Test Manager / Automation Test Manager

About Me: A visionary and dynamic Professional with strong business acumen and offering over 15 years of insightful experience, for a successful experience in Software Testing/Software Quality Assurance functions, having expertise in SDLC & Defect Lifecycle as well as a consistent record of progression, repeatedly achieving goals & producing immediate improvements while having hand-on in establishing automation framework including design & implementation of Selenium WebDriver/UFT/Robot automation framework for smoke and regression test suites.

Target: Looking for a managerial challenge as a **TEST MANAGER / AUTOMATION TEST MANAGER** to drive IT initiatives for Testing Service Delivery with a values-driven global organisation of repute, to meet organisational objectives

Leadership Strengths

- ✓ Currently engaged as Associate Manager-Quality Engineering with Accenture Solutions Pvt. Ltd., Chennai, India, since Aug 2012. Presently leading the team in Software Quality Assurance (SQA) activities, implementing test automation framework/solutions for regression, sanity and progression tests creating automation scripts for test data
- ✓ A planned & reliable Software Quality Management professional, with total competence in Software Testing/Software Quality Assurance and having expertise in all phases of the Software Testing Life Cycle (STLC), Bug life Cycle & all steps in the Automation Testing Life Cycle (ATLC) with proficiency in scripting, analysing & implementing test scripts, test cases, test plans, test processes, defect reporting, bug tracking/resolution and report generation for different applications/products(Web UI, Main Frame, API Testing)
- ✓ An analytical Software Testing Life Cycle expert, with competence in the Development of High-Level Test Plans/Detailed Test Plans/Functional Validation Matrix/Test Cases, Scripting of Test Cases, Review of Test Cases & selection for Automation, execution of complete Testing Cycles (Stress/Performance/Regression Tests), Test Result Documentation and evaluation of effectiveness of the testing processes.
- ✓ Proficient in Bug Life Cycle involving new Bug reporting, arranging for Resolution, Code revision & Error resolution, Regression Test for verification of change success and reporting after satisfactory resolution of the bug.
- ✓ Total proficiency in all the steps of the Automation Testing Life Cycle including the defining Scope of test automation, Selection of Automation tool, Definition of test plan/test design/test strategy, setting up of the Test Environment, creating Test script & execution of same and Test analysis/reporting.
- ✓ A proactive Program/Project Delivery Specialist, using Agile & Waterfall Methodologies as well as skilled in all functions of the Project Life Cycle, from Initiation, Project scoping/scheduling/estimation, Execution planning, Quality monitoring, Budgeting, Risk mitigation, Resource utilisation, Procurement, monitoring progress till the final delivery, complying with agreed timelines, cost and quality.
- ✓ An effective Support Service Delivery leader, coordinating with stakeholders & end-users to provide Support Service delivery, ensuring identification & resolution of Incidences/Problems/Issues to the satisfaction of all concerned.
- ✓ Established the Quality Assurance program including general criteria for system reviews, software metrics and measurement program to include software quality, estimation, benchmarking, productivity and risk analysis for software delivery.
- ✓ Proven Acumen in implementing organizational test processes that improved interactions among external vendors, product development, release engineering, product support, product management and IT.
- ✓ An Innovative & Analytical People Manager driving cross-functional teams to achieve business objectives and having innate skills in recruiting, leading, training, monitoring high-performing/multi-cultural teams, delegation, issue/conflict resolution, client interaction, motivation and mentoring.
- ✓ A cohesive member of the team with an analytical/problem-solving attitude & capabilities in innovation, negotiation, planning, interpersonal relationships, communication, decision-making, organisational and management skills
- ✓ International experience: USA, Mexico and China, for over 3 years.
- ✓ Sectors: Banking, Telecom, Supply Chain Management and Healthcare

Excellence Sphere

- | | | |
|--------------------------------------|--------------------------------------|------------------------------------|
| ✓ Lead Software Quality Assurance | ✓ Bug detection/resolution/reporting | ✓ Lead Global Delivery Management |
| ✓ Software Testing Life Cycle (STLC) | ✓ Automation Testing Life Cycle | ✓ Execute Program/Project Delivery |
| ✓ Create/execute Test Cases/Scripts | ✓ Scoping & Selection of Tool | ✓ Risk Assessment & Mitigation |
| ✓ Test planning/Execution/Reporting | ✓ Select Test Cases for Automation | ✓ Optimize & Allocate Resources |
| ✓ Standard Bug Life Cycle expert | ✓ Define Test plan/Design/Strategy | ✓ Manage Support Service Delivery |

