

RADHA ELUMALAI

QA MANAGER

+91 978 993 2284 @ radhaelumalai.akilan@gmail.com

Chennai, TamilNadu

KEY ACHIEVEMENTS

QA Process Innovation Award

Received a company award for innovating the QA process, which led to customer satisfaction scores by 40%

Leadership Excellence Recognition

Honored for exceptional leadership in managing a QA team that consistently met and exceeded testing goals for consecutive releases

TCS Beyond Performance Award

Received a company award for pioneering the implementation of in-sprint QA automation as the first mover in the project

TCS Awards for Excellence

Received a company award for the defect free production deployment of Siebel upgrade project

High Achiever Award

Received a company award for setting up QA team from scratch and building it to the highest performing team

Star of the Month Award

Received a company award for optimizing the automation test cases and reducing the regression cycle from 5 days to 2 days

Client Recognition Award

Honored for exceptional client management and managing stakeholder expectations.

QA Framework Innovation Award

Acknowledged for developing an automation framework thereby increased efficiency of regression testing by 50%

On the Spot Award

Received a company award for enhancing test coverage by 40% by developing comprehensive automation scripts.

SUMMARY

QA professional with over 18 years of experience in quality assurance and automation testing, expert in client management and defect management. Certified Project Management Professional (PMP) with over 5 years of comprehensive background in leading and providing client-centric solutions across diverse sectors. My key achievements include reducing the defect rate by 30% and achieving 95% on-time delivery for product releases at Tata Consultancy Services. Seeking a Software QA Manager position, where I bring my quality assurance and team management skills to support your mission of delivering superior software quality and customer satisfaction. With a track record of setting up QA teams from scratch, optimizing workflows, and implementing test management tools, I am ready to ensure top-tier application performance and client satisfaction.

EXPERIENCE

QA MANAGER

10/2022 - Present

Tata Consultancy Services

Chennai, India

Air Canada

- Setup the whole QA team from scratch and Improved QA process efficiency by 30% by establishing QA best practices and training new QA resources and introduce test management tools to the organization.
- Achieved 95% on-time delivery for product releases by optimizing team workflows and project timelines.
- Reduced defect rate by 30% through rigorous testing processes.
- Enhanced team performance by 25% by introducing advanced training programs.
- Elevated customer satisfaction scores by 40% by implementing advanced QA practices.
- Aligned QA team with sprint goals, enhancing delivery success rate by 15% through strategic collaboration.
- Executed 1000 test cases, ensuring quality and compliance in SIT and UAT phases.
- Monitored and coordinated quality assurance activities to ensure that the applications are developed to meet customer requirements and industry standards.
- Provided QC Signoffs for 4 releases maintaining high reliability of regression and smoke tests.
- Improved stakeholder engagement by 20% by demonstrating sprint achievements and sharing reviews.
- Enhanced test environment reliability by maintaining entry and exit criteria for 4 test plans.
- Elevated bug tracking accuracy by 25% by optimizing practices in JIRA/Confluence..
- Boosted customer satisfaction metrics by 15% through effective quality measurement protocols.
- Facilitated timely releases by collaborating with 4 cross-functional teams.
- Involved in hiring new QA members for the client and ensure smooth onboarding.

KEY ACHIEVEMENTS

- Best Practice Implementation

Implemented QA best practices that were adapted as the standard across the organization, improving overall testing effectiveness by 25%
- Defect Rate Reduction

Reduced defect rate by 30% through rigorous testing processes.
- On-Time Delivery

Achieved 95% on-time delivery for product releases at Tata Consultancy Services.
- Client Satisfaction Boost

Boosted client satisfaction score by 40% with advanced issue resolution techniques.
- Team Efficiency Enhancement

Enhanced team efficiency by 40% by implementing agile methodologies.
- Cycle Time Reduction

Reduced test cycle time by 30%, resulting in a 15% cost savings in project execution.

