

PROFILE SYNOPSIS

Seasoned, Analytical Testing & QA Leader with success in working with **Fortune 500 clients** for developing **test strategies** tailored to project goals and client needs; consults with **key business stakeholders** to define test objectives, methodologies, and resource allocation. Track record of conducting **Functional, Integration, UAT, Regression, Release, and Automation Testing** on new software releases, enhancements, CR, maintenance and reporting discrepancies. **Influential Leader** in managing QA teams, establishing **testing environments**, and implementing **QA automation frameworks**.

- Technical Evangelist with excellence in developing **test plans, schedules, and strategies** for incremental delivery.
- Adept in overseeing readiness and availability of **upstream and downstream applications**, **mitigating risks**, and addressing infrastructure dependencies.
- Deft at managing **User Acceptance Testing (UAT)**, facilitating defect management, and providing support to business users. Adroit in **E2E delivery of IT projects and services**, ensuring delivery on time and within budget and upgrading from old to new processes.
- Talented in contributing to **team's growth** through coaching and mentoring; manages relationships with **external vendors** by resolving issues & ensuring compliance with agreements & SLAs.

PROFESSIONAL EXPERIENCE

Test Manager | Commercial Bank of Dubai | Quality Kiosk Tech | Aug. 2023 – Jan. 2024

- Fircosoft Amendments:** Implement name truncation for various channels such as RIB, CIB, SFA, and SWIFT, as per Fircosoft Amendments, and ensure compliance with UN/UAE list for payment sanctions.
- Test Planning:** Developed and executed test strategies, ensuring sign-off from business/stakeholders, and driving test execution in SIT and UAT environments for Firco.
- Vendor Coordination:** Coordinated with vendors for both upstream and downstream applications, ensuring seamless integration and effective testing processes.
- Defect Management:** Conducted defect triage calls with Dev/Business Team/Vendors, prioritizing defects with impactful implications for early delivery, and facilitating resolution through effective collaboration and communication.
- Test Coverage:** Ensured optimized test coverage across multiple interfaces, leveraging advanced testing methodologies, and facilitating walkthrough/review sessions with team.
- Risk Management:** Coordinated support for downstream applications, ensuring operational readiness and risk identification, and communication to clients with mitigation plans for potential disruptions.
- Artifact Sign-off:** Obtained sign-off for test artifacts, providing status reports to client and internal management, and addressing concerns.
- Change Management:** Led change management activities, ensuring smooth transition. Provided training and support to stakeholders to minimize disruption.
- Audit Governance:** Managed audit governance for the client, ensuring compliance with service delivery audit requirements.
- Stakeholder Engagement:** Worked with cross functional teams including development, UAT, business etc. to ensure and maintain clear understanding of the project requirements.
- Client Reporting and Communication:** Developed and maintained RAG (Red, Amber, Green) status reports for Firco, providing clear, timely, and transparent updates on test planning, vendor coordination, defect management, artifact sign-off, etc.

EARLY CAREER

QA Manager | Customerxps Software (Clari5) | Apr. 2021 – Aug. 2023

Consultant | PPMS | Nov. 2017 – Jan. 2021

Test Engineering Lead | Accenture India | Jan. 2010 – Jan. 2017

Senior QA Engineer | Oracle India | Mar. 2007 – Jan. 2010

Software Specialist | Sopra Steria India | Mar. 2004 – Jan. 2007

Developer – QA (Product Testing) | Trimble India | Apr. 2003 – Mar. 2004

SQA Engineer | CS Software India | Oct. 2002 – Apr. 2003

Test Associate | Think Soft Global | Dec. 2000 – Oct. 2001

KEY ACHIEVEMENTS

- 90%** - Average defect detection rates achieved in Accenture, Clari5, Oracle and Quality Kiosk, ensuring robust QA measures and minimizing post-production defects.
- 78%** - Average test case execution efficiency, showcasing team efficiency in Accenture, Quality kiosk, and Clari5.
- 87.5%** - Project delivery success rate, with 7 out of 8 projects delivered on schedule or ahead of schedule in Accenture, Oracle, Quality kiosk, and Clari5-CustomerXPS.

Other Significant Highlights:

Achieved **MTTD** of 2 hours for effectiveness of testing in identifying and addressing defects. || Drove **improvement in MTTR**, reducing to impressive 3 hours. || **Optimized regression test suite** execution time to TBD, enhancing regression testing processes and ensuring validation of software functionality in minimal timeframes. || Surged **client satisfaction rate** and facilitated **significant cost savings** by rendering additional support to the client.

SKILL SET

STLC || Test Strategy & Planning || Risk-Based Testing || Test Monitoring & Control || Functional & Automation Testing || Continuous Improvement || Project Management || Cost Control || Risk Management || Change Management || Resource Management || Productivity Enhancement || API Testing

Technical Skills: ADO || LoadRunner || Perfecto || Oracle || JIRA || JMeter || Dynatrace || Postman || ServiceNow HR Case Management || Oracle CRM on Demand || Agile || V || Waterfall

ACADEMIC CREDENTIALS

- Master of Business Administration in Human Resources** | Symbiosis Distance Education | 2012
- Bachelor of Computer Science** | Prince Shri Venkateshwara College, Madras University | 1999

Certifications: CSM || PRINCE2 Practitioner || ITIL V3 Foundation || Agile Scrum Master || Perfecto University Certificate Completion
