OBJECTIVE

To be associated with a forward-thinking organization where I can apply my 9 years of expertise in software testing and quality assurance, stay aligned with emerging trends and technologies, and contribute meaningfully to the organization's success as part of a collaborative and high-performing team.

PROFESSIONAL SUMMARY

- **Dynamic Agile Testing Professional** with **9 years** of experience spanning diverse across domains such as **Augmented & Virtual Reality (AR/VR), Healthcare, IoT, AI, Education, Heavy Machinery, CNA, Gaming, Marketplace and Web/Mobile(SaaS) applications.**
- Specialized in **AI Testing** and **Prompt Engineering** to enhance QA effectiveness and deliver structured testing solutions from unstructured requirements.
- Proficient in manual testing methodologies with a strong command over **SDLC, STLC, Defect Life Cycle**, and tools like **Azure DevOps.**
- Skilled in **Agile (Scrum) and Waterfall** methodologies, with hands-on experience in defect tracking, requirement analysis, and seamless delivery within timelines.
- Proficient in **Smoke, Sanity, GUI, Functional, Integration, Regression, Exploratory, Compatibility, System, and User Acceptance testing (UAT) testing.**
- Practical experience in **AR/VR Testing, AI-based validation, Mobile Testing, Device Testing, and Localization Testing.**
- Hands-on experience with **AI-driven tools and Prompt Engineering** to streamline test documentation and reporting - **Test Plans, Test Case Procedures, Test Logs, Test Data Preparation, Defect Analysis** from business requirements, **Requirement Traceability Matrix (RTM), and Test Summary Reports.**
- Demonstrated ability to prioritize tasks and ensure high-quality deliverables within strict timelines, including thorough **Negative Testing** for enhanced robustness.
- Adept in cross-platform testing of Web and Mobile applications (**Android, iOS, Windows, and macOS**), and browser compatibility (**Chrome, Firefox, Edge, Safari**).
- Hands on experience in VR devices (**Meta Quest, Apple Vision Pro, PICO, HoloLens**)
- Demonstrated ability to manage multiple projects independently while ensuring timely and high-quality software releases.
- Experienced in mentoring junior testers and leading QA teams through successful test execution cycles.
- Energetic contributor to **Employee Engagement** as a member of **Cultural & Food Committee**, with experience as an **Event Organizer & Engagement Specialist.**

PROFESSIONAL EXPERIENCE

Senior QA Engineer – Skillveri Training Solutions (March 2025 – April 2025)

Roles & Responsibilities:

- Managed and mentored a team of QA engineers, assigning tasks, tracking progress, and ensuring high-quality deliverables through daily syncs, peer reviews, and status reporting.
- Conducted defect triage, coordinated with developers for quick turnaround, and ensured root cause analysis and preventive steps for escaped defects.
- Delivered QA sign-offs for releases by performing comprehensive regression, smoke, and sanity checks, ensuring seamless deployment readiness.

Senior Software Test Engineer – HoloPundits Pvt Ltd (April 2019 – January 2025)

Roles & Responsibilities:

- Designed and implemented **AI-driven prompt engineering strategies** to generate comprehensive test cases for mobile and device testing, reducing manual effort by 40%.
- Developed contextual prompts for edge case identification, increasing bug detection efficiency by 30%.
- Oversaw the creation and execution of manual and device-based test cases, validating features across **Mobile devices (Android & iOS), Windows, Meta Quest and Pico** environments using **ADB commands**.
- Collaborated with **developers, product managers, and business analysts** to define test strategies and ensure high-quality deliverables.
- Led end-to-end QA strategy, planning, and execution for multi-platform applications (**Mobile, Web & AR/VR**), ensuring thorough test coverage and alignment with business goals.
- **Led regression testing efforts** to ensure resolved issues did not introduce new defects.
- Reported and tracked defects using **Azure DevOps, JIRA** and conducted **defect triage meetings** with cross-functional teams.
- Created and maintained **Test plans, Test scenarios, and Test cases** based on business requirements.
- Conducted **UAT testing** and collaborated with stakeholders to validate acceptance criteria.
- Ensured test environments were **properly set up and maintained** for optimal test execution.
- Provided **Mentorship and training** to junior QA team members.
- Acted as an **Agile Coach** to cross-functional teams by facilitating all core Scrum ceremonies (**Sprint Planning, Daily Stand-ups, and Reviews**) and promoting agile best practices.
- Used metrics such as **Sprint Velocity, Burn-down Charts, and Defect Trends** to monitor team performance, ensure delivery predictability, and identify areas for process optimization.

