

RAMACHANDRAN KUPPUSAMY
Contact No: +91 8015 375042
Email: raminfotech1@gmail.com

- Skilled IT professional with 15 years of diverse experience in software testing across TTH, Retail, Insurance and Telecom sectors.
- Extensive expertise spanning Test Management, Stakeholder Management, Defect Management, Functional Testing, and Non-Functional Testing.
- Seasoned Test Manager with 7+ years of hands-on experience, overseeing projects for prominent UK and German Airlines both Onsite and Offshore.
- Solid grasp of Testing principles, processes, tools, and methodologies such as Agile and Waterfall.
- Extensive experience in Test Approach/Strategy, Test Planning, and Test Review.
- Over 5 years of hands-on experience in Test Automation utilizing Selenium WebDriver with Java.
- Familiarity with SAFe Agile methodology, collaborating with multiple vendors over a span of 6 years.
- Skilled in PI Planning, Sprint Planning, Sprint Reviews, Sprint Retrospective, Sprint Demo, and user story estimation.
- Capable of effectively coordinating with Developers (Offshore and Onsite), Scrum Masters, and Product Owners within a team-oriented environment.
- Expertise in preparing Test Plans, Estimations, Test Summary Reports, Weekly Status Reports, and Daily Status Reports.
- Proficient in various types of Functional Testing (System Testing, System Integration Testing, E2E Testing, Regression Testing, User Acceptance Testing, and API Testing).
- Comprehensive experience across all stages of the Software Testing Life Cycle.
- Familiarity with Non-Functional Testing aspects including Security, Logging, Usability, Configurability, and more.

Career Contours:

Tata Consultancy Services Ltd, India (26th October 2009 to till date)

- Current Designation: Associate Consultant
- Total Experience: 15 years

Technical Skills:

Testing Tools	Selenium WebDriver, JIRA, ALM, Soap UI, Unified Functional Testing, SQL Developer, WinSCP
Cloud Platforms	Amazon Web Services, Microsoft Azure
Testing Methodologies	Agile, Waterfall
Automation Frameworks	BDD Cucumber, TestNG, Data Driven, Page Object Model, Hybrid
IDEs	Eclipse and NetBeans
Programming Languages	Java and C
Database	SQL, Oracle

Certifications:

- Professional Scrum Master (PSM I)
- ISTQB Certified Tester - Advanced Level: Test Manager
- International Software Testing Qualifications Board (ISTQB) - Foundation Level
- Microsoft Azure Data Scientist Associate Certification
- Microsoft Azure Fundamentals (AZ-900) Certification
- Vskills Certified Selenium Professional Certification
- HP AIS – Application Lifecycle Management v11 Certification
- IBM Certified Database Administrator - DB2 9 DBA for z/OS Certification

Achievements:

- Earned numerous On the Spot and Applause awards during tenure at TCS, reflecting consistent excellence.
- Secured the prestigious Best Team Award twice within TCS, underscoring exceptional teamwork and leadership.
- Pioneered several Process Improvement initiatives leveraging Six Sigma and PDCA methodologies, driving efficiency and excellence.
- Attained multiple domain certifications in sectors including Airlines, Telecom, and Retail, showcasing a commitment to continuous learning and expertise expansion.

Projects Exposures:**IAG – Maestro Replacement program**

Role	Test Manager
Responsibilities	▪ Guiding and nurturing a 30-member team across interface, automation, and performance testing areas. ▪ Actively contributed to the Software Development Life Cycle (SDLC) from a functional perspective, leveraging comprehensive expertise in business reference architecture, business process modeling, and analysis. ▪ Held accountable for solution integration, troubleshooting, and optimization endeavors, ensuring seamless system functionality. ▪ Engaged comprehensively across all SDLC phases, encompassing business requirement gathering, functional requirement mapping, analysis, documentation, design, testing, and user acceptance support. ▪ Demonstrated adeptness in negotiation with stakeholders to address challenges and capitalize on emerging business prospects effectively. ▪ Proficiently prepared an array of testing-related documents including Test Plans/Strategies, Test Estimations, Weekly Status Reports, Daily Status Reports, and Test Summary Reports, facilitating transparent communication with stakeholders.

