OBJECTIVE

Seeking a Challenging Position in a Organization for Software Testing Job Role, Where I can use my talents and skills to grow and expand an organization as well as Myself

EDUCATION

2016 - 2020

- **BE-ECE**
C. Abdul Hakeem College Of Engineering and Technology
CGPA - 7.0

March - 2016

- **HSC/+2**
Sneha Deepam Matric Hr Sec School, Vellore.
69.5%

March - 2014

- **SSLC/10th**
Sneha Deepam Matric Hr Sec School, Vellore.
83.2%

TECHNICAL SKILLS

- **Manual Testing :**
 - Intermediate level Knowledge in the entire Software Development Life Cycle (SDLC), Software Testing Life Cycle (STLC), Defect (or) Bug Life Cycle and Specialized in Validation.
 - Good exposure in SDLC with Waterfall and Testing Techniques.
 - Good Knowledge in Agile Methodologies with SCRUM, KANBAN.
 - Good Exposure in Test Case Design, Test Execution, Bug Tracking and Reporting.
 - Good Knowledge in different types of Testing like Smoke, Sanity, Functional, System, Integration, Re-testing, Regression, and End to End Testing and Browser Compatibility Testing.
- **Automation Testing :**
 - Hands on experience in automation testing using selenium web driver
 - Experience in Designing Functional Decomposition TestNG Framework, With Hybrid Approach and Data Driven Approach.
 - Expertise in locating elements using XPATH and CSS Selector.
 - Good Knowledge in Core-Java with Object Oriented Programming Language (OOPS).
 - Good Knowledge in Build Management Tool like Maven.
 - Experience in creating and executing Automation Test scripts in Parallel and Sequential using Selenium Web Driver-TestNG with Java.
- **Frontend development :**
 - Strong understanding of HTML5 and CSS3 including CSS framework Tailwind CSS.

- Strong understanding of javascript, including ES6 and beyond.
- Good Knowledge on Relational Database with MySQL.
- Good Exposure in REST API Testing with Postman and HTTP Client.

RELATED SKILL SETS ---

- Defect Management Tool: JIRA.
- Good Exposure in Version Control System Git and GitHub.
- Good Understanding about CI-CD Pipeline (Jenkins).
- Good Knowledge in Page Object Model (POM) with Hybrid Approach.
- Some Basic Understanding about BDD (Behavior Driven Development) Testing With Cucumber BDD Approach.

AUTOMATION PROJECTS ---

- **Automation Practice Website POM Project :**
 - I have Automated the Automation Practice Website for Learning Purpose, in that I have used the Page Object Model (POM) with Hybrid and Data Driven Approach (<https://github.com/Prakash-27/LearningPomApproaches>).
- **HubSpot App CRM Website POM Project :**
 - I have Also Automated Some Page in the App HubSpot (CRM) Website Through POM Approach (<https://github.com/Prakash-27/AppHubspotPageObjectModel-2022>).
- **Automation Practice Website BDD Approach With Cucumber Project :**
 - I have also Done Sample Mini Project of Automation Practice Website by Cucumber BDD Approach (<https://github.com/Prakash-27/CucumberPomFramework>).

FRONT-END PROJECTS ---

- **Budget Tracker Application**
I have used HTML, CSS, JavaScript for Database I have Used localStorage
This my own Project, After creating this Budget Tracking Application, understanding how the Fontend works and how the Functionality are working behind the seen.
(<https://github.com/Prakash-27/BudgetTrackerJS>)
- **Kanban Application**
I have used HTML, CSS, JavaScript for Database I have Used localStorage. In this specific Project I have learned how to get task from localStorage, Insert, Update, Delete, get all Task on Fontend, after completed this project I got a clear picture about the CURD Operation
(<https://github.com/Prakash-27/Kanban-JS>)
- **Bookmark Manager Application**
I have used HTML, CSS, JavaScript for Database I have Firebase as Database.
In this specific Project I have learned how to store data in firebase, I also learned some more logic in this Bookmark project, overall got a clear picture about the CURD Operation.
(<https://github.com/Prakash-27/Bookmark-ManagerJS>)

TRAINING ATTENDED ---

- Software Testing : Successfully Completed Manual and Automation Testing Training Program at Besant Technologies.

ACTIVITIES AND PARTICIPATION ---

- Attended Work Shop on “ WORLD’S BIGGEST INTERNATIONAL HAND-ON GAMING & SECURITY ”
