GitHub : <https://github.com/DEVIKA895/Selenium-Testing>

SOFTWARE SKILLS:

Testing Tools	:Selenium WebDriver
IDE	:IntelliJ,Eclipse
Framework	:Cucumber BDD, TestNG
Test Management Tool	:Jira
Exposure on Tools	:Maven,Jenkins,GIT
Programming Language	:Java, Verilog, VHDL
Software	:Modelsim,MATLAB,Simulink,Xilinx,TANNERTool,Cadence

CERTIFICATION COURSE :

- Certified **Selenium Testing Course** from **INTELLIPAAT** in the period of **NOV 2022 to JULY 2023.**

Project 1:

Problem Statement	Testing websites for various functionalities is a tedious task
Objective	To test the websites using Selenium WebDriver
Requirements	Test the login screen with • username and password • Test online widgets like date pickers, tabs, sliders • Test interactive actions like draggable, resizable, selectable etc. • Test the filling up of registration form and submission • Test frames and windows • Test drop-down menus, alert boxes

Project 2:

Problem Statement	Testing E-Commerce site
Objective	Create an account in 'flipkart.com' manually that should be used for this project
Requirements	• Do login and validate if Login is successful. • Search for 'iPhone12' and select a 64GB phone on product details page after selecting the phone from product listing page. • Add the product to cart and validate if the product added and available in Cart. • Add a new address for shipping and proceed to checkout page then validate it.

EDUCATIONAL QUALIFICATIONS:

Degree and Year	University	College	Major and Specialization
M.E(2014)	Anna University	Velammal Engineering College, Chennai	ECE
B.E(2012)	Anna University	Dhanalakshmi Srinivasan Institute of Technology, Trichy	ECE

WORK EXPERIENCE:

- Working as an Assistant Professor in Velammal Institute of Technology, Chennai from February 2021 to May 2024.
- Worked as an Assistant Professor in Dhanalakshmi Srinivasan Institute of Technology, Trichy from June 2014 to April 2017.

SUBJECTS HANDLED:

- Industrial Internet Of Things
- Embedded Systems
- Digital communication
- VLSI Design
- RF and Microwave Engineering
- Microprocessor and Microcontroller

ACCOLADES:

- Certificate of appreciation for giving a pass percentage of **95%** in Digital Communication during the academic year 2015-2016.
- Certificate of appreciation for giving a pass percentage of **97%** in RF and Microwave Engineering during the academic year 2015-2016.
- Certificate of appreciation for giving a pass percentage of **100%** in Microprocessor and Microcontroller during the academic year 2016-2017.
- Certificate of appreciation for giving a pass percentage of **96%** in Digital Communication during the academic year 2016-2017.
- Certificate of appreciation for giving a pass percentage of **97.7%** in RF and Microwave Engineering during the academic year 2016-2017.

PUBLICATIONS:

- **Springer Book Chapter Publication**-Anomaly Detection System and Resolution of Anomalies for Firewall Policies
- **IEEE Conference Publication**- Group face recognition smart attendance system using Convolution Neural Network
- **International Conference Publication**- Gesture Controlled Cybernetic arm using Kinect sensor for Industrial applications

PATENT:

- Land Survey And Registration System With Video Proofing Based Iot Hyperledger Cloud Module
