

JANANI BHARATHWAJ

EXPERIENCE

July 2021 - Current

Test Manager (Client: Nokia) Infinite Computer Solutions | Chennai, India

- Directed strategy, leadership, and governance for multimillion-dollar application projects.
- Investigated innovative solutions for optimizing test operations.
- Managed project teams, facilitating cost-efficient and punctual completion of projects with \$250K in savings.
- Led a cross-functional team of 20+ professionals in India and Europe.
- Consulted with stakeholders to pinpoint risks and opportunities within various projects, boosting stakeholder satisfaction.
- Facilitated and managed cross-functional teams, including architecture, network security, and third-party vendors, to align with client expectations.
- Implemented flexible working conditions which elevated staff satisfaction and preserved project timelines.
- Managed additional funding and resources for high-impact projects, ensuring seamless execution without exceeding budget constraints.
- Strong understanding of LTE, 5G, IMS, and VoLTE architecture, with hands-on experience in network testing.
- Conducted user acceptance tests by working closely with end users to validate functionality as per their expectations.
- Participated in product design reviews to provide input on functional requirements, product designs, schedules, or potential problems.

July 2019 - July 2021

Test Lead Infinite Computer Solutions | Chennai, India

- Managed IT projects and initiatives, ensuring successful project delivery, and improved ROI.
- Created comprehensive dashboard reports offering insights into project status, budgets, and performance metrics.
- Led incident management calls, troubleshooting service delivery issues, and implementing root cause analysis processes.
- Successfully recovered a troubled project as Customer-Facing lead by implementing stringent code reviews, quick fixes, and early end-to-end testing.
- Developed remediation plans and established new processes for newly set up engagements.
- Overcame resource fulfillment challenges by mentoring and coaching teams in Client Applications and Processes, Scrum Framework, and Information Security.
- Facilitated negotiations between cross-functional teams to resolve conflicts and align project goals with business objectives.
- Compiled data on quality issues and vulnerabilities and reported findings
