IT Enthusiast, fueled with a passion for innovative technologies, leveraging the hands-on experience of **over 18 years** in the areas of **Quality Assurance Automation Testing, Robotics Process Automation, Quality Assurance, and End-to-End Testing**; excel in leading teams and analyzing systems to design and develop end-to-end automation solutions across multiple domains.

Profile Summary

- ❖ Having 12 yrs of hands on experience in Test Automation with UFT one, Selenium Web Driver and API automation testing
- ❖ Having 6+ yrs of hands on experience in RPA BluePrism with AI and strong knowledge in AI Powered UiPath
- ❖ **Passionate about leveraging AI to enhance software quality and drive innovation.**
- ❖ Skilled at developing comprehensive automation solutions for clients as per requirement which involves feasibility study, designing architecture, development, testing, and deployment of automation.
- ❖ Proficient in leading cross-functional teams and implementing end-to-end automation solutions, leveraging expertise in Robotics Process Automation, Quality Assurance, and Agile & Waterfall Methodologies to drive operational efficiency and deliver high-quality products.
- ❖ Orchestrated the successful automation of Android Mobile Application Redbox Instant and Mainframe CICS screen testing using IBM HATS Automation Tool, resulting in a 99% increase in testing efficiency and a 95% reduction in manual testing efforts.
- ❖ Currently, spearheading the development and execution of test scripts for interactive testing of products, creating Automation Frameworks based on application & testing requirements using various technologies like Selenium, HATS, and BluePrism.
- ❖ Skilled in determining operational feasibility by defining problems, analyzing requirements, and assessing proposed AI solutions. Identifies the right AI Automation tools for applications through proof of concept (PoC) and ensures risk mitigation planning.

Core Competencies

Strategic Project Management

Requirements Gathering & Analysis

Quality Assurance Expertise

Automation & Manual Testing

Robotics Process Automation

RPA and Automation Leadership

Business Analysis & Intelligence

End-to-end Solutions Delivery

Data Analysis and Project Closure

Career Timeline (Latest 4)

2018 – 2022

Cognizant,
Chennai, India

2022 – 2023

DBS - The Boston
Software
Solutions

2024 – 2024

Procyon
Technostructure,
Chennai

2024 – Till

IOPEX Technologies,
Chennai

Technical Skills

Operating Systems: Windows 10, 11 & Ubuntu

Languages: VBScript, Java, Python, C++

Databases: MS-SQL, Oracle, Maria DB

Tools & Utilities: Java / Python Selenium Automation for Web, Selenium REST Assured API Automation, Appium, BluePrism, UI Path, UFT One, JMeter, Jira, ChatGPT, Gemini Advanced 2.0 Flash

CI/CD: Jenkins, Git, Bitbucket, Docker

Test Management: Jira Zephyr Scale, Kiwi, Quality Center

Technologies: Client-Server, Telecom Applications, Medical Applications, Retail Applications, Salesforce CRM

Frameworks: Selenium Hybrid Framework, Template Based Automation Framework, Component-Based Framework, Data Driven Framework, Modularity Driven Framework, Java Selenium Cucumber BDD Hybrid Framework with Page Factory Model

Mainframe: Vision Plus, CS90, Citrix Server (ASSIST & OE)

Domain Expertise: Banking, Healthcare, Insurance, Retail, Telecom & HRMS

Education & Certification / Trainings Conducted

- ❖ **B.E. - Mechanical Engineering** | Madras University | 2002
- ❖ AD01 BluePrism RPA Developer Certified Professional
- ❖ HIPAA Mandatory Trainings
- ❖ Java Selenium CCA Completed
- ❖ QMS & Clinical Workflow
- ❖ Mentored Quick Test Professional (QTP) - E0, E1 & E2 Training's to HP NED Team and Cushman & Wakefield Team
- ❖ Mentored Mainframe Automation using HATS Tool Training to US Bank Team
- ❖ Mentored EggPlant Training to PwC Team & AppPerfect Training to Apple Team BluePrism

