www.linkedin.com/in/asghar-ali-sqa Sukkur, Pakistan

SUMMARY

Passionate Software QA Tester (Manual) with 4+ years of experience in SDLC, software testing, and Agile methodologies. Proficient in JIRA, Quality Center, and test case management, with a proven track record of leading QA teams to improve software quality. Successfully reduced defect ratios and enhanced product stability through meticulous testing and process optimization.

EXPERIENCE

Software QA Engineer (Manual) 01/2019 - Present
Absolute Testers Sukkur, Pakistan

- Comprehensive testing planning for various software products
- Developed and executed over 500 test cases, reducing the defect ratio by 27%
 - Led 3 software projects, applying Agile methodology, enhancing release efficiency by 17%
 - Managed bug reporting through JIRA, improving the defect resolution timeline by 25%
 - Improved testing efficiency by 20% through the implementation of new testing processes
 - Identified and reported 30 critical software bugs, resulting in a 15% reduction in post-release customer issues
 - Managed testing for 10 different software projects within a 6-month period
 - Executed 500 test cases on average per week for various software applications
 - Achieved a 95% defect detection rate by meticulously testing new software features and functionalities
 - Collaborated closely with the software development team to deliver high-quality, bug-free applications through rigorous testing and proactive issue resolution.
 - Efficiently tested multiple projects in a fast-paced environment, ensuring top-notch quality and performance.
 - Perform Functional/Cross Platform/Regression/Sanity testing.

SQA (Intern) 02/2025 - 04/2025
Appverse Technologies Lahore, Pakistan

- Responsible for conducting thorough software testing to ensure software performance and reliability
- Assisting in the creation and execution of test plans, test cases, and test
 - Collaborating with the development team to ensure the quality and functionality of software products.
 - Conducting various types of testing, including functional, regression, and performance testing.

Software QA Tester (Intern) 10/2024 - 11/2024
Wyreflow Technology Sukkur, Pakistan

- Performed various types of software testing to maintain quality and efficiency of software products
- Assist in executing functional, regression, and user acceptance testing (UAT) across various platforms to validate software functionality.
 - Conduct exploratory testing to uncover usability issues and improve overall user experience.
 - Worked closely with the QA team to align testing efforts with project goals and gain insights into cross-functional teamwork.

EDUCATION

B.S. in Computer Science 11/2024 - Present
Shah Abdul Latif University Khairpur Mir's, Pakistan

B.Sc. (Bachelor of Science) 2020 - 2022
Shah Abdul Latif University Khairpur, Pakistan

STRENGTHS

-  **Problem Solving**
Applied analytical problem solving to fix 20+ bugs per sprint in the previous project.
-  **Communication**
Facilitated communications with developers and business stakeholders, improving overall project efficiency by 15%.
-  **Attention to Detail**
Detailed approach helped identify and resolve over 100 minor defects, improving software overall performance by 30%.

SKILLS

SDLC · Agile methodology · Waterfall · Iterative · Quality Center · JIRA · HTML · CSS · Project Management · Testing Processes · Communication Skills · Detail Oriented · Functional Testing · User Acceptance Testing · System Testing · Smoke Testing · Regression Testing · Windows · Unix · Manual Testing · G Suit · Google Sheets · Excel · problem-solving · Critical Thinker · Analytical · Multi-Tasker

CERTIFICATION

- Certification of completion Software Testing Tutorial
Awarderd by Great Learning Academy (verify.mygreatlearning.com/WPEURPAC)
- Certification of completion SQL Project
Awarderd by Great Learning Academy (verify.mygreatlearning.com/TKJVZIDG)
