CAREER OBJECTIVE

To build a career with leading organization with commitment, dedication and planning which will help create an atmosphere for potentially, efficiency and elevation of my career and my individual growth.

ACADEMIC QUALIFICATION

Degree/Course	Year	Institution/Board/University	%/CGPA
B.E.- (Electronics and Communication)	2019	Agni College Of Technology, Affiliated to Anna University Tamil Nadu, Chennai.	6.1
XII	2015	Anna Gem Science Park Matriculation Higher Secondary School, Chennai (TN State Board).	60%
X	2013	Reserve Bank Staff Quarters School (CBSE).	6.6

TECHNICAL SKILLS

Programming Languages	Design Application Software
- Basics Of C Programming - Basics Of C++ - Basics Of JAVA - Core JAVA - OOPS Concepts - AUTOMATION TESTING - Manual Testing	- PSpICE - MATLAB - NETSIM ACADEMIC

WORK EXPERIENCE

- Worked in TCS as Associate Consultant. (17/05/2021- 23/07/2021)

Description- Worked in PEPSICO project.

Roles and Responsibilities

Need to solve the login issues faced by the people who work under PESICO. We will be updating the new passwords and username for every 6-8 months. This process is done through an application and the issues are solved through e-mail or calls.

- Worked in Alpha Cloud Labs as DATA QUALITY ANALYST. (02/08/2021-15/12/2021).

Description- Worked in various gaming video projects.

Roles and Responsibilities

Marking and measuring the brands such as AT&T, Adidas, Gatorade, Heineken etc.

Need to update the measurements by using shortcut keys in an application called MMQC.

- Completed an Automation Testing Course in 2022. (2022/MAY-2022/DECEMBER)

WORKSHOPS AND IMPLANT TRAINING

- Workshop in "Antenna Design" held at Agni College of Technology by Tesla Minds (Learned how to design a basic antenna structure).
- Workshop in "Internet of Things" held at Agni College of Technology by Information Technology Department (Learned basics of IOT).
- 5 days implant training in "Chennai Harbour" (Learned about Communication and Mechanical field).

MINI PROJECTS / INPLANT TRAINING / INDUSTRIAL VISIT

- Mini Project : Bicycle USB charger
(Learned about how to charge a device from a rotating wheels).

Battery charger using SCR circuit

(Learned about how to charge a battery using SCR).

- Inplant Training : 2 weeks internship on Embedded System at Hewlett Packard

(Summary: Learned about Basics of Embedded System
and
Arduino Programming).

- Chennai Harbour (6 days).
(Summary: Had gained knowledge about various department of harbour).
- Industrial Visit : Dhoordharshan (1day)

(Summary : Learned various application of ECE in Networks as well as Camera Technologies).

ACHIEVEMENTS

- 3rd prize in project display competition held at Agni College Of Technology by ECE department.
(Battery charger using SCR circuit -learned about how to charge a battery by using SCR).
- Winners in project competition held at Agni College Of Technology by Kalam's club.
(Bicycle USB charger-Learned about how to charge a device).
- Runners of Tech Blasters event held at Dhanalakshmi Srinivasan College Of Engineering.
- Winners of Slay with your say event held at Dhanalakshmi Srinivasan Of Engineering.
- Won hard working student award in the year of 2013 at Reserve Bank Staff Quarters School.

LEADERSHIP

- Throw Ball Team Captain (10 th, 11 th, 12 th as well as zonal team captain).
Project Team Leader in Kalam's Club held at Agni College of Technology
- (Leading 6 members in my team and did a project based on Bicycle USB Charger)
- Member in NGO-Bhoomi Organization
(Working to clear the Plastic Materials from Public Places).

EXTRACURRICULAR ACTIVITIES

- Paintings (Modern Paintings), Sketching (2D-Images) and Reading Books (Fiction and Horror Stories).
- Playing Badminton.

PERSONAL PROFILE

Date of Birth : 29.11.1997
Father's Name : D.Kannan
Mother's Name : M.K.Gayathri
Gender : Female
Nationality : Indian
Languages Known : Tamil(R/W/S), English(R/W/S), Hindi(R/W)

MINI PROJECT SUMMARY

- Bicycle USB Charger : It is energy converting circuit which utilizes the rotational energy from rotating wheels and converts it into electrical using dynamo which in turn use to charge the battery.
- Battery charger using SCR circuit: It is again a charger circuit which automatically charges the battery as soon as it dis enlarges.

I hereby declare that the details furnished above are live to and correct to the best of my knowledge.
