

Sarjana E

ETL Tester

Detail-oriented ETL Tester with 4 years of experience in Healthcare and Banking domains, skilled in SQL, Talend, UNIX, and data validation. Proven track record in optimizing ETL pipelines, ensuring 98%+ data accuracy, and collaborating with cross-functional teams to deliver quality outcomes

PROFILE SUMMARY

- Total 4 years of experience in the IT industry with a strong focus on **ETL testing, manual testing, and database testing, utilizing tools** and skills such as **Oracle SQL, UNIX, SSIS, and core ETL concepts**.
- Experienced in analyzing requirements and providing accurate work effort estimates.
- Created detailed test cases based on **business and technical requirements**.
- Performed **system integration and functional testing across various project phases and Agile sprints**.
- Proficient in writing and executing SQL queries, validating data pipelines in SSIS, and working with Oracle and SQL Server databases.
- Strong skills in **UNIX commands, including grep, awk, and find, for log analysis and data processing**.
- Hands-on experience with **fact and dimension table** analysis in data warehouse environments.
- Solid understanding of **SQL joins, group functions, analytical functions, and subqueries**.
- Known for strong analytical thinking, problem-solving abilities, and effective communication.

WORK EXPERIENCE

- Performed as an ETL Tester specializing in SQL at Justdial , Chennai (Mar 2021 - Sep 2021).
- Executed SQL queries to reconcile patient data as a ETL tester at Access Healthcare , Chennai (Dec 2021 - Jun 2023).
- Worked as an ETL Tester at Savista Global Solutions , Chennai (Jul 2023 - Dec 2023)
- Performed ETL validation and defect tracking as ETL Tester at ASPRCM solutions Chennai (Jan 2024 - Feb 2025)

Contact

Phone : 860-883-1306

Email :

sarjanaram1306@gmail.com

Location : Chennai , India

TECHNICAL SKILLS

- **Databases** : Oracle, SQL Server, GCP- big query
- **ETL Tools** : Talend, Informatica
- **Specialization**: Database testing, ETL Testing, Report Testing, Manual Testing, Cloud migration process Languages : SQL, UNIX Shell Scripting
- **Tools** : Oracle SQL Developer, Talend, JIRA, Informatica, Putty, WINSCP, Tidal
- **Domains** : E-Commerce, Healthcare, Investment Banking

EDUCATION & CERTIFICATION

- B.A Tourism and Travel Management (Ethiraj College for Women) – 2021
- AI Tools Workshop Participant, Jan 2025

AWARDS & RECOGNITION

- **Spot Award** – Best Employee of the Month, Savista Global Solutions – Sep 2023 .
- **Well-Tuned Engine Award** ASPRCM solutions - Nov 2024.

ROLES & RESPONSIBILITIES

Project 1 :

- SQL Data Validation: Wrote complex SQL queries to validate data extraction and ensure accuracy in product, customer, and transaction data.
- ETL Process Testing with Talend: Validated ETL processes using Talend, ensuring proper transformation of data such as product categorization, pricing, and customer details.
- Data Integration: Verified seamless integration of internal and external systems, including payment gateways and shipping services.
- Performance & Load Testing: Conducted performance testing to validate ETL pipeline performance during peak traffic, using SQL queries to analyze data flow.
- Unix Scripting: Utilized Unix scripts for automating data extraction and validation tasks to improve testing efficiency.
- Reporting & Dashboard Validation: Ensured accurate data population in reports and dashboards by validating the transformed data with SQL and Talend.

Project 2 :

- Performed ETL testing using SQL and Talend to validate healthcare claims and billing data.
- Wrote SQL queries to verify patient data, payments, and claim statuses. Assisted in reconciling data across EMR and billing systems.
- Conducted manual testing for claim workflows and denials.
- Used UNIX commands for file validation and log review.
- Participated in SIT/UAT and documented test cases and results.
- Handled defect tracking and regression testing using JIRA and Excel.
- Ensured data accuracy and compliance with HIPAA standards

Project 3 :

- Performed ETL testing to validate data integration between core banking systems and data warehouses.
- Wrote complex SQL queries to verify customer data, account transactions, and loan information.
- Validated ETL transformation logic and tested fact/dimension tables for financial reporting and regulatory compliance.
- Used Talend and SQL to test and monitor daily/monthly batch loads.
- Conducted data reconciliation for financial statements, interest calculations, and KYC records.
- Utilized Unix commands for log validation, file handling, and automation of ETL test tasks.
- Participated in SIT and UAT phases, logging defects in JIRA and ensuring resolution in coordination with developers.

PROJECT 1

Client : JustDial

Role : ETL Tester

Domain : E-Commerce

Technologies : SQL , Unix ,
Talend , JIRA Tool , Data
Warehouse Technologies

PROJECT 2

Client:Athena Healthcare , USA

Role : ETL Tester

Domain : Healthcare

Technologies:Oracle
SQLServer , UNIX , Talend

PROJECT 3

Client:ASPRCM Solutions

Role : ETL Tester

Domain:Banking Investment

Technologies : Oracle , SQL ,
SSIS,Unix
