

Manikyam Rajesh

Performance Test Engineer

Bnaglore, India.
+91 9550910438

rajeshmanikyam22@gmail.com
LinkedIn: www.linkedin.com/in/rajesh-m-432165355

Over 3 years of experience in Software Testing with expertise in Performance Testing using JMeter. Skilled in test execution, bottleneck analysis, SQL validation, and Agile practices, while collaborating with development and DevOps teams to ensure scalable and reliable applications.

Professional Experience

Quality Engineer

Quarks Technosoft, Bengaluru, Karnataka

June 2023 - Present

- Designed and executed JMeter performance tests on Tomcat applications; integrated with Grafana/Prometheus for real-time monitoring.
- Conducted load, stress, and endurance testing with MySQL validations to ensure backend reliability.
- Configured Linux test environments, analyzed logs, and identified application/server performance bottlenecks.
- Collaborated with DevOps to optimize performance, integrated test suites into CI/CD, and delivered detailed reports to stakeholders
- Performed cross-device testing with Xcode Simulator to ensure functionality, performance, and user experience.
- Generated detailed performance reports, collaborated with developers to optimize code/infrastructure, and participated in Agile ceremonies.

Graduate SDE

Maveric Systems, Bengaluru, Karnataka

September 2022 - May 2023

- Engaged in infrastructure upgrades during Citi Bank APAC cluster migration.
- Optimized Jenkins pipelines to streamline deployments and improve efficiency.
- Implemented OpenShift for container orchestration and migrated microservices onto the platform.
- Integrated Splunk for real-time monitoring, system health checks, and analytics.

Education

Master's Degree in Computer Applications (MCA) January 2021 - September 2022

Sri Venkateswara College Of Engineering at Tirupati

Bachelor's Degree in Computer Science (MECS) April 2017 - December 2020

Sree Vidyanikethan Degree College at Rangampeta

Key Skills

- **Performance Testing** : JMeter ,Grafana ,Dynatrace, mySQL , JVisualVM , Bottleneck analysis , End-to-End Performance monitoring
- **Programming Languages** : Java , JavaScript , familiar with Playwright Automation
