shankar-225122217

Kanyakumari , Tamilnadu, India

SKILLS

- **Programming** : Core-Java
- **Monitoring**: Prometheus-Grafana, Azure monitoring, Fluentd-logging
- **Containerisation**: Docker Kubernetes
- **SQL-DB**: ORACLE, MSSQL
- **Operating System**: Linux , Windows
- **Infra**: IBMMQ, Kafka-Zookeeper Clustering,Rabbitmq Clustering

EDUCATION

- **Bachelor of Engineering - Mechanical engineering**

FX Engineering College

2018-2022

CGPA - 8.1/10

SUMMARY

Experienced and skilled professional at managing functional and Performance testing. Committed to maintaining a stable and bug-free environment through comprehensive test coverage. Proven ability to collaborate with cross-functional teams to ensure seamless integration and delivery of high-quality software products.

WORK EXPERIENCE

Associate performance test engineer

Volante Technologies - Jan 2023 - Present

Collaborated with cross-functional teams to identify and resolve performance bottlenecks, resulting in a 20% improvement in application's Payment response along with infra issues.

BNYM-SPG:Worked on the project regarding SPG Payments for BNYM.

BNYM-SPG-MSP: Validated that the Payment Details and Data's have been archived from the Primary DB to a Secondary DB without any performance degradation.

Done Performance Testing on VolPay-CORE-2x Containerization and provided the the required reports for the bottlenecks on the DB. Readiness and Liveness validation during the runtime along with Horizontal pod autoscaling has been done Used: ASB(Azure-Service Bus, MSSQL, AKS(Azure Kubernetes Service).

RBC-Royal Bank of Canada-Fedwire: Performance Testing has been done in the Fedwire payments.

Performance testing has been done on Fed-Now Payments in the Azure VM setup. Containerization has been done for RBC with the Docker and Kubernetes as the Orchestrator. Readiness and Liveness setup has been done after validating the respective API's. Horizontal pod Auto-Scaling and Auto-Healing has been tested for RBC-Fedwire and also has been validated while processing payments.
