.
- Customizing the scripts using correlation, parameterization, and user defined functions.
- Executing **Load Tests, Stress tests** for different types of scenarios.
- Setting up influx DB and dashboards on Grafana for monitoring Client-Side Metrics.
- Monitoring Server Resources Utilization using New Relic.
- Analyzing the results and prepared test execution report.

Achievement

- Certified Tricentis Neoload Professional Certification.
- Certified Performance Testing Using LoadRunner 12.50 Certification in Udemy.

Education

Bachelor of Engineering (Electronics and Communication Engineering 2016-2020) - 75%

University College of Engineering, Nagercoil

Anna University

Higher Secondary - 86%

St.Ignatius Convent Higher Secondary School, Palayamkottai

State Board

Secondary School Leaving Certificate - 98%

Govt.Girls High School, Nanguneri

State Board
