

MANIKANDAN.S

Software Test Engineer

✉ Manikandanmec096@gmail.com

☎ 9345778471

📍 Mayiladuthurai, Tamil Nadu

OBJECTIVE

Aspiring for challenging assignments in the field of testing and automation wish to achieve high career growth through a continuous learning process and prove to be an asset for the organization.

WORKING SYNOPSIS

- Over all 3+ years' experience in Software Testing with a solid understanding of **Test Planning** for Web based Applications and Mobile Application
- Experience in **Performance** testing using **JMeter** tools.
- Strong Experience in implementation and Manual Testing and Good Experience Automation of tests using SeleniumWebDriver.
- Well-versed with all stages of Software Development Life Cycle (SDLC) and Software Testing Life Cycle (STLC)
- Good Expertise in Financial, eCommerce Business Domains.
- Well versed with Various Testing Stages/Levels/Phases, Testing Types, Testing Techniques and Quality Work Products
- Experience in Functional and Non-Functional (Availability, Usability, Reliability and Compatibility) Testing Types
- Expertise on Black box Testing Techniques,
- Expertise in analyzing the results and reporting Suggestions and defects.
- Good Exposure on Bug Life Cycle
- Good Knowledge on Test Management Tools like TestDirector and QualityCentre
- Very much Familiar with Bug-Tracking tools like **JIRA**
- Experience in test planning and designing test cases.
- Experience in Build Automation tools such as **Maven**
- Experience in **API** Integration testing using **POSTMAN** tools.

PROFESSIONAL EXPERIENCE

2021/09 – till **Software Test Engineer**
Doodleblue innovation of technology, Chennai

EDUCATION

2014 -2018 **B E., Mechanical engineering**
E G S pillay Engineering College, Nagapattianam

2019 -2021 **M E., Mechanical engineering**
E G S pillay Engineering College, Nagapattianam

TECHNICAL SKILLS

Software Testing	: Manual and Automation Testing
Programming Language	: CoreJava
Functional Tool	: Selenium Web Driver , JMeter(Performance Testing)
Frameworks	: BDDCucumber, TestNG, POM, J-Unit, Data-Driven
Build Tool	: Maven
Version Control Tool	: GIT
Bug Tracking Tool	: JIRA
API Testing	: Postman API

PROJECTS

Project # 1 “OLE” – Grown brilliance

Description:

“OLE(Grown brilliance)” is an E-commerce platform based in united states Grown Brilliance is a brilliant destination for all things diamonds and fine jewelry. Grown Brilliance offers styles that run the gamut from simple to über-luxe. They also offer a bespoke program where you can design your own ring with the help of an expert.

Roles & Responsibilities:

- Analyzing the Requirement.
- Writing Test Cases, according to the Functional Specifications.
- Performed Functional & System Testing to check the stability of the Application
- Performed Integration testing for Data Flow among the Modules.
- Executing Test Cases to validate the Functionality and Transactions.
- Performed Regression testing.
- Performed Performance Testing
- Helped Development team in Reproducing bugs at Development Environment.
- Involvement in the System Test Plan Preparation and Requirements Streamlining.
- Involvement in Preparation of Test Procedures, Test Scenarios, Cases and TestData.
- Responsible for GUI and Functional Testing, using Black box Testing Techniques.
- Involvement in Test Execution, Results Analyzing and Defect Reporting.
- Execution of Test Plan and Monitoring Defect tracking Process Using Sun-Tracker.
- Involved in Regression Testing using QuickTest

Project # 1 “OLE” - Bevilles

Description:

“OLE(Bevilles)” is an E-commerce platform based in Australia Bevilles is the brand of beautiful jewellery that inspires, builds confidence and transforms people's lives. Every person deserves to have a bit of fabulousness in their lives, whether they are buying something special for themselves or giving a gift to a loved one. But Bevilles is more than beautiful jewellery.

Roles & Responsibilities:

- Analyzing the Requirement.
- Writing Test Cases, according to the Functional Specifications.
- Performed Functional & System Testing to check the stability of the Application
- Performed Integration testing for Data Flow among the Modules.
- Executing Test Cases to validate the Functionality and Transactions.
- Performed Regression testing.
- Performed Performance testing
- Helped Development team in Reproducing bugs at Development Environment.
- Involvement in the System Test Plan Preparation and Requirements Streamlining.
- Involvement in Preparation of Test Procedures, Test Scenarios, Cases and TestData.
- Responsible for GUI and Functional Testing, using Black box Testing Techniques.
- Involvement in Test Execution, Results Analyzing and Defect Reporting.
- Execution of Test Plan and Monitoring Defect tracking Process Using Sun-Tracker.
- Involved in Regression Testing using QuickTest

Project # 2 “OMBC”

Description:

OLD Madras Baking Company Private Limited is majorly in Manufacturing (Food stuffs) business from last 10 years and currently, company operations are active. And buy via online like admin and user portal

Roles & Responsibilities:

- Involved requirement gathering, estimation, planning and delivery.
- Mentoring team and addressing technical challenges and resolve it.
