

OBJECTIVE

I am looking for a software developer position in a reputable organization where I can learn a new skill, expand my knowledge and apply my expertise. As a hardworking full-stack developer with experience in this field, ready to take a challenging assignments. I'm reliable when it comes to completing quality work and exceeding expectations.

EXPERIENCE

Internship Trainee-Java Developer | SHIASH INFO SOLUTIONS PVT LMT

04/2023 – 07/2023

Project Worked : BRUNT REVERSAL JUST-IN-TIME GLITCH PROPHECY

Tools and Platform : Java Jdk8, Heidisql v11.0, Apache Tomcat 8.X, Eclipse Oxygen.

Project discription :

- Developed a warehouse data management system with enhanced security measures to safeguard against potential threats, utilizing unique IDs and QR codes for efficient data retrieval and verification..
- Implemented preprocessing techniques to streamline data handling processes, ensuring accurate record calculation and updates within the database.
- Designed to address common challenges such as data loss, mismatching, and handling inefficiencies, resulting in improved data integrity and operational efficiency.
- The system facilitates easy extraction of product counts and details based on unique IDs, enabling quick access to stock information and updates.
- Contributed to the enhancement of security prevention methodologies and efficient data management practices, ensuring robust protection and seamless handling of critical warehouse data.

ROLES AND RESPONSIBILITIES

- Configured and maintained Apache Tomcat server for deploying and testing web applications.
- Utilized MySQL database management system for storing and retrieving application data, optimizing queries for performance.
- Wrote clean, efficient, and maintainable code adhering to coding standards and best practices.
- Assisted in troubleshooting, debugging, and resolving software defects to ensure the delivery of high-quality solutions.

SKILLS

- HTML5, CSS3, JavaScript
- Selenium.
- MySQL
- JAVA(opps concept)
- QA-MANUAL

CERTIFICATIONS

- Certification of completion in Basics of JAVA, SQL and Selenium in Greens Technologies Chennai.

ACADAMIC PROJECT DECRIPTION

Project Name: Designing a Power Converter to Charge a Hybrid EV

Role : Programming

Used board : Arduino

Abstract : This project presents a novel approach to hybrid electric vehicle charging, combining solar and fuel cell inputs through a specialized DC-DC converter topology. By harnessing pollution-free energy sources, the system charges electric vehicle batteries efficiently while minimizing output current and voltage ripple

Professional skill

- Good communication skill and analytical skill
- Focused, ability to work in team and independently in any environment.
- Calm under pressure, ability to lead the team.
- Continually seeking improvement.

EDUCATION

B.E EEE | KSK College of Engineering and Technology | Kumbakonam

AUGUST 2018 – JULY 2022

7.01 (CGPA) Anna University

HSC | Little Flower Higher Secondary School | Kumbakonam

2016 – 2017

60.00% State Board

SSLC | Little Flower Higher Secondary School | Kumbakonam

2013

89.00% State Board

Area of Intrest

| PROGRAMMING
| WEB DESIGNING AND DEVELOPMENT
| QA-AUTOMATION AND MANUAL

DECLARATION

I hereby declare that all the above details are true and genuine to best of my-knowledge.

PLACE | CHENNAI

DATE |

(SARAVANAN S)
