PROFESSIONAL SUMMARY

As a software tester with 2.4 years of experience in Manual testing. Proficient in testcase design, defect tracking and requirement analysis Skilled in tools like Jira, AS400 with strong understanding of STLC, SDLC and Agile. Hands-on experience in insurance domain. Looking for a challenging career in an organization that provides the opportunity to use my skills and learn new technologies to help grow along with the company.

EXPERIENCE

Associate software test engineer

QAssure technologies, India, Chennai

November 2022 - March 2025

As an associate software test engineer, I was responsible for ensuring the quality and functionality of various software products.

- Collaborated with developers, business analysts and stakeholders to understand business requirements.
- Designed and executed manual test cases based on business rule and system specifications.
- Managed bug tracking and test reporting using JIRA,RTM and Confluence.
- Participated in daily stand-ups and Agile ceremonies.
- Handled production issue validation and post-release verification.
- Conducted UAT both front-end and back-end modules (Life400, FileNet, Dotsphere, letters, emails, and SMS).
- Actively collaborated with Project managers ,business analysts and developers to identify and resolve the bugs.

PROJECTS

Singlife-AS400 & Ezsub

Worked in Life and Health insurance projects using **AS400** backend application for policy creation, renewal, change of plans and insurance discounts for end to end. Worked in multi-environments test setup with ongoing development cycles.

Ezsub a front-end mobile application, validating complete policy flow from policy creation to underwriting and issuance. Worked in regression testing, functional testing.

Worked in different UAT environments including production issues for policy discounts and policy letter checking.

Tools used: Jira, Dotsphere,FileNet,AS400
