📁 PROFESSIONAL SUMMARY

- Automation Tester with hands-on experience in analyzing software functionality, writing test cases with using tool for Selenium, and executing manual test cycles.
- Excellent team Player,quick learner in **Manual Testing and SQL(Banking Domain) with 2.11+ Years of Experience.**
- Possess good knowledge in all phases of **Software Testing (Smoke ,Functional, Integration, System, Regression, Adhoc,Sanity, usability , Performance,UAT)**,STLC,SDLC ,AGILE and Defect Life Cycle.
- Analyzed the Bussiness/Functional Requirements and identified the sceanrios for UAT.
- Skilled in designing test cases for functional testing by understanding and analysing bussiness requirements tools like JIRA.
- Experience and good knowledge for preparing Test Plans and test techniques.
- Experience in exection and Bug Reporting using JIRA tools.
- Collaborated with developers and product teams to resolve critical bugs.
- Retested and verified resolved issues to ensure bug fixes were successful.
- Designed and modeled database schemas and structures.
- Optimized SQL queries to improve database performance.

📁 PROFESSIONAL EXPERIENCE

SQL Programmer, CAMS

03/2022 – 01/2025

📁 EDUCATION

B.sc (Information Technology), NMSSVN

2018 – 2021

- 70%

HSC, SHSS

2017 – 2018

- 60%

SSLC, SHSS

2015 – 2016

- 72%

🧠 PROFESSIONAL SKILLS

Oracle - SQL

- Advanced Queries (Joins, Sub Queries)
- PL/SQL (Basics - Procedure, Function, Trigger)
- Data Analysis - Reporting
- ETL Support
- Relational Database Concepts

JAVA

- Core Java -(OOps Concepts & Error Handling)

TestNG

- Basics of TestNG.
 - Report Generation
 - Batch Execution
 - Group Execution
 - Framworks
 - Cross Browser Testing

Manual Testing

- Testing : Smoke ,Functional, Integration, System, Regression, Adhoc,Sanity, usability , Performance Testing. Test case Design & Execution.
- SDLC & STLC Defect life cycle management Agile and scrum Methodology ,Exploratory Testing Bug tracking & Reporting (Jira, Bugzilla)
- Basics of Mobile Testing & API Testing

Tools & Technology

- Domain : Banking & Ecommerce
- Core Banking Applications : myCAMS,CAMSpay
- Languages: Basic Java (Core), SQL
- Automation Tools : Selenium WebDriver
- Test Management Tools : Excel , ETL
- IDE & Development Tools: Eclipse, IntelliJ IDEA.
- Operating System Windows
- Bug Tracking Tools: JIRA

📁 CERTIFICATES

- SDE - Q Spiders

- DTP- NMSSVN

- Type Writing - (Higher & Lower)

- NISM -2B

📁 PROJECTS

E-Commerce Website Test Automation Project

05/2025

- Automated Functional Test cases for user login,product search,cart and checkout modules using Selenium WebDriver.
- Test cases,Execution reports and defect logs via JIRA.

📁 COURSES

SDET-INTERN, Q Spiders

02/2025 – present

- Gained hands-on training in software testing and automation development using **industry-standard** tools and technologies.
- Learned **Java programming** for test automation.
- Practiced **API Testing** using **Postman and Rest Assured**.
- Developed **test cases** and **automated scripts** as part of project-based learning.
- Covered **Manual Testing, SDLC/STLC, and Agile methodology** fundamentals.
