ADDITIONAL INFORMATION

Project Details:

- **Oxyto Pregnancy Webapplication & Mobile App**

Led a dedicated project for the Oxyto Pregnancy Mobile app, managing end-to-end responsibilities. Oversaw requirements gathering, maintaining clear communication with clients, engaging in discussions with developers, conducting testing, generating comprehensive reports, and ensuring a successful app launch.

- **Medway Hospitals' Hospital Management System (HMS).**

Conducted extensive product testing for Medway Hospitals' HMS, focusing on ensuring a seamless user experience. Collaborated closely with end-users to gather feedback and implemented enhancements to improve system usability before going live.

- **Tamil Government Project - Transplant Authority Of Tamil Nadu.**

Spearheaded testing for specific modules in the Transplant Authority Of Tamil Nadu project, emphasizing requirements analysis, client interactions, developer discussions, comprehensive testing, reporting, and overseeing the successful system go-live.

Specifically worked on the Organ Transplant Product, ensuring all aspects of testing were diligently completed.

- **Product Concept Integration.**

Contributed to the development of a conceptual product that seamlessly integrates Hospital Management System (HMS), Inventory, CRM, and Billing functionalities.

Tailored the product to meet the specific needs of the healthcare industry, showcasing adaptability and proficiency in addressing complex requirements across various domains.
