PROFESSIONAL SUMMARY

Detail-oriented and highly motivated QA Analyst with over 3 years of experience in software quality assurance, specializing in manual testing methodologies. Proficient in a variety of testing tools with a solid understanding of SDLC and agile methodologies. Proven track record of ensuring the delivery of high-quality software products through meticulous attention to detail, robust test planning, and comprehensive test execution. Adept at identifying, documenting, and resolving defects to enhance software functionality and performance. Committed to continuous learning and professional development to stay up to date of recent industry trends and advancements.

SKILLS

Software Testing: Manual Testing, Functional Testing, Integration Testing, System Testing, Smoke Testing, Re-testing Testing, Regression Testing, Adhoc Testing, Performance Testing, UAT, Sanity Testing, White Box Testing, Black Box Testing, Test Case, Test Plan, Scenario, Defect Report., PostmanAPI.

DataBase: SQL, PgAdmin

Development Methodologies: Agile, Waterfall, V&V module, Prototype module

Bug Tracking and Test Management:, Defect Tracking (Excel sheet).

Operating Systems: Windows.

Soft Skills: Communication, Team Collaboration, Time Management, Adaptability, Critical Thinking,.

Analytical Skills: Attention to Detail, Analytical Thinking, Problem-Solving, Risk Assessment, Root Cause Analysis.

CERTIFICATIONS

CSQA - Certified Software Quality Analyst

Certified Software Testing engineer - QSPIDER - 2021

QUALIFICATIONS

Qspider - Hyderabad | Certificate

Testing , 04/2021

Guru Nanak Institutions Technical Campus - Hyderabad | Bachelor's Degree

Electronic Communication and Engineering, 06/2020

Narayana Junior College - Hyderabad | Board of Intermediate Education

06/2016

WORK EXPERIENCE

QUALITY ASSURANCE ANALYST -

EXCELOID SOFT SYSTEMS PVT LTD - Hyderabad

05/2021 to 05/2024

- Monitored resolution of bugs, tested fixes and helped developers tackle ongoing problems by providing QA perspective.
- Configured program into new operation systems and monitored outcome for effective change management.
- Implemented use of LT browser and TCPOS tools to illustrate project features and requirements.
- Utilized Agile software development methods to increase team efficiency by 20%.
- Operated under Agile and Scrum frameworks to complete releases and well-organized sprints.
- Authored and maintained well-organized, efficient and successful manual test cases for the entire team.
- Gather data on integration issues and vulnerabilities, reported findings and recommended improvements.
- Studied and educated end-users on various uses of software and hardware and how to optimize general use.
- Identified and tracked defects with Systopia and supported developers in resolving problems by completing additional tests.

PROJECTS

FMCG App Development using Openbravo ERP

Description: Participated in the development of an FMCG management application by ensuring the quality and performance of the system through comprehensive testing processes.

Responsibilities:

- Collaborated with the development team to understand the project requirements and design test plans.
- Created detailed test cases and test scripts based on functional specifications and user stories.
- Conducted functional testing to verify that each module of the application met the specified requirements.
- Tested the integration between the custom frontend applications and Openbravo ERP to ensure seamless data flow.
- Conducted regression testing to ensure new code changes did not adversely affect existing functionality.

TSCO Project || APCO Project Using Openbravo ERP

Description: To enhance the supply chain efficiency of TSCO project by implementing a new inventory management system and to streamline communication processes for APCO Project through the implementation of Openbravo ticketing system.

Responsibilities:

- Raised and managed tickets using Openbravo for tracking inventory management system issues and enhancements.
- Collaborated with cross-functional teams to prioritize and resolve tickets based on business impact.
- Provided regular updates to stakeholders on ticket status and resolution timelines.
- Reduced average ticket resolution time by 20% through efficient tracking and prioritization.
- Managed ticketing system using Openbravo to track client requests and project milestones.
- Worked closely with client teams to ensure timely resolution of issues and effective communication of project updates.
- Customized ticketing workflows in Openbravo to align with project requirements and enhance efficiency.

Systopia App Integration with TCPOS

Description: Implemented seamless integration between the Systopia application and TCPOS backend system to streamline operations and enhance user experience.

Responsibilities:

- Configured TCPOS backend system to meet project requirements.
- Implemented seamless integration between TCPOS and Systopia application.
- Collaborated with cross-functional teams to ensure alignment with project goals.
- Successfully configured TCPOS backend to support project requirements, enabling smooth operation of Systopia application.
- Implemented real-time synchronization between TCPOS and Systopia, improving data accuracy and reliability.
- Resolved technical challenges related to system integration, contributing to the timely delivery of the project.
- Improved operational efficiency by streamlining processes through TCPOS integration, resulting in a 20% reduction in manual data entry.
- Enhanced user experience by providing seamless access to project details within the Systopia application, leading to increased user satisfaction.
