Summary

• Software Tester with 3+ years of experience specializing in ensuring top-notch software quality and performance. Skilled in devising comprehensive test strategies, developing test plans, and executing various testing methodologies, including functional and performance testing. Proficient in scripting for **REST API** and **Citrix Protocol** using **LoadRunner**. Adept in collaborated with cross-functional teams, taken ownership of testing activities, and delivered successful project outcomes.

Skills

- **Technical** : **LoadRunner** | **Performance Testing** | Functional Testing | Automation & Manual Testing | SQL .
- **Tools** : Oracle Database | Winscp | Putty | Dynatrace | Soap UI | Postman | JIRA | Eclipse IDE | Sysdig | Splunk .
- **Technologies** : **REST API** , **Citrix Protocol**.
- **Reporting and Analysis** : Results analysis | Report generation | Defect Tracking | Bottleneck Identification | Performance optimization.

Experience

Quality Engineering Analyst	<u>Accenture</u>	<i>Chennai, India</i>	01/2021 - Current
• Designed robust LoadRunner scripts for accurate REST API and Citrix protocol simulation. • Timely achieved Non-Functional Requirements (NFRs), meeting project milestones and deadlines effectively. • Identified and documented functional defects within assigned NFRs, facilitated prompt resolution and quality improvement. • Consistently engaged in daily status calls, fostering collaboration and ensuring project-wide awareness. • Worked closely with functional testing teams to align performance test scripts with functional requirements. • Analyzed test results, generated reports and highlighted performance metrics, bottlenecks, and improvement areas.			

Education

Bachelor of Engineering	<u>Panimalar Engineering College</u>	<i>Chennai, India</i>	08/2016 - 10/2020
• Major in Electronics and Communication Engineering • Grade – 7.5 GPA			

Certification

- **Microsoft Azure:AZ900 Certificate** : Completed AZ900 Assessment and got certification from Microsoft **(10/2023)**

Client Project

Performance Tester	<u>Kaiser Permanente</u>	<i>SCAL, US</i>	01/2021 - Current
• Contributed significantly to Kaiser Permanente as a Software Tester, utilized advanced proficiency in performance testing methodologies and tools to enhanced the functionality, scalability, and responsiveness of critical healthcare software systems.			

Achievements

- Successfully reduced application response times by **40%** through performance optimization strategies.
- Automated manual tasks & reduced the manual work flows by **20%** in the daily tasks.
- Contributed test strategic insights to establish robust testing standards, optimized overall testing efficiency.
- Identified and addressed performance issues during the development phase, prevented costly post-deployment fixes.
