Program/Project Manager | BFS Domain | CSM | ISTQB | Test Management

PROFILE SYNOPSIS

- **Experience in leading large-scale & complex projects** from ideation to benefit realization using Agile & Scrum methodologies; presenting changes, issues, risks, and contingency plans to balance project resources, schedules, cost, and scope
- **Worked in Standard Chartered GBS**, managing & delivering AI Models before moving it to production, and reviewing the effectiveness of test techniques for any AI based solutions.
- **Steered multiple testing projects simultaneously** from scoping to delivery within the set time, budget and quality parameters; ensured 100% test coverage with zero UAT defects and no defect leakage.
- Expertise in producing technical & business feasibility studies for project ideas right from collecting project requirements, metrics documentation, project briefs, end-stage reports and project progress reports.
- **People Leader** - Led high-performing teams of engineers; managed their performance, goal setting, conflict resolution, and attrition; built relationships with stakeholders, facilitated cross-group collaboration, and on-site/off-shore engagements.

CORE COMPETENCIES

- End-to-End Program/Project Management
- Test Delivery
- Agile Transformation | DevOps
- Rapid Prototyping using Design Sprint
- Effective Documentation and Presentation skills.
- People Management
- Digital Banking & Transformation
- Professional Services
- Product Management
- QA & Test Management across all the Gametes
- Product Implementation, RFP/RFI and Presales
- Client Engagement

CAREER HIGHLIGHTS

- Implemented the IFRS 9 program for SCB singlehandedly.
- Led a team of 40+ on multiple transformational projects at SCB.
- Adapted multiple roles as a QA Program Manager, Scrum Master, and Project Manager to fit the agile work environment.

EXPERIENCE DETAILS

Standard Chartered Global Business Services, Chennai, India | Nov 2014 – Jul 2024

Senior Manager | Oct 2020 – July 2024

- Oversee the management and delivery of AI models prior to production deployment.
- Evaluate the effectiveness of testing techniques for **AI-based solutions**.
- Apply extensive experience in optimization techniques and performance testing for **models and APIs**.
- Lead end-to-end **Machine Learning projects**, addressing both text and image-based use cases while meeting business-agreed SLA metrics. Execute comprehensive project management, mitigate risks, and ensure project quality.
- Participate in and review architecture forums prior to project rollovers.
- Deliver project solutions on-time and within budget by following agile cycles, managing feedback, and adapting to changing requirements.
- Manage project constraints, including cost, resources, time, and scope, while communicating changes and proposing optimization strategies and techniques. Manage staff, lead teams, and collaborate with vendors and cross-functional teams.
- Leverage diverse expertise in the **banking domain**.

Senior Project Manager - CCIB – Trade | Feb 2019 - Sep 2020

- Coordinated management of multiple **CCIB-Trade domain projects**, ensuring timely, budget-compliant, and within-scope delivery.
- Oversaw quality, scope, timeline, effort, and resources, including employees, contractors, vendors, and operations. Developed and executed project plans while managing **RAID** to meet program objectives.
- Collaborated with Product Owners, UAT users, and the Technical Delivery team to manage stakeholder relationships, including escalations, expectations, conflicts, and scope changes.
- Controlled scope changes by reviewing impacts on timelines and securing approvals from the Program Steering Committee or relevant governance forums.
- Partnered with stakeholders to ensure adherence to SDLC methodologies before changes moved to production.
- Ensured testing and traceability of products and changes, partnered with the testing team, and oversaw the automation suite.
- Enforced technical processes such as **code reviews, check-ins, CI/CD, and versioning**; maintained JIRA hygiene and captured documentation in **Confluence**.
- Measured, monitored, and reported progress to stakeholders with consistent, high-quality content.

Senior Manager - Credit Risk & Counterparty Risk | Jan 2017 - Jan 2019

- Steered multiple testing projects within the Credit Risk domain, ensuring timely, budget-compliant, and within-scope delivery of regulatory reports, risk reporting, and counterparty risk projects.
- Guaranteed 100% test coverage with zero UAT defects and no defect leakage, ensuring no impact on production changes. Coordinated with business users for smooth signoff and developed a robust automation roadmap for thorough testing.
- Monitored resource allocation to Agile squads and circulated test reports to stakeholders.
- **Managed end-to-end test processes**, including planning, estimation, automation script development, and test closure.
- Provided additional support for **BAU projects** by interacting with the vendor development team (FIS) to ensure minor BAU fixes were developed and tested for smooth delivery.

Test Engineering Manager - BCRS & IFRS Implementation - Risk and Finance | Nov 2014 – Dec 2016

- Coordinated and ensured smooth delivery of major program changes like **IFRS and BCRS implementations in the Risk and Finance domain**, delivering test results on time, within budget, and scope.
- Partnered with stakeholders to ensure adherence to SDLC and testing methodologies.
- Measured, monitored, and reported progress to stakeholders with high-quality and consistent content.
- Directed tactical and strategic execution of key testing initiatives, managing multiple projects and taking appropriate actions for timely and effective delivery.
- Collaborated with Business Project Managers and Technical Delivery Managers to manage stakeholder relationships, including escalations, expectations, conflicts, and scope changes.
- Mentored the team in developing innovative techniques to automate manual processes and enhance long-term ROI for stakeholders. Guided a large team, managed their goals and year-end appraisals fairly.

Cognizant, Chennai, India | Mar 2008 - Nov 2014

Sr. Associate – Projects | Sep 2012 - Nov 2014

- Oversaw the overall delivery of KBC products and projects. Led project scoping and acquisition for a key product.
- Executed RFI/RFP solutions and traveled to Belgium for product acquisition, implementation, and POC.
- Managed project initiation, effort estimation, resource allocation, monitoring, and process improvement.
- Interfaced with stakeholders and customers to prepare business requirements and project documentation.
- Published weekly project status and conducted meetings to review progress.
- Ensured end-to-end test delivery followed release trains and Agile methodologies.
- Liaised with Business, Compliance, Infrastructure, and Technology teams for smooth go-live.
- Reviewed production changes and coordinated releases.
- Handled project proposals, test management, test delivery, and client coordination.

Senior Associate Project Manager | Jun 2010 - Aug 2012

- Worked for American Express Bank on their Personal Banking product.
- **Led and managed a team of 40+ for BFSI projects, including Cards and Payments**, ensuring high-end quality in end-to-end project flows for reputed banking clients. Drove adherence to Quality Assurance standards.
- Defined master project plans, test strategies, and developed and reviewed test plans for large-scale engagements.
- Reviewed test suite coverage, monitored test execution, and conducted regression, functional, and integration testing.
- Managed end-to-end transition and delivery activities for AMEX, overseeing a team of 40 FTEs, including 4 value streams and 6 Agile PODs, in a vendor consolidation engagement.
- Delivered key projects/programs for Cards and Payments, including Capital One and AMEX.

Senior Associate | Mar 2008 - May 2010

- Collaborated with Lloyds Banking on their Risk and Compliance project.
- Managed all phases from project initiation and planning to estimation and closure.
- Coordinated with cross-functional teams to ensure effective integration and delivery.
- Interacted daily with business stakeholders and project sponsors to report project progress.
- Ensured adherence to project artifacts and alignment with the SDLC process.