EXPERIENCE

- Test Automation Manager

05/2021 - 04/2022

Tata Consultancy Services

Chennai, India

Transport for NSW

- Acted as offshore counterpart and ensured smooth production deployment by supporting end-to-end processes, impacting 3 successful releases.
 - Improved software release quality by 25% through enhanced automation frameworks.
 - Worked with Product Owners and Business Analysts to evaluate business and technical requirements and strategized automation for workflow projects, coordinating requirements for 3 automation initiatives.
 - Executed and reviewed POC for SAP automation for 2 (SAP and NWBC) applications and involved in end-to-end automation using UFT.
 - Improved testing reliability by expertly designing and implementing 2 new hybrid frameworks and automated testing solutions, ensuring reliability and efficiency.
 - Enhanced test script performance by improving the robustness, re-usability, and maintainability of the test scripts by 30%.
 - Developed a customized HTML Automation Report using UFT for Business users
 - Provided mentorship and guidance to team members, fostering their professional growth and ensuring alignment with project objectives.
 - Proficiently participated in all Scrum events, including facilitating daily Scrum calls, fostering collaboration, and driving continuous improvement.
 - Assured comprehensive QA involvement by analyzing project risks for 2 teams.
 - Managed staffing and development of 5 new hires, improving performance 20%.
 - Maintaining suitable metrics for measuring test progress and evaluating the quality of the testing.

Client Management: extensively involved in client collaboration to ensure the project is on track.

 - Demonstrated the sprint achievements and delivered regular sprint reviews to business stakeholders, increasing alignment by 40%.
 - Managed a suite of over 750 automated test cases across diverse project portfolios.
 - Boosted client satisfaction score by 20% by developing advanced issue resolution techniques.
 - Enhanced team efficiency by 40% by implementing agile methodologies and robust tools.
 - Reduced test cycle time by 30%, resulting in a 15% cost savings in project execution.
- Project Lead

08/2020 - 04/2021

Tata Consultancy Services

Chennai, India

Toll Group

- Enhanced project delivery efficiency, resulting in a 25% reduction in time-to-market for client applications.
 - Improved team efficiency by 20%, leading to faster product releases.
 - Elevated company quality standards compliance by 50% by driving strategic QA initiatives.
 - Improved WMS automation efficiency by 35% by designing a new framework using UFT & Selenium.
 - Performed an Automation POC on WMS application and designed the framework from scratch using UFT & Selenium on two different applications.
 - Enhanced script robustness by 25% by preparing reusable functions.
 - Automated 3 WMS applications which involved web, putty and desktop application using Selenium and WinAppDriver.
 - Generated 2 customized HTML reports using UFT & Selenium.
 - Improved report accessibility by converting 2 HTML reports into Excel using Selenium
 - Team Management and Defect Management, assign the task to testing teams and monitor the progress.
 - Executed 1000 scripts and provided automation sign-off.
 - Reviewed 1000 test cases/scripts for automation execution.
 - Verified 5 project deliverables for quality and uniformity assurance.
 - Presented weekly, daily, and quarterly reports to higher management and business partners.
 - Estimated automation for 10 new features and owned test suite sign-off.
 - Increased team skill by 20% by conducting knowledge-sharing sessions.

STRENGTHS

Quality Assurance Expertise

Delivering high-quality products efficiently. Reduced defect rates by 30% through efficient QA protocols.

EXPERIENCE

Automation Lead

05/2018 - 08/2020

Tata Consultancy Services

Chennai, India

American Airlines

- Improved project delivery times by 30% with strategic automation deployment.
- Led 10+ automation projects simultaneously, managing a team of 10 engineers.
- Enhanced test coverage by 40% by developing comprehensive automation scripts.
- Increased project efficiency by 20% by implementing a seamless integration testing process.
- Increased testability by analyzing 100+ user requirements and models.
- Led a team of 7 in project management tasks.
- Streamlined processes by auditing 3 procedures monthly.
- Enhanced productivity by attending 20 scrum calls monthly.
- Analyzed the user story and commit for US for automation.
- Automated Script Design and conducted code review with the clients and obtained their approval
- Involved in Test Execution, Results Analyzing and Defect Reporting
- Provided automation sign-off by executing 400+ scripts
- Reviewed all the Project deliverables to ensure quality and uniformity
- Provided Weekly and Monthly Status Report to customers
- Involved in defect review meetings with the development team for the resolution of the defects.

Automation Engineer

09/2017 - 04/2018

Tata Consultancy Services

Chennai, India

TravelPort

- Collaborated with cross-functional teams to design comprehensive automation strategies, integrating Agile, and prioritizing tasks for web and SOAP UI testing.
- Enhanced test strategy efficiency by 30% by designing automation strategies with Agile
- Provided 85% automated coverage by developing Selenium WebDriver scripts.
- Ran automated test suites, provided prompt feedback, and generated comprehensive reports for informed decision-making.
- Optimized test cases, resulting in an 85% reduction in regression testing time, from 5 days to just 2 days.
- Created Re-usable utilities to use across all the applications of the same client.
- Received client appreciation for overseeing a defect-free production deployment in a major cloud migration project