Work Experience

Jun 2024 – Till date: IOPEX Technologies as Project Manager

Key Result Areas:

- ❖ Overall accountability and responsibility for the delivery of testing services for CIO HRMS internal.
- ❖ Managing and reviewing the day-to-day delivery of test services; acting as the first point of escalation for any issues raised by CIO stakeholders or testing service providers.
- ❖ Driving and collaborating with all CIO stakeholders and test service providers to plan testing-related deliveries for the accountable portfolio.
- ❖ Participating and contributing in forums to drive testing transformation and innovation; working with testing service providers and other stakeholders to review, provide feedback, sign off on the test strategy, test plans, and other test service providers' artifacts.
- ❖ Ensuring adoption of testing methods, standards, and tools, coordinating health checks or audits with the Test Governance team.
- ❖ Engaging with various CIO stakeholders (application, security, infrastructure, business) to ensure testing services meet the bank's objectives and demand.
- ❖ Understanding the application workflow thoroughly and contribute to the development and execution of test scripts for interactive testing of products.
- ❖ Developing RPA processes and objects for applications, showcasing an in-depth understanding of the application workflow.
- ❖ Have hands on experience in InSprint automation using Selenium UI and API automation, enhancing testing efficiency and coverage.
- ❖ Showcasing expertise in Robotics Process Automation using UiPath, Quality Assurance Management, Java Selenium Automation, API Testing, and Mobile Automation.

Mar 2024 – Apr 2023: Procyon Technostrcuture as QA Lead

Key Result Areas:

- ❖ Overall accountability and responsibility for the delivery of testing services for Herewith product.
- ❖ Managing and reviewing the day-to-day delivery of test services by Bank-appointed vendors; acting as the first point of escalation for any issues raised by Herewith stakeholders or testing service providers.
- ❖ Driving and collaborating with all Herewith stakeholders and test service providers to plan testing-related deliveries for the accountable portfolio.
- ❖ Participating and contributing in forums to drive testing transformation and innovation; working with testing service providers and other stakeholders to review, provide feedback, sign off on the test strategy, test plans, and other test service providers' artifacts.
- ❖ Ensuring adoption of testing methods, standards, and tools, coordinating health checks or audits with the Test Governance team.
- ❖ Engaging with various Herewith stakeholders (application, security, infrastructure, business) to ensure testing services meet the bank's objectives and demand.
- ❖ Developing RPA processes and objects for applications, showcasing an in-depth understanding of the application workflow.
- ❖ Have hands on experience in InSprint automation using Selenium UI and API automation, enhancing testing efficiency and coverage.
- ❖ Showcasing expertise in Robotics Process Automation, Quality Assurance Management, Java Selenium Automation, API Testing, and Mobile Automation.

Feb 2022 – Nov 2023: DBS - The Boston Software Solutions International, Singapore as QA Automation Manager and RPA Architect

Key Result Areas:

- ❖ Overall accountability and responsibility for the delivery of testing services across FR Digital Process.
- ❖ Managing and reviewing the day-to-day delivery of test services by Bank-appointed vendors; acting as the first point of escalation for any issues raised by DBS stakeholders or testing service providers.
- ❖ Driving and collaborating with all DBS stakeholders and test service providers to plan testing-related deliveries for the accountable portfolio.
- ❖ Participating and contributing in forums to drive testing transformation and innovation; working with testing service providers and other stakeholders to review, provide feedback, sign off on the test strategy, test plans, and other test service providers' artifacts.
- ❖ Ensuring adoption of testing methods, standards, and tools, coordinating health checks or audits with the Test Governance team.

