Bengaluru, India 📍

SKILLS

Selenium, Manual Testing, Cypress, MySQL, Java, C/C++, Python, HTML, CSS, Javascript

WORK EXPERIENCE

Training

Qspiders Testing Training

📅 06/2022 - Till Date

📍 Bengaluru

I learned Selenium, Manual Testing, SDLC, STLC, Functional Testing, Java, MySQL, HTML, CSS.

Internship

BlueLine Computers

📅 07/2019 - 08/2019

📍 Mangalore

- We learnt about HTML, CSS, Javascript, PHP, MySQL, Database. We worked on the project "Tally" which is a Shopping website for Accounting Software.

Tools used: HTML, CSS, Javascript, PHP, XAMPP

Paleru Technologies Pvt Ltd

📅 10/2020 - 02/2021

📍 Mangalore

- We created an algorithm that will help find the time at which disfluencies occur during the speech.
- We analysed the speech of sample recordings. We annotated the speech using Praat software.

PROJECTS

Hostel Management System using DataBase Management System

- Hostel Management System is software developed for managing activities in the hostel.
- This project focuses on managing a hostel and avoiding the difficulties that occur when carried out manually.

Chalk Dust Absorbing System

- The Chalk Dust Absorbing System is a duster used to remove and collect chalk dust from the board, and also collects the chalk dust in the duster itself.
- It is helpful for those lecturers who have dust allergies.

Credit Card Fraud Detection using Machine Learning

- Credit Card Fraud Detection detects whether the transaction done by the credit card is fraud or not.
- It checks for the irregular transaction pattern using machine learning algorithms.

Renaming Files-Desktop Application

- A small Windows desktop application that renames a set of files using a number sequence made using Python.
