PROFESSIONAL SUMMARY:

- Experienced QA Automation Engineer with over 8 years in quality assurance and automation, including 5 years in designing and developing automation frameworks with Selenium, Java, and Appium.
- Skilled in API automation with Postman and RestSharp, proficient in SQL/MySQL for backend validation, and experienced in cross-platform mobile testing for Android and iOS.
- Adept in Agile methodologies, utilizing JIRA and GitLab for project management and defect tracking.
- Proven team player and leader, having coordinated teams to deliver high-quality deliverables and achieve comprehensive test coverage.
- Background in customer relationship management from ICICI Bank, with skills in client acquisition, operational compliance, and a client-centric approach.

TECHNICAL SKILLS:

Programming & Databases: Python, MySQL, Core Java, SQL, Java Selenium, SDET, API

Frameworks & Libraries: Selenium, JDBC, FireFlink

OS & Version Control: Windows, Git

Project management: JIRA, GitLab, Agile, Waterfall

Cloud: Browser Stack, Sauce labs, Lambda Test

PROFESSIONAL EXPERIENCE:

➤ Organization: Automation and QA Enthusiast Role: Automation Tester & Quality Analyst

Duration: Mar 2020-Oct 2024 **Project Name:** Shoppers Stack (e-commerce platform) in FireFlink

Roles and Responsibilities:

- Developed automation frameworks using Selenium, Java, and Appium, enhancing test coverage and execution efficiency. Created modular and reusable scripts for scalable test automation.
- Conducted API automation with Postman and RestSharp to verify seamless integration and data accuracy. Used SQL and MySQL for backend data validation and consistency.
- Specialized in mobile automation testing across Android and iOS platforms using Appium, ensuring consistent functionality and performance across devices.
- Integrated Agile methodologies into testing cycles, utilizing JIRA for defect tracking and GitLab for version control, enhancing collaboration with cross-functional teams.
- Led the creation and execution of over 200 automated scripts across 96 test suites, coordinating with a team of five to ensure comprehensive test coverage and timely delivery.
- Configured 15 environment variables and 7 custom step groups for enhanced flexibility and data-driven testing, streamlining test execution across environments.
- Validated application functionality under varied data conditions using structured data-driven testing, ensuring consistent performance and data reliability.

➤ Organization : ICICI Bank Role : Assistant Manager Duration : Jan 2016 – Feb 2020

Role and Responsibilities:

- Expanded the client portfolio by developing strategic outreach initiatives, enhancing relationships with high-net-worth individuals to drive revenue growth.
- Managed cash handling operations, ensuring accuracy and compliance with financial protocols and regulatory standards.
- Conducted SQL-based audits to monitor transactions, improving data integrity and compliance within branch operations.
- Analysed loan applications through financial evaluations to assess creditworthiness, align with risk management goals, and make informed lending decisions.
- Led branch operations, optimizing customer service processes to boost client satisfaction and operational efficiency.
- Managed a diverse account portfolio, delivering personalized financial solutions and achieving high client retention and satisfaction.

EDUCATION:

- PGDBO (Post Graduate Diploma in Banking Operation) from NIIT, 2015-2016
- Bachelor of Engineering (Electrical and Electronics Engineering) from Anna University, 2009-2013

CERTIFICATIONS:

- Software Testing Full Stack/SDET Course, Automation testing using Selenium and Manual testing using JIRA and Fire Flink, Postman API Fundamentals Student Expert, NISM, NRDL, IRDA, PCEP Entry level Python programmer , Diploma in MySQL and Statistics for Data Analysis.

Awards and Recognitions:

- Rated 2 as Senior Officer in 2016-17 and 2017-18,Awarded top performer in Life Insurance Drive2017-18, Star performer award for 2018 Quarter, Top performer award in monthly drive events (Sep, Nov, Dec)

LANGUAGES KNOWN:

- English, Tamil, Hindi, and Telugu
