Summary

- Performance Tester with **3.3+** years of expertise in ensuring superior software quality and performance.
- Proficient in devising comprehensive test strategies, developing plans, and executing various methodologies.
- Specialized in performance testing, adept at resolving defects promptly.
- Skilled in tools like **LoadRunner** & **JMeter** for automating processes, and optimizing application performance.

Skills

- **Tools** : HP LoadRunner, JMeter, Dynatrace, JIRA, Ready API, Soap UI, Postman, WinSCP, Putty.
- **Reporting & Analysis** : Result analysis , Report generation , Defect Tracking , Bottleneck Identification.
- **Programming Languages**: Java , SQL.
- **Other Skills** : MS office.

Experience

Company: Accenture Solutions Pvt Ltd | Jan 2021 – Present

Role: Performance Test Engineer

Projects Worked:

- 1.EConsult Medical Application
- 2.EPIMS - Non-Pharmacy Application
- 3.MyChartApp - Provider to Patient application

- Carried out Performance testing across 3 major Kaiser Permanente's health care applications.
- Successfully completed end-to-end performance testing for 3 major Kaiser Permanente's applications single-handedly.
- Automated performance testing scripts using **LoadRunner** in Web (HTTP/HTML), Citrix ICA, Rest API protocols.
- Designed & executed performance test scripts using **SOAP UI** to assess the performance of web services and APIs.
- Enhanced script efficiency by implementing parameterization, correlation, and transactions integration.
- Utilized **Postman** for mock request generation and validation, ensuring performance readiness.
- Executed performance tests in Performance Center, delivered 95th percentile test results & response time reports.
- Monitored performance metrics comprehensively using **Dynatrace**, offering valuable recommendations.
- Implemented Jenkins automation for seamless Performance test executions within CI/CD pipelines, ensuring optimal performance testing.
- Generated comprehensive performance test reports, highlighting key metrics & recommendations for improvement.
- Expert in **JIRA**, creating and managing defects, tasks for system enhancements.

Acheivement

- Optimized systems for user experience, by analyzing response times under different loads.
- Analyzed performance data collected from tests to identify potential performance issues during SDLC.
- Successfully reduced application response times by 40% through performance optimization strategies.
- Managed a 3-member team, facilitating precise test scheduling and execution within project timelines.

Education

- Panimalar Engineering College, Chennai
- Bachelor of Engineering & Major in Electronics and Communication Engineering.
- Grade – 7.5 GPA

Certification

- [Microsoft Azure:AZ900 Certificate](#)