Test Engineer – Pellucid Healthcare Networks Pvt Ltd (Feb 2018 – April 2019)

Roles & Responsibilities:

- Executed **functional, regression, and exploratory testing** on healthcare applications.
- **Identified, documented, and tracked software defects** in Mantis and ensured timely resolutions.
- Verified **database integrity using SQL queries** to validate backend data.
- Prepare testing status reports such as Competency Matrix and Weekly Status Report.
- Deployment the development team Source in Test Server and check the normal flow.
- Performed **cross-browser and mobile compatibility testing**.
- Worked closely with **business analysts** and **development teams** to clarify requirements and enhance test coverage.
- Check the status of every issue and update the same to team lead on daily basis through Emails and status trackers.
- **Mobile Device Management (MDM)**: Supports iOS, Android, Windows PCs, and macOS devices, ensuring seamless enrolment, configuration, and policy enforcement.
- **Application Management**: Enables centralized deployment, updating, and management of applications across all devices.
- **Kiosk Management**: Offers kiosk mode capabilities, allowing devices to be locked into specific applications or functionalities, ideal for industries like healthcare, and hospitality.

Associate (QA Engineer) – HCL Technologies (Feb 2016 – Feb 2018)

Roles & Responsibilities:

- Understand the Functional Requirement Specifications of the print driver.
- Performed **manual testing of Xerox print drivers** across multiple environments (Windows, Linux, macOS).
- Conducted **UI, functional, integration, and system testing** to ensure compliance with requirements.
- Used **IBM Clear Quest** for defect tracking and worked with developers to resolve issues.
- Testing drivers in Novell, Citrix and Cluster through environmental testing.
- Performed Ad-hoc and exploratory testing to identify the “show stoppers” at the earliest.
- Assisted in the preparation of **weekly testing status reports** and test case documentation.
- Participated in **daily stand-up meetings, sprint planning, and review sessions**.

CERTIFICATIONS

- **Certified Scrum Master (CSM)** – Scrum Alliance
- **Lean Six Sigma Green Belt (LSSGB)** – MSME
- **Gen AI for Business with Microsoft Azure Open AI Program** – Great Learning (In Progress)

TECHNICAL SKILLS

- **Test Case Management Tools:** Azure Test Plan, JIRA, Test Rail, Testlink, Aptest
- **Defect Tracking Tools:** Azure DevOps, Bugzilla, Mantis, IBM Clear Quest
- **AI Tools:** ChatGPT, Manus, Grok, DeepSeek, OpenAI Codex, Copilot
- **Database:** SQL
- **Facilitation Skills:** Sprint Planning, Retrospectives, Daily Stand-ups, and Backlog Refinement
- **Collaboration Tools:** Confluence, Slack, Trello, MS Teams
- **Microsoft Office Suite:** Word, Excel, PowerPoint
- **Operating Systems:** Windows, Android, iOS, Mac OS, Linux

Testing Tools

- Mobile Device Management (**MDM**)
- Browser Stack
- Android Debug Bridge (**ADB**) commands
- XML Configuration Tool
- Virtual Box, VM Player

ACADEMIC PROFILE

- **M.Tech CSE** with **7.679 CGPA** – SRM University (2013)
- **B.E. CSE** with **69%** – Magna College of Engineering (2010)

ACHIEVEMENTS

- **GEM Award** for the year 2022-2023 in HoloPundits
- **GEM Award** for the year 2021-2022 in HoloPundits
- **Emerging Leader Award** for the year 2020-2021 in HoloPundits
- As a Team Received Perfect Hacktrick **PCSAT score (7 out of 7)** for Voyager Project
- **Best Performer** for the Quarter OND'16 and JFM'17 in HCL Technologies
- **Best Defect Finder** for the Quarter OND'16 and JFM'17 in HCL Technologies
- Posted innovative ideas on **Value Creation** (Idea ID: 67161) for HCL Project

PERSONAL TRAITS

- Comprehensive problem solving abilities
- Zeal to learn new technologies
- Can adapt easily to any environment
- Team Facilitator
