

Vasan RK

Software Test Engineer | Database Developer

Contact: +91 63839 99355 | Email: vasan2001pmgr@gmail.com | LinkedIn: www.linkedin.com/in/vasankumaran-r

PROFILE SUMMARY

Having 1.5 year of experience as **Software Test Engineer & Database Developer**. Proficient in Manual Testing, E2E Automation Testing – **Cypress, Playwright**, Unit Testing – **Jest** with all aspects of the Software Development Life Cycle (**SDLC**) and Software Testing Life Cycle (**STLC**), with expertise in Functional Testing, Non-Functional Testing, API Integration Testing, Regression Testing, Automation Testing and Database Testing. Skilled in Smoke Testing, Sanity Testing, and User Acceptance Testing (**UAT**). Creating, Executing, and Maintaining Comprehensive Test cases and Test plans, ensuring thorough coverage of application Functionality.

EXPERIENCE

Cloud DevOps & Tester – Digamend Technology Solution Private Limited,

Chennai [Oct 2023 – Oct 2024]

Software Test Engineer & Database Developer – Mayavaram Finance Corporation Pvt Ltd,

Chennai [Nov 2024 – Apr 2025]

TESTING TOOL SET

- Programming Language: **JavaScript**.
- IDE's Performance: **Visual Studio Code**.
- Automation Testing: **Cypress, Playwright**.
- Cross Browser Testing: **Cypress, Playwright**.
- Unit Testing: **Jest**.
- API Testing: **Postman, Api Dogs**.
- Database Testing: **PostgreSQL, MySQL**.
- Bug Tracking Tool: **Trello, JIRA**.
- CI/CD Pipeline: **Jenkins**.
- Version Control: **GIT**.
- Web Services: **REST assured**.
- Web Server and Load Balancer: **Nginx, AWS**.
- Containerization: **Docker**.
- Cloud Storage Services: **AWS – S3**.

ROLES & RESPONSIBILITIES

- Designed and implemented robust test automation frameworks using **Cypress** and **Playwright** for web applications.
- Reduced **Manual testing** efforts by 70% and enhanced defect detection by 30% through integrated automation strategies.
- Manage and troubleshoot **Linux**-based systems and Physical **Ubuntu** Server.
- Host and deploy static websites (**React.js**) and Configure **Nginx** to serve dynamic web applications (**Node.js**)
- Work with **Docker** to create and manage containers for application deployment.
- Have knowledge in writing **SQL queries** using **Joins, Sub Queries, Single Row Functions, Analytical Functions, Group Functions**, etc.
- Wrote and executed complex **PostgreSQL** queries to validate data integrity in databases, ensuring backend and front-end consistency.
- Develop and Design **ER Table & ER Diagram** to ensure Data Flows and Quality of Datas.

- Understanding the User requirements with help of **Software Requirement Specification (SRS)**.
- Optimize **Nginx** performance by tuning configurations for high-traffic applications and by Set up load balancing to distribute traffic efficiently across multiple physical servers.

PROJECTS

• **CORLEL WEBSITE:**

Technical Details: The Website is developed in **Flutter** Language and Tested in **Cypress**.

Deployment done in AWS Amplify.

Tools Implemented: **Cypress, Jenkins, Docker, AWS S3, GitHub, CloudFront, Route 53.**

Project Description: It is a static website hosted on AWS S3 to provide information about the meta world, including augmented reality (AR) and virtual reality (VR). The deployment involved **CI/CD Pipeline by Jenkins**, Configure **Cypress** to test on Chrome, Firefox, and Edge while validating responsive design across desktop, tablet, and mobile. Configured Cypress to test on Chrome, Firefox, and Edge while validating responsive design across desktop, tablet, and mobile.

• **CORLMART ECOMMERCE APPLICATION:**

Technical Details: The Web Application is developed in **MERN** Stack and Deployed and hosted in **AWS Amplify** and Manually Tested and Automation Testing by Playwright.

Tools Implemented: **Manual Testing, Playwright, AWS EC2 Instance, NGNIX - Load Balancer.**

Project Description: It is a Dynamic Ecommerce website hosted on AWS for selling 3D models. Followed **SDLC, STLC** in **Manual Testing** of Black Box Testing, **Functional Testing** of Smoke, Sanity, Regression Testing, **Non-Functional Testing** of Performance Testing. Deployment involved **CI/CD Integration by Jenkins**. Ensuring new and existing features work as expected. Validating **API Testing** using Postman Rest Assured to validate RESTful APIs.

• **The Vault:**

Technical Details: The Web Application is developed in **PERN** Stack and Deployed and Hosted with Physical Server using Web Services **Nginx** and Tested Manual and Automation Testing.

Tools Implemented: **Manual Testing, Cypress, Playwright, Jest, NGNIX Load Balancer, Postman, Jenkins, PostgreSQL, Docker, Trello, Slack.**

Project Description: It is **Non- Banking Finance Service Application**. It is designed to handle Chit funds, Instalment payments, Financial transactions and Auctions. Followed **SDLC, STLC** in Manual Testing of **Black Box Testing**, Functional Testing of **Smoke, Sanity, Regression Testing**, Non-Functional Testing of **Performance Testing**. API Testing using **Postman** Rest Assured to validate **RESTful APIs**. Deployment involved **CI/CD** Integration by **Jenkins**. Bug Tracking Tool by **Trello** and **JIRA**, Report Tracking Tool by **Slack** and Database Testing in **PostgreSQL**.

QUALIFICATION

B-TECH - [Information Technology] - [2019-2023]

VEL TECH MULTI TECH DR.RANGARAJAN DR.SAKUNTHALA ENGINEERING COLLEGE - Chennai.

CERTIFICATIONS

- **Manual Testing** and **E2E Testing** in React JS.
- **Automation Testing** and **Integration Testing** with Node JS.
- Certified in **AWS** for Beginner.
- Certified in AWS **Cloud Practitioner** Essentials.
- Certified in **Cloud Foundations**.
- Certified in **Core Python** programming.

DECLARATION

I affirm that every detail shared in these documents is true and accurate, reflecting me utmost honesty and integrity.
