PROFILE SUMMARY

- ❖ **ISTQB Certified Test Professional** offering **17+ years** of **on-site & off-shore** experience in managing **QA, Software Testing, Project Management, Test Automation Architecture and Team Management**.
- ❖ Extensive experience in developing **quality assurance standards**, processes, procedures and documentation templates.
- ❖ **Project Execution Expert**: led the project execution and management in tune with the core business objectives; reviewed functional requirements and translated them into technical specifications.
- ❖ Expertise in managing **software testing lifecycle** involving requirement analysis, system study, designing, **defect tracking, debugging**, project sizing, status reporting, maintenance & documentation.
- ❖ Excels in **Functional Testing, System Integration Testing, API Contract Testing, Beta Testing and Accessibility Testing**.
- ❖ Proven success in **implementing automation strategies to maximize Return on Investment (ROI)**, thus achieved **10-fold increase** in test efficiency, and eliminated redundancy; successfully enabled **Continuous Integration/Continuous Deployment (CI/CD)** pipelines to support **Agile transformation initiatives**.
- ❖ Excellence in spearheading **automation initiatives** & adopting exponential efficiency improvement methodologies to optimize resource in projects, achieve higher maturity & produce better results.
- ❖ Capable of managing **stakeholders** by informing them on future scenarios during **review meetings**, maintaining **key relations with clients** by acquiring feedback on issues and taking suitable actions.
- ❖ Gained **international experience by working in USA** for over 3 years.
- ❖ **Top performing team player & quick learner** with strong adaptability to **build, manage & motivate high team performance** through mentoring & problem-solving.

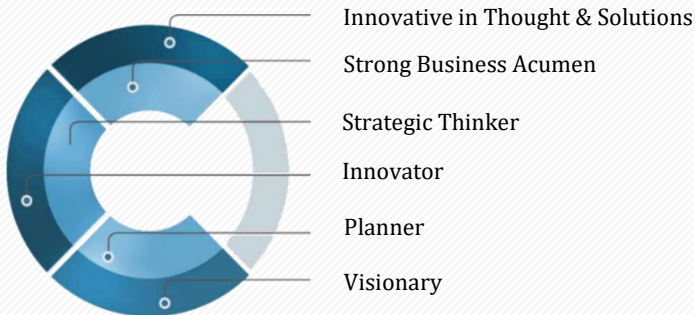

CORE COMPETENCIES

- Strategic Planning & Leadership
- Quality Assurance & Control
- Test Automation Architecture
- Software Testing Lifecycle
- Risk Assessment & Mitigation
- Release Readiness Review (RRR)
- Project Execution & Management
- Client / Stakeholder Engagement
- Team Building/ Training & Management

SOFT SKILLS

TECHNICAL SKILLS

- ❖ Test Automation Frameworks | Java | Groovy | Python | VB Script
- ❖ **Tools**: Selenium, Appium, Katalon, Postman API, REST Assured, Sauce Labs, Tricentis QTest, Jira
- ❖ Continuous Integration & Continuous Delivery (CI / CD)
- ❖ Agile Methodologies / Transformation
- ❖ Functional Testing | System Integration Testing | API Contract Testing | Beta Testing
- ❖ Accessibility Testing (WCAG)
- ❖ Google Cloud Platform | Sauce Labs | Jenkins

EDUCATION

B.E. in Electronic & Instrumentation Engineering
from Easwari Engineering College, Chennai, Anna University in 2006

CERTIFICATIONS

- ❖ Sun Certified Java Programmer
- ❖ ISTQB Certified Test Professional
- ❖ Katalon Test Automation Professional (Expert Level)
- ❖ HP Quick Test Professional (Automation Specialist)
- ❖ Lean Six Sigma Yellow Belt
- ❖ Google Cloud Digital Leader
- ❖ Certified Scrum Master
- ❖ Certified Scrum Product Owner

PERSONAL DETAILS

Date of Birth : 3rd July 1985
Languages Known : English & Tamil
Location : Chennai-600017, Tamil Nadu

