Experienced QA Functional Tester | Career Re-entry Professional | Seeking Opportunities in Functional Testing, open for automation. 4 years and 4 months of working experience at GAVS Technologies, Macappstudio, Lumel Technologies

Profile Summary

MCA graduate with 4 years of experience as a QA specializing in manual software testing. Previously employed at GAVS Technologies and Macappstudio, where I honed my skills in EDI functional testing and web/mobile app testing, respectively. Further, served as a QA Engineer Contractor at Lumel Technologies, contributing to the testing of their product Xviz for 4 months. Upskilling myself in both API testing and basics of Selenium automation. Knowing CRUD operations in API, and possess basic knowledge of Selenium automation. Eager to expand my expertise in both manual and automation testing and enthusiastic about upskilling in all pertinent tools and technologies. Available for immediate employment.