Test Lead

09/2014 - 02/2017

Tata Consultancy Services

Arkansas City,
United States

Money Services Inc., Transamerica

- Co-ordinated deliveries at On-site at Arkansas US location for 3 years during year 2014-2017.
- Increased efficiency of regression testing by 50% by implementing an automated testing framework.
- Reduced testing cycle time by 25% resulting in a \$100,000 cost savings for a major project.
- Lowered project delivery costs by 15% through effective resource management and negotiation with vendors.
- Enhanced cross-team collaboration by 40% by introducing new communication platforms and regular cross-functional workshops.
- Increased client satisfaction ratings by 40% with timely delivery of QA reports.
- Automated the manual test cases in UFT 12.5 and ensure minimal logical issues in automation scripts.
- Enhanced business understanding by collaborating with business analysts from the Business Team
- Streamlined application study, analyzing the key business requirements
- Conducted reviews of all the deliverables - system documents, test plan to ensure the quality.
- Involved in Test Execution, Results Analyzing and Defect Reporting
- Executed the scripts and provided Sign off for UAT.
- Involved in defect review meetings with the development team for the resolution of the defects.
- Reviewed all the Project deliverables to ensure quality and uniformity

STRENGTHS

Effective Team Management

Enhancing team productivity and success.

Automation Strategy Excellence

Implementing advanced automation frameworks for efficiency.

Extensive field experience

Over 17 years of expertise in QA and automation testing.

Project management skills

Led teams to achieve 95% on-time product deliveries.

Leadership

Successfully managed QA teams, providing guidance and support to ensure implementation of quality standards and drive continuous improvement. Led cross-functional teams in process improvement initiatives

Defect Management Excellence

Proven ability in reducing defect rates significantly.

Team Setup And Optimization

Skilled at setting up and optimizing QA teams.

On-Time Delivery Focus

Expert in ensuring timely and quality project deliveries.

Analytical Thinking

Proven ability to analyze complex quality data, identify trends and root causes, and develop effective solutions. Utilized analytical thinking to drive process improvement and enhance quality

Collaboration

Strong collaboration skills, fostering effective relationship with cross-functional teams, vendors, and customers. Collaboration with other vendors to ensure quality standards are met and resolved issues

Effective client communication

Demonstrated exceptional verbal and written communication skills, enabling clear and concise conveyance of quality expectations and driving alignment among stakeholders. Enhanced stakeholder engagement by demonstrating achievements and sharing reviews.

EXPERIENCE

Automation Engineer

06/2012 - 2014

Tata Consultancy Services

Chennai, India

Santander Consumer USA

- Increased release success rate to 98% by implementing continuous integration and continuous testing strategies.
- Improved client retention by 20% by customizing QA solutions to align with client-specific needs.
- Achieved a 30% reduction in defect rates by implementing advanced automation frameworks.
- Increased release timeline efficiency by 25% by optimizing regression testing procedures.
- Increased automation coverage by 30% by analyzing and committing User Stories for Automation.
- Developed 1000+ automation test scripts by coordinating with the automation team.
- Validated applications by performing verification and validation with 95% accuracy.
- Involvement in Test Execution, Results Analyzing and Defect Reporting.
- Execute the scripts and provide Sign off for Automation.
- Reviewed all the Project Deliverables to ensure quality and uniformity.
- Improved reporting efficiency by generating weekly and monthly status reports.
- Involved in defect review meetings with the development team for the resolution of the defects.
- Reduced manual effort by 40% by developing innovative tools.

Automation Engineer

02/2010 - 06/2012

Tata Consultancy Services

Chennai, India

Bank of America

- Enhanced product quality, increasing customer satisfaction scores by 40% by streamlining QA processes.
- Achieved zero critical bugs at launch for 10 consecutive projects by implementing rigorous testing protocols.
- Successfully increased project delivery speed by 40% by implementing CI/CD practices.
- Optimized testing workflow by 50% by developing and applying new hybrid framework techniques, enhancing overall QA productivity.
- Validated product adherence to requirements by scheduling various criteria meetings with development teams.
- Prioritized the defects by collaborating with development during daily and weekly meetings.
- Ensured quality with the manual test scripts using Quality Center and automated 400+ scripts.
- Executed system integration testing with tools like SOAP-UI, Putty and SQL Developer across 2 environments.
- Reported weekly and monthly to stakeholders, ensuring transparency.
- Reviewed all the project deliverables to ensure quality and uniformity
- Reduced manual reporting effort by 20% through development of automation tools for daily status reports and initiative dashboard
