PROFESSIONALSUMMARY

Detail-oriented and highly motivated IT professional with almost 3 years of experience in ETL and Database Testing. Proficient in Tosca automation, performance testing, regression testing, functionality testing, and financial regulatory reporting using Axiom. Adept at validating complex data flows, ensuring data integrity, and improving testing processes. Committed to delivering high-quality results within dynamic, fast-paced environments.

TECHNICAL SKILLS

Testing Tools	: Tosca, JIRA
ETL Tools	: Informatica, SQL Server Integration Services (SSIS)
Databases	: Oracle, SQL Server, MySQL
Automation testing	: Tosca Testsuite
Reporting tools	: Axiom CV10
Testing Types	: Regression Testing, Functional Testing, System Integration Testing, UAT Support, Performance Testing
Programming/Scripting	: SQL, Basic Python, Power BI
Other tools	: MS Excel, Autosys, Unix commands
Methodologies	: Experience in Agile environments, collaborating in sprints to deliver high-quality data analysis solutions

PROFESSIONALEXPERIENCE

Systems Engineer, Tata Consultancy Services

Oct2022-Present

- Designed and executed ETL test cases by validating data movement, transformation, and data quality between source and target systems.
- Performed extensive database testing using complex SQL queries to ensure the integrity and accuracy of data.
- Automated regression and functionality tests using Tosca, improving test cycle efficiency by 30%.
- Conducted performance testing of data pipelines and databases to assess system responsiveness and stability under load.
- Executed functional, regression, and end-to-end testing activities across multiple releases.
- Worked closely with developers, business analysts, and product owners to identify and resolve defects.

- Participated in Axiom regulatory reporting projects by validating data inputs, transformations, and output reports for banking and financial compliance.
- Prepared detailed defect reports and collaborated with the development team for quicker issue resolution.
- Contributed to the design and continuous improvement of test plans, cases, and data sets.

EDUCATION

Knowledge Institute of Technology, Salem

2018-2022

B.E/Electrical and Electronics Engineering | 8.85 CGPA

CERTIFICATIONS

- Tricentis Tosca Fundamentals – Automating Web Application Testing(AS1)
- Tricentis Tosca Fundamentals – Optimizing test automation with centralized test data (AS2)
- Associate Cloud Engineer Certification
- Japanese Language Certification – JLPT N5(certified), JLPT N4(Trained)