Deutsche Lufthansa AG - IFCM & CMS Classic

Role	Test Manager
Responsibilities	▪ Leading and managing a 15-member team across functional, interface, non-functional, and automation areas. ▪ Actively involved in the Software Development Life Cycle (SDLC) from a functional perspective, leveraging a deep understanding of business reference architecture, business process modeling, and analysis. ▪ Responsible for solution integration, troubleshooting, and optimization efforts. ▪ Engaged in all phases of the software development life cycle, including business requirement gathering, functional requirement mapping, analysis and documentation, design, testing, and support for user acceptance testing. ▪ Skilled in negotiating with stakeholders to address issues and capitalize on business opportunities. ▪ Proficient in preparing various testing-related documents such as Test Plans/Strategies, Test Estimations, Weekly Status Reports, Daily Status Reports, and Test Summary Reports for dissemination to stakeholders.

Deutsche Lufthansa AG - IFCM

Role	Senior Test Analyst/Test Automation Specialist
Responsibilities	▪ Develop comprehensive high-level and low-level test cases for both Functional and Non-Functional testing, aligning closely with project requirements. ▪ Conduct thorough reviews of high-level and low-level test cases, ensuring alignment with detailed system requirements. ▪ Execute tests with precision and rigor, adhering to established protocols and standards. ▪ Utilize Selenium to automate regression test cases for both Functional and Non-Functional scenarios, enhancing efficiency and accuracy. ▪ Estimate testing efforts and diligently collect relevant metrics to track progress and performance. ▪ Debug existing scripts and adapt them to accommodate changes in functionalities with each release. ▪ Maintain and update automation scripts to ensure ongoing effectiveness and relevance. ▪ Utilize MF ALM to log and track defects, facilitating seamless issue resolution and project management. ▪ Deliver results effectively and efficiently within demanding project timelines. ▪ Conduct feasibility studies for new functionalities and devise automation solutions to streamline processes. ▪ Prepare comprehensive requirement understanding documents to guide testing efforts. ▪ Engage with clients to resolve issues promptly and provide regular reporting on project status and performance to stakeholders.

The Kroger Co. - Mercury Program, Class Enablement & Grissom releases

Role	Test Lead
Responsibilities	▪ Spearheading the Offshore QA Feature team, ensuring efficient collaboration and delivery. ▪ Actively contributing to key Agile ceremonies including PI Planning, Sprint Planning, Sprint Retrospective, Mid-Sprint Review, and Sprint Demo. ▪ Transforming features into actionable user stories and providing estimation for implementation. ▪ Crafting test scenarios and cases aligned with user story acceptance criteria to ensure comprehensive testing coverage. ▪ Conducting testing on downstream applications such as Venus, NIF, MDM UI, and Cassandra. ▪ Performing thorough testing on Vendor Item Portal (VIP) to ensure functionality and reliability. ▪ Conducting End-to-End testing of TIBCO MDM to validate system integrity and performance. ▪ Delivering comprehensive test reports to all stakeholders, ensuring transparency and informed decision-making.

CenturyLink - Customer Report Information System

Role	Tester
Responsibilities	▪ Assume full responsibility for testing the developed customizations to ensure quality and functionality. ▪ Prepare high-level testing scenarios to outline the scope and objectives of testing. ▪ Design detailed test cases to thoroughly assess the performance and functionality of the customizations. ▪ Conduct peer reviews of test cases to gather feedback and ensure accuracy and comprehensiveness. ▪ Execute tests meticulously to validate the functionality and performance of the customizations.

Academics:

Degree	Institution	University/Board	Year
B. Tech – IT	Pondicherry Engineering College	Pondicherry University	2009
Diploma – IT	Motilal Nehru Polytechnic College	Directorate of Technical Education	2006