- ❖ Engaging with various DBS stakeholders (application, security, infrastructure, business) to ensure testing services meet the bank's objectives and demand.
- ❖ Understanding the application workflow thoroughly and contribute to the development and execution of test scripts for interactive testing of products.
- ❖ Developing RPA processes and objects for applications, showcasing an in-depth understanding of the application workflow.
- ❖ Receiving UAT and Control Run Sign-off from users after the build is ready; creating MQWrapper configuration for each process in both UAT and PROD environments.
- ❖ Leveraging holistic expertise in creating Automation Framework based on application and testing requirements using various technologies like Selenium, HATS, and BluePrism.
- ❖ Have hands on experience in InSprint automation using Selenium UI and API automation, enhancing testing efficiency and coverage.
- ❖ Showcasing expertise in Robotics Process Automation, Quality Assurance Management, Java Selenium Automation, UFT Automation, API Testing, and Mobile Automation.

Jun 2018 – Feb 2022: Cognizant, Chennai, India as Senior Associate – Projects

Key Result Areas:

- ❖ Ensured the prompt and efficient delivery of all user stories testing within a short timeframe as part of the ACAPS agile project team.
- ❖ Acted as a central point of contact for US Bank customers, maintaining regular and transparent communication through daily execution status reports.
- ❖ Done automation testing for the Product to Salesforce CRM migration and integration successfully
- ❖ Contributed majorly to the creation of Test Design and test cases, strengthening the testing framework for the Small Business Banking Process.
- ❖ Have hands on experience in InSprint automation using Selenium UI and API automation, enhancing testing efficiency and coverage.
- ❖ Proactively resolved technical issues and facilitated effective communication within the team through regular team meetings.

Nov 2017 – Jun 2018: CBSI India Pvt. Ltd., Bangalore, India as Technical Project Manager

Key Result Areas:

- ❖ Led the Oneclaim agile project team, delivering all user stories testing within a short timeframe, showcasing efficient project management skills.
- ❖ Managed testing activities effectively in the waterfall model for Transact & PRIME projects, ensuring successful adherence to project methodologies.
- ❖ Done automation testing for the Product to Salesforce CRM migration and integration successfully.
- ❖ Have hands on experience in InSprint automation using Selenium UI and API automation, enhancing testing efficiency and coverage.
- ❖ Played a pivotal role in creating Test Design and developing test cases based on BRD, contributing to a robust testing framework.
- ❖ Have hands on experience in InSprint automation using Selenium and API automation, enhancing testing efficiency and coverage.

Previous Work Experience

Nov 2017 – Jul 2018: CBSI India Pvt. Ltd, Bangalore

Aug 2015 – Jul 2017: Infosys, Chennai, India as Project Manager

Jan 2014 – Jun 2015: iNautix (A BNY Mellon Company), Chennai, India as Project Leader – Quality Assurance

Mar 2010 – Dec 2013: TATA Consultancy Services, Chennai, India as Assistant Consultant

Feb 2007 – Jul 2009: IBM India Pvt. Ltd., Bangalore, India as System Tester

Aug 2005 – Feb 2007: Siemens Information Systems Ltd., Bangalore, India as Senior System Engineer

PROFESSIONAL TRAININGS ATTENDED

- | | |
|--|---|
| ❖ PMP & Agile Methodologies | ❖ QMS, Metrics & Estimation |
| ❖ BluePrism Robotics Process Automation | ❖ Healthcare Domain Training |
| ❖ D01 Certified BluePrism Developer, 2021 | ❖ Data Security and Privacy Awareness Training |
| ❖ Rational ClearCase Basic & Advanced | ❖ Achieving Success Without Authority |
| ❖ Rational Software Modeler Basics & Advanced | ❖ How you can Improve Client Satisfaction |
| ❖ Rational ClearQuest Basic & Advanced | ❖ In Process Metrics for Testers, Test Strategy and Resource Planning |
| ❖ Rational Software Architect Basics & Advanced | ❖ Team Leadership Skills for Testers |
| ❖ Requirement Management with Rational Requisite Pro | ❖ Leadership Training & Managing Performance |
| ❖ Rational Functional Tester | |
| ❖ HP Quality Center | |
