Test Engineer with almost 3 years of experience in Performance testing, possessing specialized domain knowledge in the HealthCare sector with adept ability to excel both independently and collaboratively within team environments showcasing strong interpersonal and communication skills. Seeking association with a progressive organization that gives me scope to enhance my skills according to latest trends and to be part of the team that dynamically works towards the growth of organization.

SKILLS

- Testing Tools: **HP LoadRunner, JMeter**
- Defect Tracking: **JIRA**
- Data Visualization Tools: **Power BI**
- Database: **Oracle SQL**
- Monitoring Tools: **Dynatrace, Splunk**
- API Tools: **ReadyAPI, Postman**
- Programming Languages: **C, Java, Python**
- Other Skills: **Jenkins, MS Power Automate, MS-Office**

EXPERIENCE

Performance Test Engineer - Accenture Solutions Pvt Ltd

August 2021 - Present

Project Name: Kaiser Permanente

- Carried out Performance testing across 10 major Kaiser Permanente's applications. Successfully completed end-to-end performance testing for 3 major Kaiser Permanente's applications single-handedly.
- Proficient in Non-Functional Requirements (NFRs) and Test Plan documentation.
- Expertise in designing test plans, scenarios, scripts, and analysis reports.
- Developed automated performance testing scripts using JMeter and LoadRunner in Web(HTTP/HTML), Citrix ICA, API and Truclient protocols.
- Enhanced script efficiency by implementing parameterization, correlation, and transactions integration.
- Automated Desktop applications using Sikuli with Selenium, leveraging OCR capabilities for test executions.
- Created Mock Services and developed REST Services using ReadyAPI and groovy scripting.
- Utilized Postman for mock request generation and validation, ensuring performance readiness.
- Executed diverse performance tests using Performance Center, providing 95th percentile test results, response time reports and detailed analysis reports.
- Monitored performance metrics comprehensively using Dynatrace, offering valuable recommendations.
- Implemented Jenkins automation for seamless Performance Center test executions within CI/CD pipelines, enhancing efficiency and ensuring optimal performance testing.
- Expert in JIRA, creating and managing defects and tasks for system enhancements.
- Optimized systems for user experience, by analyzing response times under different loads and analyzed performance data collected from tests to identify potential performance issues during Software Development Life Cycle (SDLC).
- Successfully reduced application response times by 40% through performance optimization strategies.
- Developed Python scripts for data automation reducing manual work by 30%, created interactive performance test results dashboards with Power BI. Acknowledged by clients and business teams for efficiency and cost-effectiveness.
- Managed a 3-member team, facilitating precise test scheduling and execution within project timelines.
- Collaborated closely with stakeholders to ensure timely project deliverables.

CERTIFICATIONS

- Microsoft Certified: Azure Fundamentals
- Microsoft Certified: Power Platform Fundamentals
- AWS Certified Solutions Architect - Associate
- AWS Certified Data Analytics - Specialty

EDUCATION

Rajalakshmi Institute of Technology, Chennai
Bachelor of Engineering (CSE)
7.95 CGPA

2017 - 2021
