

MOULI VIKASH

Software Tester

Profile Summary

A skilled **Software Test Analyst** with **2+ years** of experience in both **manual and automated testing**, I possess expertise in **Selenium (Java), Cypress, JIRA, and SQL**, along with a robust understanding of **Software Development Life Cycle (SDLC) models**. I am proficient in **functional, regression, exploratory, and API testing for web applications**. My experience includes defect tracking, test case design, and fostering collaboration across teams. I am dedicated to delivering high-quality software through structured testing methodologies and a commitment to continuous improvement.

Work Experience

Test Analyst | Duration: Jan 2023 - May 2025

Redite, Coimbatore, India.

- Analyzed software requirements and developed detailed, traceable test cases to ensure comprehensive test coverage.
- Conducted both manual and automated functional, regression, and system testing of web-based applications.
- Created, executed, and maintained Selenium automation scripts using Java for regression and smoke testing.
- Performed API testing with Postman, validating JSON and XML responses against established business rules.
- Identified, reported, and tracked software defects using JIRA, collaborating with developers to facilitate resolution.
- Actively participated in daily stand-ups, sprint planning, and retrospective meetings as part of Agile workflows.
- Provided performance testing support by executing load and stress tests, and analyzing response metrics.
- Prepared and submitted detailed test reports, defect matrices, and status updates to stakeholders.
- Ensured that test deliverables aligned with project timelines and adhered to SDLC process compliance.

Education Details

Bachelor of Engineering | 2022

SNS College of Technology, India.

Diploma in Engineering | 2017

Sri Ranganathar Institute of Polytechnic College, India.

Certification

- Software Testing Training
 - Besant Technologies

Contact

- +91 9087804080
- moulivikash@gmail.com
- Chennai, India

Key Skills

- Manual Testing (Functional, Regression, Smoke, Sanity, UAT)
- Automation Testing using Selenium WebDriver (Java), cucumber & Testng
- API Testing
- Test Case Design & Execution
- Test Planning and Strategy Development
- Defect Tracking & Bug Reporting
- Web Application Testing
- SDLC Methodologies: Agile & Waterfall
- Regression & Exploratory Testing
- Performance Testing (Load & Stress Testing)
- Cross-Browser & Mobile Application Testing
- Client & Stakeholder Communication
- Requirement Analysis & Documentation
- Continuous Integration/Delivery (CI/CD) Awareness

Technical Skills

- Testing Tools:** Selenium WebDriver (Java), Cypress, Postman
- Test Management:** JIRA, HP-ALM
- Programming Languages:** Java, JavaScript (Basic)
- Databases:** SQL (MySQL, basic queries, joins)
- Version Control:** Git (Basic)
- Operating Systems:** Windows, Linux
- CI/CD Tools:** Jenkins (Basic understanding)
- Browsers/Platforms:** Chrome, Firefox, Edge, Safari
- Others:** MS Excel, MS Word, Google Workspace (Docs, Sheets)

Projects Details

Project Name : CaixaBank
Role : Test Analyst
Domain : Banking

CaixaBank is one of Spain's leading financial institutions known for its digital transformation and customer-centric banking solutions. This project focused on testing and automating critical banking functionalities such as fund transfers, bill payments, and loan processing across web platforms and APIs.

- Developed automated test scripts utilizing Java, Selenium, and Playwright (JavaScript) to validate core banking features.
- Constructed and maintained scalable automation frameworks employing Maven, the Page Object Model (POM), and Playwright.
- Created robust XPath strategies to effectively manage dynamic elements within banking portals.
- Executed functional testing for modules such as loan applications, interest calculations, and balance inquiries.
- Conducted regression, smoke, and sanity testing for critical workflows, including login procedures, transactions, and statement downloads.
- Employed Behavior-Driven Development (BDD) with Cucumber and Gherkin to enhance documentation clarity and foster collaboration.
- Performed cross-browser testing across Chrome, Edge, and Firefox using Playwright.
- Validated APIs for functionalities such as fund transfers, authentication, and fraud detection via Postman and Rest Assured.
- Integrated Git and Jenkins to establish effective version control and Continuous Integration/Continuous Deployment (CI/CD) pipelines.
- Tracked and resolved defects through JIRA to ensure high-quality releases.
- Designed data-driven test cases to encompass a variety of banking scenarios, including overdrafts and declined transactions.
- Maintained and optimized test scripts to adhere to compliance and regulatory standards.

Project Name : PrettyLittleThing
Role : Test Analyst
Domain : E-commerce

PrettyLittleThing is a global fashion retailer under the Boohoo Group, delivering fast-fashion solutions. This project involved testing the e-commerce platform for reliability, payment gateway accuracy, and user experience.

- Analyzed business requirements and developed corresponding test scenarios, cases, and data.
- Conducted Functional, UI, Regression, and Payment Gateway Testing.
- Executed manual test cases and documented defects in JIRA, collaborating closely with developers.
- Led defect management and performed impact analysis following bug fixes.
- Maintained comprehensive test documentation, including test plans, execution logs, and reports.
- Engaged in requirement walkthroughs and clarification meetings.
- Identified opportunities for automation of repetitive tasks to enhance process efficiency.
- Supported regression testing during both major and minor releases.
- Collaborated with cross-functional teams—including Developers, Business Analysts, and DevOps—for effective issue resolution.
- Actively participated in Agile ceremonies, including sprint planning, reviews, and retrospectives.
- Managed test scripts and artifacts using GitHub.
- Provided weekly updates on testing progress to stakeholders.
