A dedicated professional with 2.5 years of experience in Performance testing, possessing specialized domain knowledge in the HealthCare sector with adept ability to excel both independently and collaboratively within team environments showcasing strong interpersonal and communication skills. Seeking association with a progressive organization that gives me scope to enhance my skills according to latest trends and to be part of the team that dynamically works towards the growth of organization.

SKILLS

- Performance Testing Tools: **HP LoadRunner**
- Defect Tracking: **JIRA**
- Data Visualization Tools: **Power BI**
- Database: **Oracle SQL**
- Monitoring Tools: **Dynatrace, Splunk**
- API Tools: **ReadyAPI, Postman**
- Programming Languages: **C, Java, Python**
- Other Skills: **Jenkins, MS Power Automate, MS-Office**

EXPERIENCE

Performance Test Engineer - Accenture Solutions Pvt Ltd

August 2021 - Present

Project Name: Kaiser Permanente

- Carried out performance testing across 10 major Kaiser Permanente's applications encompassing Web, Citrix ICA, API, Desktop and Truclient based applications. Successfully completed end-to-end performance testing for 3 major Kaiser Permanente's applications single-handedly.
- Proficient in Nonfunctional Requirement and Test Plan documentation.
- Expertise in designing test plans, scenarios, scripts, and analysis reports.
- Developed automated performance testing scripts using VuGen in various protocols.
- Enhanced script efficiency by implementing parameterization, correlation, and transaction integration.
- Automated Desktop applications with Selenium and Sikuli, leveraging OCR capabilities for test executions.
- Conducted 3-tiered profiling to identify and resolve performance bottlenecks.
- Created Mock Services and developed REST Services using ReadyAPI and groovy scripting.
- Utilized Postman for mock request generation and validation, ensuring performance readiness.
- Executed diverse performance tests using Performance Center, providing detailed analysis reports.
- Monitored performance metrics comprehensively using Dynatrace, offering valuable recommendations.
- Prepared 95th percentile test results and response time reports using Analysis tools.
- Optimized systems for user experience, by analyzing response times under different loads and analyzed performance data collected from tests to identify potential issues during SDLC.
- Implemented Jenkins automation for seamless Performance Center test executions within CI/CD pipelines, enhancing efficiency and ensuring optimal performance testing.
- Expert in JIRA, creating and managing defects and tasks for system enhancements.
- Developed Python scripts for data automation, constructed interactive results dashboards with Power BI. Acknowledged by clients and business teams for efficiency and cost-effectiveness.
- Collaborated closely with stakeholders to ensure timely project deliverables.
- Managed a 3-member team, facilitating precise test scheduling and execution within project timelines.

CERTIFICATIONS

- Microsoft Certified: Azure Fundamentals
- Microsoft Certified: Power Platform Fundamentals
- AWS Certified Solutions Architect - Associate
- AWS Certified Data Analytics - Specialty

EDUCATION

Rajalakshmi Institute of Technology, Chennai
Bachelor of Engineering (CSE)

2017 - 2021
