QA Automation Lead

Sep 2021 - Present

Chennai

- **Led a team of 5 QA engineers** in creating and implementing a comprehensive testing framework that reduced software defects by 35% through stringent quality checks.
- Identified and created over 500 automated test cases using **Selenium**, which decreased manual testing hours by 60%.
- Established continuous integration pipeline using **Jenkins**, reducing integration issues by 40%.
- Expanded BDD (Behavior Driven Development) methodology using **Katalon**, improving collaboration between QA and development teams, resulting in a 25% increase in test coverage.
- Utilized **JMeter** for performance testing and identified bottlenecks and optimized system performance, achieving a 10% increase in application speed.

HCL Tech

QA Automation Lead

Jan 2019 - Sep 2021

Chennai

- Spearheaded an automation project **reducing regression testing time by 50%**.
- Developed an automation suite **using Selenium and C#**, increasing test coverage by 40% and identifying 25% more defects pre-production.
- Handled a **team of 5 automation testers**, providing mentorship and facilitating professional growth.
- **Integrated CI/CD pipelines using Team city**, reducing code deployment time by 30%.
- Carried out a **root cause analysis on recurring bugs**, leading to the implementation of process improvements that decreased defect leakage to production by 15%.

HCL Tech

Onshore QA Lead

Jan 2017 - Dec 2018

Sydney

- **Mentored junior testers** and initiated a training program that led to a 30% improvement in team productivity and efficiency.
- **Collaborated with cross-functional teams** to ensure timely delivery of projects, maintaining a 95% on-time completion rate.
- Tested APIs using **Postman**, improving reliability and reducing integration issues by 25%.

- **Conducted regular test reviews** and updated test documentation, ensuring compliance with industry standards and improving test coverage by 20%.

HCL Tech

QA Lead

Oct 2016 - Dec 2016

Chennai

- Created over 300 test cases for various software modules, which improved software release cycles by 20%.
- Decreased defect leakages by 10% through effective use of continuous testing methods and **regular code reviews**.
- Performed **test case reviews** and provided feedback to improve test coverage and execution accuracy.
- Applied a **shift-left testing approach**, incorporating automated tests in early development stages and reducing post-release defects by 18%.

HCL Tech

Senior Test Analyst

Jun 2010 - Sep 2016

Chennai

- Managed a **team of 2 QA engineers**, ensuring high-quality software delivery for client projects.
- **Coordinated with development teams** to define and implement coding standards and best practices.
- Effectively assessed **risks** and prepared mitigation strategies to minimize project risks.
- Took **training sessions on QA processes and tools** for new team members.

HCL Tech

Test Analyst

Jun 2008 - May 2010

Chennai

- Drove efficiency by **identifying & reporting issues to dev team** quickly to maintain the integrity of existing functionality.
- Generated detailed **bug reports using JIRA**, aiding in the swift resolution of issues and enhancing collaboration between QA and development teams.
- Involved in the **creation of manual test cases and execution**, identifying critical defects and improving product quality.
- Supported the **setup and maintenance of the test environment**, ensuring seamless and efficient test executions.

HCL Tech

Developer

Jul 2006 - May 2008

Chennai

- Crafted comprehensive **technical and functional specifications** for projects to ensure clarity and direction.
- Designed and enhanced applications tailored to **project requirements**, ensuring innovative solutions.
- Efficiently resolved application **development issues**, ensuring seamless project progression.
- Prepared and implemented test cases and strategies for rigorous **unit and integration testing**.

Personal Information

LinkedIn Profile : <http://www.linkedin.com/in/selvi-pradeepan>

Awards

- **Above and Beyond Award** for implementing value adds and exceeding expectations to deliver outstanding results.
- Recognized with **Star Award** for implementing automation for regression scripts that reduced manual effort by 40%.
- Received the **Star Award** for exceptional mentorship and guidance in developing a team of skilled automation engineers.
- Recipient of **Client Appreciation Award** for Automation work done for SAP Upgrade project.
- Received the **Client Appreciation Award** for effectively collaborating with Offshore teams and stakeholders.
- Awarded the **On Spot Award** for quick learning about the new domain and training the team.
- **On Spot Award** from Engagement Level for outstanding performance.
