## Skill and Tool

- Automation Testing:** Frameworks: Selenium, JUnit, TestNG, Maven, Gradle, Continuous Integration: Jenkins
- Performance Testing:** JMeter, APM (DataDog, BlazeMeter) Load, Capacity, Stress Testing, performance metrics.
- Security Testing:** Burp Suite
- Cypress:** Javascript Knowledge
- Manual Testing: Software, Game, Mobile apps, Console**(XBOX, XBI, PS5, PS4), VR, Functional, Integration, Regression testing, Acceptance, UI, Test case writing, UAT Accessibility, debugging, Database, cloud.
- Waterfall, Agile, V model, Scrum
- Tools: TestRail, Testlink, GitHub/Gitlab, Okta, Jira, Bitbucket, Unity, Visual Studio, Eclipse.
- Programming: Java, MySQL, HTML
- API testing: Frameworks (Postman, REST Assured)

### Addition Information:

- I have previously worked on 7+ live projects and I have a few projects mentioned below.
- Woocommerce (Website(E-commerce)), Magnopus (Website & Mobile application(VR tech)), Wormhole and Savonix (Web, and Mobile testing), Nick Brawl 2 (Console and Web application)

## Education Background

Master Of Computer Science (2020 to 2022) with (78%)

Savitribai Phule Pune University

Bachelor Of Computer Science (2016 to 2019)

Savitribai Phule Pune University

## Certification

- Selenium WebDriver with Java –Basics to advance + Frameworks certification. (2021)
- Software Testing: Udemy (2021)
- SQL: Cognitive Class(2022)

## Profile Summary

Experienced in conducting comprehensive Manual, Automation, and Performance testing for software and game projects, enhancing quality, reliability, and reducing defects to improve software stability.

## Professional Experience

SOFTWARE TESTER 02/2021- Current,  
GlobalStep Pvt.Ltd, Pune Maharashtra

### Role:

- Developed and implemented test automated framework and scripts to streamline testing processes and improve efficiency.
- Conducted performance testing to evaluate the analysis, monitoring, troubleshooting, Strategy, scalability, and stability under varying loads and conditions.
- Performed manual testing to validate the functionality, usability, test development & execution, and compatibility of the software.
- Collaborative with development, quality assurance & SAP teams to identify and prioritize test cases.
- Generated test reports and recommendations to stakeholders, while collaborating on the design test plans and strategies for high-quality software delivery.
- Investigated and documented software defects, working closely with developers to facilitate their resolution.
