

Ranjith R

Software Developer

Dynamic Computer Applications graduate skilled in software development and automation. Seeking a challenging role to apply advanced proficiency in Java, Spring Boot, and RPA for innovative solutions. Committed to delivering efficient applications while staying updated with industry trends. Exceptional problem-solving abilities and meticulous attention to detail to contribute significantly to organizational success.

EDUCATION

MASTER OF COMPUTER APPLICATIONS(MCA)

SRMIST,RAMAPURAM,CHENNAI

07/2021 - 05/2023

9.1 CGPA

BACHELOR'S IN COMPUTER SCIENCE(BSC)

SRMIST,RAMAPURAM,CHENNAI

07/2018 - 05/2021

7.1 CGPA

WORK EXPERIENCE

INTERN - SOFTWARE DEVELOPMENT

TRITON IT SOLUTIONS

01/2023 - 03/2023

Achievements/Tasks

- Collaborated with the development team to design and implement backend functionalities for an e-commerce website.
- Utilized Spring Boot, REST API, and MySQL to develop key components. Ensured efficient communication between the client and server through REST API principles.
- Integrated RESTful services to enhance the website's functionality and user experience.
- Facilitated seamless interactions between different components of the website. Optimized communication and data flow for improved performance.

INTERN - RPA DEVELOPMENT

ENNUVIZ TECHNOLOGY

06/2022 - 10/2022

Achievements/Tasks

- Developed and implemented the "Transaction Automation" project at Ennuviz Technology. Automated data entry from Excel to a UI demo application. Retrieved transaction IDs for updating Excel records.
- Demonstrated proficiency in utilizing RPA principles to streamline processes.
- Implemented a reliable system for retrieving transaction IDs, ensuring accurate record updates.
- Attained expertise in RPA fundamentals, Excel automation, and Gmail automation.

SKILLS

Java HTML CSS RPA Spring Boot
Spring MVC JPA MySQL Hibernate GIT
Linux Docker MsOffice

PERSONAL PROJECTS

ECOMMERCE WEBISTE (01/2023 - 03/2023)

- Leveraged the Spring Boot framework, REST API, and MySQL to develop a feature-rich e-commerce website.
- Designed and implemented robust backend functionalities to ensure smooth operations.
- Integrated RESTful services for seamless communication between the client and server.
- Efficiently managed the database, enabling efficient data storage and retrieval for the e-commerce platform.

LOAN APPLICATION PROCESSING (06/2022 - 10/2022)

- Developed an RPA project for seamless automation of loan application processing. Extracted relevant data from bank emails and stored it in a structured data table.
- Streamlined the loan application process by entering the extracted data into the UI Bank website.
- Implemented robust business rule checks to ensure compliance and accuracy.
- Generated unique loan IDs and promptly communicated them to users via email for enhanced tracking and communication.

CERTIFICATES

Java Certification - NIIT Institute (12/2019 - 02/2020)

Diploma in RPA Citizen Developer - UiPath academy
(03/2022 - 05/2022)

ACHIEVEMENTS

Assisted in collecting ship images for an AI/ML group project.

INTERESTS

AI/ML Cloud Spring frameworks