- ✓ Resolve Incident/Problem/Issue
- ✓ Strong Technical Knowledge
- ✓ Meet Stakeholder Expectations
- ✓ Client Relations/Satisfaction
- ✓ Vendor Contract Management
- ✓ Team Building & Leadership

Technical Skills

- ✓ Hardware: Mainframe, Desktop PC
- ✓ Operating System: Windows 2000/XP/Vista/2007/2010/2011, UNIX, Linux (Red Hat/Fedora/Ubuntu/Debian/CentOS/SuSE),
- ✓ Languages: VB Scripting, Macros, Java
- ✓ Databases: MS Access, MS SQL Server 2008 R2
- ✓ Automation Tool: Selenium, UFT, Robot Framework, AutoIT, RPA
- ✓ Test Tools: ALM, Jira, Fog Bugz 8.7.60, Attachmate Reflection/X-treme, IBM Host on Demand/PComm
- ✓ Other Tools: Postman, Soap UI, Confluence, Maven, Jenkins, Sikuli X 1.0.1, Rational Team Concert, Blue Print, TeraTerm 4.75
- ✓ Version Tools: SVN, Git Hub

Professional Experience

Associate Manager-Quality Engineering

Accenture Solutions Pvt. Ltd., Chennai, India, (Aug 2012 onwards)

Achievements:

- ~ Received many Client appreciations for the timely delivery of Quality Automation Deliverables, for test processes implementation and for maintaining AEI as >80%
- ~ Recipient of ACE award, three times for Quality Deliverables and Automation
- ~ Increased regression automation penetration by 82%
- ~ Improved hands-free scripts execution by ~30%
- ~ Won appreciation for engaging people in CSR initiatives

Key Profile:

- ✓ Leading a team of 48 resources in Software Quality Assurance (SQA) activities, implementing test automation framework/solutions for regression, sanity and progression tests.
- ✓ Reporting to the Senior Manager for creating Automation scripts for test data creation & support tools to reduce the manual effort and improve the test effectiveness.
- ✓ Driving the team to conduct a feasibility study as well as implement automation scripts for the creation of test data & support tools to reduce the manual activities and improve the test efficiency.
- ✓ Coordinating with clients, stakeholders and on-site team for defining the Automation Roadmaps, Planning, Implementation and Installation.
- ✓ Creating/presenting Demonstrations/Walk-throughs/Retrospections on test deliverables, including Automation.
- ✓ Arranged enhancement of Automation framework to support un-attended multi-scenario test executions as well as using Automation for test data generation and management.
- ✓ Created suitable test cases using UFT scripts for Automation while supporting various Automation Frameworks (UFT/Selenium) and performed code optimization for the existing scripts.
- ✓ Implemented process for in-line automation using Accenture script-less automation framework (EAF) for automating new functionality test cases.
- ✓ Acted as the LOB Lead for the Retail Banking Team for release-level test design/execution/automation delivery/SLAs/KPIs.
- ✓ Directed 8 different application-level teams, ensuring test delivery within agreed SLAs along with Test/Defect management, using tools like ALM/Jira/RTC/Blue Print, etc.
- ✓ Underwent knowledge transfer (receiving) for automation in Shanghai/China to create many understanding documents and provided knowledge transfer to the offshore team.
- ✓ Played the role of a strong communicator between the Business community, development team and testing teams, being knowledgeable of SDLC phases as well as testing methodologies and use of test/automation tools.
- ✓ Engaged in capacity management for each release while tracking Test Optimization efforts using Sequencing, Defect-to-test case mapping and Modularization techniques.
- ✓ Owned people engagement initiatives/events along with corporate social responsibility initiatives across projects
- ✓ Provided documentation of all the Test processes/methods/How-to articles/other important test steps/results/benchmarks, using SharePoint.

