

PROFILE

Seasoned Director of Quality Assurance with over 20+ years of experience driving excellence in software testing and quality management. Proven track record of leading high-performing teams, implementing robust QA methodologies, and delivering high-quality software solutions on time and within budget. Adapt to strategizing quality assurance processes, enhancing testing frameworks, performance testing, security testing, and fostering cross-functional collaboration to achieve business objectives.

Spearheaded the quality assurance strategy for a leading technology company, overseeing a team of 50+ QA professionals across multiple projects.

Implemented a comprehensive test automation framework in the AWS cloud that reduced testing cycle time by 50%, increased defect detection rate by 30%, and automation efficiency by > 95%.

Introduced Agile testing practices, leading to a 25% improvement in release cycle time and enhanced team productivity by automating API in-sprint and UI functional in N-1 sprint.

Collaborated with senior management to define quality metrics and KPIs, ensuring alignment with business goals and customer expectations.

Managed budgets and resource allocation, optimizing operational

George William R

Director QA

EDUCATION

Master of Computer Applications | University of Madras | Apr 2002

Bachelor's Degree in Computer Science | University of Madras | Apr 1999

Trained on CMMi Level5 1.2v Process implementation by KPMG | Mar 2011

WORK EXPERIENCE

Talent Neuron by Leeds Equity Partners. (ex-Gartner Research & Advisory India Pvt Ltd.) | Director QA | Jun 2014 – Present

Led the design and implemented **web-based automation portal** in the cloud, test cases can be automated with **absolutely no coding** (drag and drop objects), execution, view reports, integration of other frameworks built using Python for API Automation, Performance testing framework using JMeter, Hybrid framework using Selenium Web driver, and Page Object Model Framework using Selenium, TestNG, etc.,

Optimized the efforts of automation by recording using Browser plugin and Play, Capture screenshots, Videos, Logs, Performance metrics via Network traffic as HAR files from the client browser, failed test

Creation integrated with Jira, Test execution cycle & Status across Gartner in various Products Talent Neuron, Profession Service Automation, Digital Benchmark Performance, Metrics that Matters, Technical Roadmap Builder, etc.,

Implemented the **Performance testing** tools JMeter and Visual Studio performance tester across various products in the AWS Cloud and Dynatrace is used as monitoring tool.

Implemented the **Security testing** tool Whitehat across various products analysing code for cross-site scripting, dead links, security for web controls, etc. by adhering to the vulnerability class.

Implemented **Continuous Integration and Continuous deployment** from the lower environment to Production by Git, Jenkins & in-house build CICD Service creating tasks for the leads on build, deployment, Automation execution, and sharing smoke, regression & performance testing reports.

efficiency and reducing costs by 15% without compromising quality.

Visionary leadership, Team building - Recruiting, mentoring, retaining top QA talent, conflict resolution, problem-solving, and decision-making.

Mentoring and coaching team members to improve their technical and soft skills, including training them on automation best practices and providing feedback on their work.

ISG Novasoft Pvt Ltd. | Assistant Manager QA | Aug 2011 – Jun 2014

Supervised and trained team members on designing, preparing, and implementing JMeter, functional UI automation Selenium, security testing using the Fiddler tool, and analyzing code for cross-site scripting, dead links, security for web controls, etc. in the US Mortgage Loan Origination Products Morvision and Catapult.

BahwanCybertek Pvt Ltd., | Sr. Test Lead | Oct 2006 – Aug 2011

Led the projects to achieve Software CMMi 5 Assessment certification and was a member of Process Management Office Group (PMO) - Process owner for verification & Validation.

Designed, developed, and implemented load test scripts using HP LoadRunner 9.5 scaled up to 2040 concurrent users and Functional Testing with Smart bear Test complete 8.0. Managed multiple releases of system testing the Banking & Finance Products e-payment (Tax, Pension, Salary, Customs, pension Collection, Charge Back, Electronic Letter of Guarantee, Bulk Bill, Reconciliation, and Admin) systems, FlexCube Workflow, International Exchange House Product, Cash switch Speed Remittance, and FedBid).

Represented BahwanCyberTek at IBM Innovation Centre, Bangalore to do Load & Performance Testing for the Product Cash Switch Speed Remittance Web Application deployment (WAS ND 6.1, HTTP Server 6.1, DB2 9.1, Windows 2003) using IBM Rational Performance Tester V 7.0.3.

ISOFT R&D Pvt Ltd. | Quality Engineer | Aug 2005 – Sep 2006

SRA Systems Ltd., | Executive Quality Engineer | May 2004 – Aug 2005

Involved in requirements gathering for product customization, Preparation, review, and execution of Test Cases as per the workflow developed for Client Requirement Letters of Credit (Issues, Amendment), Bills (Issues, Amendment), Shipping Guarantee, and Banking Guarantee for the client Danamon Bank – Indonesia. Rate Fixing (Interest rate, Exchange Rate for Drawdown), EDS –Discounted Loan, Prepayment, and Additional Cost Recovery Rate for the client Lloyds Bank – UK, USA.,

AWARDS AND HONORS

Talent Neuron Awards 2020 | **Best Line Leader** - Coaching and Development Award

Talent Neuron Annual Awards Winner 2020 for **Product Improvement Idea of 2019**

Proactive thinking on acquiring, building, and extracting value from data; Rethinking how we present data on the platform.

Gartner India Excellence Awards 2018 for **Intellectual Excellence**

SKILLS

- Test Automation & Frameworks (Java, JavaScript, Selenium, Test NG)
- Process Improvement
- Quality Assurance
- Agile & Scrum Methodologies
- Quality Metrics & KPIs
- CI/CD Pipelines & Tools (Jenkins, GitLab)
- Risk Management & Mitigation
- Cross-functional Team Leadership
- Root Cause Analysis & Problem Solving
- Performance Testing & Security Testing (JMeter)
