

SUMMARY

Aspiring software testing an entry-level position to leverage my academic background, theoretical knowledge of testing methodologies, and hands-on training in executing test cases. Open to acquiring new skills and dedicated to delivering high-quality results in a collaborative and challenging environment.

EDUCATION:

Dharmapuram Adhinam Arts and Science College

Bachelor's Degree in Physics, aggregate 78%
2019-2022

HSC, aggregate 50%
Raj Matric Higher Secondary School, Mayiladuthurai.
2017-2019

SSLC, aggregate 80%
Mayura Matriculation School, Mayiladuthurai.
2015-2017

PROJECTS:

- **E-commerce Website Testing**
- Description: Testing the functionality and usability of an e-commerce website.
- Key Functionalities:
- product search: Ensure accurate and relevant search results.
- Add to-cart functionality: Verify the ability to add products to the cart.
- Checkout process: Test the smoothness of the purchase process.
- Payment integration: Validate payment gateway functionality and security.
- user registration: Ensure seamless user registration and account management.
- Responsibilities:
- Conducted end-to-end testing of the product search, add to-cart functionality, checkout process, payment integration and user registration.
- Reported and tracked defects using bug tracking tools.

SKILLS SUMMARY:

- **Manual Testing:** Proficient in creating comprehensive test plans, test cases, and test scripts to cover all aspects of software functionality.
- **Automated Testing:** Skilled in using test automation tools such as Selenium, Framework , MVN Repository, and TestNG to increase test efficiency and coverage.
- **Defect Tracking:** Experienced in using bug tracking systems like Jira to report and manage issues throughout the development lifecycle.
- **Regression Testing:** Expertise in conducting regression tests to ensure that new code changes do not negatively impact existing functionality.
- **Test Documentation:** Strong ability to create clear and concise test documentation, including test plans, test cases, and test reports.
- **Agile and Scrum:** Familiar with Agile development methodologies and Scrum practices, actively participating in sprint planning and daily stand-ups.

TECHNICAL SKILLS:

- Programming Languages: Core Java
- Testing Tools: Jira
- Operating Systems: Windows
- Databases: SQL
- Frameworks: Selenium

CERTIFICATES:

- Completed **Software Testing Training** offered by Besant Technologies, Velachery-2023