Senior QA Engineer

SolarWinds India Pvt. Ltd., Chennai, India (Apr 2012 to Aug 2012)

Achievements:

- ~ Received many appreciations from the QA Lead/Manager for successfully resolving customer issues

Key Profile:

- ✓ Reported to the Manager and supervised 2 resources during this short engagement (4 months) for testing activities, including Automation.
- ✓ Drove the creation of Test Plan/Test Cases, of QTP script (using HP QTP 10.0) and design of Framework for Test execution as well as Automation.
- ✓ Developed Progress & Risks Reports and presented the same, timely, to the management to make them aware of the situation.

- ✓ Engaged in activities like defect management/reporting, execution/reporting of automation scripts and the results using the tools QTP/Selenium.
- ✓ Performed Code Optimization for the Scripts that already existed to improve the Quality of the Scripts.

Test Automation Engineer

Tata Consultancy Services Ltd., Chennai, India (Sep 2009 to Apr 2012)

Achievements:

- ~ Improved the productivity percentage by "35%" by re-engineering the existing Test Automation Framework
- ~ Appreciated by the Client for the outstanding efforts in Designing, Developing & implementing the ERAFT
- ~ Undertook Automation of a new module, the Regression pack, achieving 100% and delivered well ahead of the schedule/target dates.
- ~ Reduced the test execution time by reengineering the existing scripts
- ~ Saved up to USD 1200 USD/Regression Release, by completion of a Process Improvement (PI) project
- ~ Received appreciation from the customer for achieving unmanned scheduled test execution

Key Profile:

- ✓ Started the IT career with this global Consulting leader reporting to the Test Lead and supervising 3 resources in Testing projects.
- ✓ Drove the creation/execution of Test Scripts for the assigned modules while studying the new Change Requests & the Scenarios for suitability of Automation and created suitable Automation Test Scripts & Scenarios.
- ✓ Prepared POC after conducting a feasibility study for the new components that need to be automated as well as undertook new modules for Automation.
- ✓ Performed Code Optimization for the Scripts that already exist, thereby improving the Quality of the Scripts at the same time automated the regression pack.
- ✓ Acted as a part of the Quality Review Process (IQA, EQA & FI process) and uploaded all the latest Scripts in the shared repository using the Version tool (Tortoise – SVN).
- ✓ Undertook a detailed review of the existing Test Automation Framework, re-engineered the same & created a POC on one of the key modules of BTGS and implemented the same.
- ✓ Performed re-engineering of the existing Test Automation Framework & named it "E2E Reusable Test Automation Framework for Testing (ERAFT)", supporting total Scenario execution with manual interventions and suited for any level of complex applications.
- ✓ Completed a Process Improvement (PI) project, for "Reducing the data sheet preparation effort by implementing data build scripts" following the PDCA process.
- ✓ Designed & developed automation scripts, for component-level testing, in an unstable environment and at the same time developed sanity check scripts for component testing.
- ✓ Enhanced automation framework to send report mails, automatically, with brief RCA, once the test execution was over.

Education

- ✓ **M.E. (Computer Science & Engg.)**, from Thiagarajar College of Engineering, Anna University, Chennai, India (2009)
- ✓ **B.Tech. (IT)**, from Adhiparasakthi Engineering College, Anna University, Chennai, India (2005)

Certifications/Training

- ✓ **HP Accredited Integration Specialist (AIS) - HP Quality Centre 10.0 (Mar 2011) & HP Quick Test Professional 10.0 (Nov 2010)**
- ✓ **ISTQB Certified Tester Foundation Level (CTFL) (Aug 2017)**
- ✓ Trained in Test Automation Using HP Unified Functional Testing (UFT)
- ✓ Test Automation for Beginners Using Selenium Web Driver training
- ✓ Training on Test Automation Framework and Automation Testing

Publications

- ~ Published a **paper titled "Robust Token Circulation Scheme for Mobile Ad-Hoc Networks"** in the International Journal of Computational Intelligence Research and Applications (IJCIRA) Vol:3, No:1, January-June 2009, pp 51-54
- ~ Submitted a **paper titled "A Cluster-Based Reliable Token Circulation Scheme for Group Communication in MANET"** to the "Arabian Journal for Science and Engineering" which was published by Springer Publication
