SKILLS

- Python
- SQL
- ALM
- Jira
- Confluence
- VBA
- Selenium Web driver
- Cucumber BDD
- TestNG
- Splunk
- Silk Test
- Data Analysis
- Data Engineering
- Data Visualization
- Power BI
- Risk Management
- Banking
- Scrum master
- Agile Methodologies
- Android/Linux Set Top Box Testing

- defect detection and reducing release cycle time
- Collaborated closely with DevOps teams to streamline deployment and validation processes across multiple environments
- Managed and executed testing for Amazon and Netflix certification
- Conducted comprehensive testing including Functional, Non-Functional, Smoke, Unit, Integration, Sanity, and Regression Testing

Senior STB Test Lead, 09/2012 to 10/2019

L&T Technology Services Ltd

o **Client : Cisco (Rogers Cable) - USA (Nov 2015 to Oct 2019), Chennai (Sept 2012 to Oct 2015) - Set Top Box Testing**

- Developed Python and Shell scripts for DVR, VOD, EPG, and PPV test automation.
- Led lab setup, test planning, and execution for front-end STB validation, covering EPG, Zapper, PIP-POP, and DVR.
- Designed and optimized database queries and ETL workflows for test data processing.
- Integrated Splunk for the Data analysis and Visualization of Set Top Box logs and forecasted customer usage patterns across various channel types supporting key business use cases.
- Actively contributed to Agile ceremonies including daily stand-ups, sprint planning, and retrospectives to enhance team collaboration, alignment, and continuous improvement.
- Improved automation frameworks to support CLI-based, multi-cycle and parallel STB testing, improving efficiency and test coverage.

IT Analyst, 06/2010 to 09/2012

Tata Consultancy Services - Chennai

o **Client : USAA (Banking - Auto Loans) - Web Application testing**

- Designed and executed system and regression test cases for banking applications.
- Implemented SQL-based data validation processes, ensuring data integrity in banking applications.
- Managed test planning, reporting, and defect tracking, ensuring compliance with industry regulations.
- Guided a team of 4 junior testers in adopting automated testing tools, leading to a reduction in manual testing time by 30 hours per month and enabling faster release cycles.

Software Test Engineer, 02/2007 to 05/2010

HCL Technologies - Chennai

o **Client: Teradyne (Semiconductors) – GUI Testing - Chennai (Feb 2007 to June 2010) , USA (4 months)**

- Automated GUI testing using Silk Test, reducing manual testing effort by 50%.
- Led the migration of test automation from Windows XP to Windows 7.
- Configured and maintained automated test environments for improved efficiency.

EDUCATION

BE, Electronics and Communication, 07/2002 to 04/2006

DR.M.G.R.Engineering College - Chennai

CERTIFICATIONS

IHub IIT Roorkee - Executive Post Graduate Certification in Data Science & AI (In Progress)

Certified ScrumMaster (CSM) – Scrum Alliance
