Professional Summary

As a Senior QA Manager, I have over 15 years of experience in planning, deploying, and managing testing efforts for diverse projects. My skill set encompasses team management, testing governance, and testing process improvements.

I hold certifications such as ISTQB Test Manager, Prince 2 Practitioner, Agile Scrum Master, and Certified Salesforce Administrator and completed 500 plus online courses from different source to enrich my knowledge

I excel in designing comprehensive test strategies, test plans, test conditions, test data, test cases, and traceability matrices based on business requirements and technical specifications. With my strong reasoning and analytical abilities, I quickly grasp internal customer processes and suggest more efficient alternatives when appropriate.

Throughout my career, I have been actively involved in feasibility evaluation, scope definition, test plan creation, estimation, technical reviews, benchmarking, project monitoring, risk identification and mitigation, and delivering technical presentations for multiple projects and preparing SOW for the resources.

Played role of Development manager for the Internal Product development and successfully released.

My communication skills enable me to effectively engage with stakeholders, providing accurate reporting, information, risk assessment, and initiatives. I am proficient in preparing estimations for manual testing, performance testing, and ETL/migration testing assignments.

I possess a deep understanding of both the Software Development Life Cycle (SDLC) and the Software Testing Life Cycle (STLC). My hands-on experience includes various types of testing, such as UAT, Black Box, Integration, System, Regression, Migration, and Compatibility testing.

I have handled and contributed to the testing of over 30 projects, encompassing websites and mobile applications, across various domains. These projects involved teams of 80+ members with diverse skill sets.

Overall, I bring extensive experience, leadership skills, and a strong focus on quality assurance to my role as a Senior QA Manager, driving successful testing initiatives and delivering high-quality results