WORK EXPERIENCE

Feb'09-Mar'24: Zebra Technologies, Pune as Senior QA Manager / Test Automation Architect

Key Result Areas:

- ❖ Directed a team of 45 members; formulated project baselines, monitored & controlled projects w.r.t. cost, resource deployment, time overruns, and quality compliance to ensure satisfactory execution of projects.
- ❖ Mapped business requirements and provided customized solutions involving finalization of product specifications and selection of appropriate techniques.
- ❖ Coordinated with the developers, discussed technical problems, reported bugs, and supported in rectifying issues.
- ❖ Implemented project plans within deadlines and defined best practices for project support & documentation.
- ❖ Spearheaded client/user/partner interaction for requirement gathering, risk assessment, finalization of technical specifications, and discussions for effort/cost/time estimation and client coordination & reporting.
- ❖ Planned & coordinated the availability of QA test environments and ensured compatibility of the same; scheduled & executed the software testing life-cycle and documented errors in Quality Centre & Jira.
- ❖ Provided scope, resource & time estimates for projects and presented the same for testing and analysis.
- ❖ Presented QA test status and progress reports as appropriate to the top management.
- ❖ Developed test scenarios and test cases from business, technical & functional requirements as well as from the high-level and low-level design documents.
- ❖ Identified & analyzed defects, questionable functions, errors, program functionality, outputs & online screens.
- ❖ Interacted with the team members to ensure smooth progress of project work; ensured adherence to quality norms throughout the implementation process.

Projects Managed:

Title: Workforce Management (WFM)

Tools & Technologies:

Tools: Selenium, Appium, Katalon, Postman API, Sauce Labs, Tricentis QTest, Jira

Development & Ops: Java, Spring, Angular JS, JSP, Servlets, Freemarker Templates, DB2, IBM Liberty, Kotlin, Objective-C, Flutter-Dart, Google Cloud Platform, Jenkins

Supported Platforms: Google Chrome, Mozilla Firefox, Microsoft Edge, iOS, Android

Description:

Workcloud Scheduling (Schedule Smarter): Enhanced budgeting, forecasting & scheduling processes to empower employees & control workforce expenses effectively. Utilized resources efficiently across various locations, departments, and roles by aligning schedules with customer traffic patterns and employee skills, certifications & preferences. Conducted testing on advanced forecasting algorithms to improve accuracy, and implement scheduling optimization using AI and Machine Learning techniques.

Workcloud Timekeeping (Track Time, Attendance & Labor Compliance): Ensured employees and operations remain compliant while enhancing timekeeping efficiency. Monitored time entry and labor to manage costs and adhere to legal requirements. Emphasized employee safety through touchless clocking methods. Enhanced productivity by maintaining precise attendance records and providing real-time visibility throughout the organization.

PREVIOUS EXPERIENCE

Jul'06-Jan'09: UST Global, Trivandrum as Software Test Engineer

Projects Managed:

Title: Franchise Management Information System (FRAMIS 2.0) | **Role:** Software Test Engineer

Tools & Technologies: Testing: Microsoft VSTS, Watson, C#, Fiddler, Bugzilla, **Development & Ops:** ASP.NET, WCF, SQL SERVER

Description: FRAMIS 2.0 is the Franchisee management software for the client, to automate the business process, it provides an e-business solution which entitles them to manage the clients' business operations. System is used to maintain information about Franchisees, Area Franchisees, Areas, and Royalties within the network of stores. It enables all the franchisees to submit the royalty information to the system and experience the business processing required for it.

Title: Enterprise Provider Database Solution (EPDS)

Tools & Technologies: Testing: QTP, Test Director 5.0, **Development:** J2EE, IBM DB2

Description: This project is about maintaining & integrating the providers associated with the clients' organization. The core business objective of this project is to provide the client to maintain & monitor complete business transaction in the organization with intense data security & accuracy. Mission critical for customer business operations with in-depth functional & integration needs.
