

Objective

Electronics and Communication Engineering student seeking an internship to gain **hands-on experience**. I am a quick learner, a **creative** problem-solver, and a **dedicated individual**, eager to make a positive impact and learn from experienced professionals.

Education

B.Tech (ECE)	7.81/10	<i>Vellore Institute of Technology, Chennai</i>	2025
12TH Grade	89 %	<i>Sri Chaitanya School (CBSE), Chennai</i>	2021
10TH Grade	84.4 %	<i>Sri Chaitanya School (CBSE), Chennai</i>	2019

Achievements

- **Innovate H Social Creator 2021** conducted by **Hyundai India**
 - **Finalist** in Environment Category ([H-Social Creator \(hsocialcreator.in\)](https://hsocialcreator.in)) – One of top 10 finalists (out of 530 eligible ideas)
 - **Idea** – *Solar Prism with Total Internal Reflection*
- **ATVC – Aravalli Terrain Vehicle Championship 2023** – **Electrical Member** of the team
 - Designed the tractive system of the vehicle and installed/tested all the electronics of the vehicle
 - Collaborated with other technical team members and learned about the mechanics of the vehicle.
- **Smart India Hackathon 2022** – **Finalist and Leader** of the team
 - Proposed a Centralized Wireless Home Appliances Control System, which can be operated through a Mobile App.
- **Space Settlement Deign Contest 2018** – Sponsored by **NASA Ames Research Center** – **Participant**

Workshops Attended

- **Agri-tech 4.0 – the future of farming technology** conducted by Centre for Advances Data Science (2023)
- **Arduino Programming** Organized by School of Electronics Engineering – SENSE (2022)
- **Delta PLC workshop** by IPCS, Chennai (2022)
- **Usefulness of remote sensing and GIS for Environmental studies** organized by Indian Institute of Remote Sensing (IIRS), Dehradun (2021)
- One day seminar on **Nano scale semi-conductor devices and their applications** conducted by the Institution of Engineers, IES India. (2021)

Skills

Softwares

- Cadence
- MATLAB
- Ansys Electronics
- Altium Designer
- PLC Micro Ladder
- Excel

Programming Languages

- Python
- JAVA
- Arduino

Personal Skills

- Creative and Critical Thinking
- Adaptability
- Collaborative
- Time Management

Academic Skills

- Micro-Processors and Micro-Controllers
- Digital System Designs
- VLSI Designs
- Signals and Systems

Areas of Interest - Electric Vehicles | AI & Machine learning | VLSI System design

Hobbies - Learning about Tech Trends | Whistling | Swimming | Cooking | Exploring Food
