Chennai, Tamil Nadu, India

Professional Summary

A dedicated and detail- oriented Manual tester with 2.5 years of Experience seeking to contribute my skills in ensuring software quality and reliability.

PROFESSIONAL EXPERIENCE:

- Around 2.5 Years of experience as an **Associate Test Engineer**.
 - Worked as Associate Manual Test Engineer at **HCL Technologies**
 - Experience in Product-based Manual Testing in the Printer products domain.
-

Expertise:

- Conducted manual testing of (describe types of software applications tested)
 - Developed and executed test plans and test cases based on project requirements.
 - Identifies, documented, and tracked software defects using (Mention defect tracking tools)
 - Collaborated with cross-functional teams to ensure quality assurance standards were met.
 - Participated in requirements analysis and design review meetings.
 - Supported the development of test plans, test cases and test scripts.
 - Contributed to the identification and resolution of software defects.
 - Worked closely with developers to reproduce and debug issues.
 - Proficient in manual and automated testing methodologies
 - Strong understanding of software development life cycle (SDLC) and testing process.
 - Knowledge of testing tools such as JIRA, IBM Clearquest, Proview.
 - Familiarity with Agile and Waterfall methodologies.
-

PROJECT DETAILS:

Xerox Holdings Corporation is an American corporation that sells printers and digital document products and services. In more than 160 countries. Xerox is headquartered in Norwalk, Connection. This project is to test the upcoming products of Xerox Corporation's Office and Production printers. We are testing the features of the device, the integration of the devices, the overall system from an end-user perspective, the regression phase, the web application of the device, and the Performance of the product. Our main goal is to provide a quality product to our Clients and Users.

- TITLE: Xerox Multi-Functional Apps: Application and Configuration Tools.
- Client: Xerox Corporation, US.
- Team Size: Above 30 Employees.

- Testing method: Manual Testing.
 - Environment: Manual testing (Aptest Manager Tool & Magen), Automation Testing (Test- Execute)
-

TECHNICAL SKILLS:

- Primary skills: Manual Testing, Beginner in Automation Testing (Selenium)
 - Operating system: Windows, Linux, Mac.
 - Feature: Device Feature, CWIS (Centre Ware Internet Services)
 - Defect Tracking Tool: Jira, IBM Rational Clear quest, Proview.
 - Project Management Tool: FileZilla.
 - Tools Used for Testing: Aptest, Magen, Test Execute, MS Office (Suite).
-

ROLES AND RESPONSIBILITIES:

- Requirements understanding, analyzing, and planning.
- Involved in all kinds of Testing Methods such as Functional Testing, Regression Testing, System Testing, Web UI Testing, Smoke Testing, Performance Testing, and Feature Testing.
- Testing the different features of the product with various scenarios.
- Exposure in SDLC and STLC includes Agile Methodology and Bug life cycles.
- Executing the Test cases and finding Defects using several combinations of test data and system knowledge by checking overall system functionalities.
- Regression testing has been done on a weekly basis by downloading builds to test a new feature or new components added to the device.
- Logging defects for the failed test scenarios and test cases via the Defect Tracking Tool (JIRA)
- Engaged on a daily call with the Client for Defect clarification and testing updates.
- Expertise in using testing tools such as IBM Clear quest, Proview, and Magen.
- Using an App test Manager and Magen to execute the test cases.
- Check the status of every issue and update the team lead on a daily basis through emails and the status tracker.
- Interacting with developers to make sure that they understood the issues and being proactively involved in defect review meetings with onsite clients.

- Testing driver to perform testing on different operating system.
- Creating daily and weekly status and productivity reports.

ADDITIONAL TASKS AND ACHIEVEMENTS:

- I got appreciation from clients for finding exploratory defects.
- Star performer for the Quarter Award 2022 at HCL-TECHNOLOGIES
- I received a thank-you note from HCL clients for their excellent performance on the Nuvera program.

EDUCATIONAL QUALIFICATION:

Bachelor of Engineering in Electronics and Communication (ECE). GKM College of Engineering & Technology, Anna University.

PERSONAL TRAITS:

- Flexible and versatile to adapt to any new environment.
- Dedicated, self-motivated, and team worker.
- Ready to travel or relocate too anywhere in the world.
