

THIRUVATTA POTHIRAJ T

SENIOR MANAGER - QA /PROJECT MANAGER /CERTIFIED SCRUM MASTER

Tambaram, Tamil Nadu 600045 • 9486076749 • tprajmca05@gmail.com •

LinkedIn: <https://www.linkedin.com/in/pothirajmca/>

Personal Summary

Accomplished **Senior QA Manager** with **18+ years of experience** leading high-impact quality assurance initiatives across diverse industries. Proven expertise in **project management**, end-to-end **test strategy development**, and driving excellence through **AI-powered and automation testing frameworks** (Selenium, Cypress, Playwright, TestNG). Adept at aligning QA efforts with business goals to ensure scalable, high-quality software delivery.

Experienced **Certified Scrum Master**, skilled in Agile methodologies, team coaching, and facilitating seamless collaboration between QA, development, and product teams. Demonstrated success in building and mentoring high-performing QA teams, managing large-scale projects, and consistently delivering results in fast-paced, deadline-driven environments.

Work Experience

Senior QA Assurance Manager, 01/2011 to Current

Changepond Technologies Pvt Ltd – Chennai, India

Roles & Responsibilities Summary

- Directed comprehensive QA and testing initiatives for large-scale projects, ensuring alignment with business objectives and delivering high-quality software outcomes.
- Developed and implemented robust testing frameworks and quality standards across the software development lifecycle (SDLC).
- Managed test strategies encompassing planning, execution, and defect management to meet stringent quality benchmarks.
- Oversaw automation testing environments, enhancing efficiency and accelerating release cycles.
- Conducted in-depth analysis of test results, providing actionable insights and mitigation strategies to stakeholders.
- Mentored QA team members on automation tools and best practices, fostering a culture of continuous improvement.
- Led cross-functional teams through all phases of the project lifecycle, from requirements gathering to deployment and support.
- Defined clear project objectives and deliverables, ensuring alignment with organizational goals and client expectations.
- Managed project constraints, including scope, time, cost, and quality, to deliver projects on

schedule and within budget.

- Facilitated effective communication among stakeholders, resolving conflicts and ensuring cohesive team collaboration.
- Implemented risk management strategies to proactively identify and mitigate potential project risks.
- Utilized project management tools (e.g., Jira, Azure DevOps) to track progress, manage resources, and report on project status. (Project management)
- Built and led high-performing QA and project teams, promoting a culture of excellence and accountability.
- Conducted performance evaluations, provided constructive feedback, and identified opportunities for professional growth.
- Continuously evaluated and refined QA and project management processes to improve efficiency and effectiveness.
- Implemented key performance indicators (KPIs) to monitor progress and identify areas for improvement.
- Ensured compliance with industry standards and regulations, maintaining high-quality deliverables and minimizing risks. (Project manager)
- Identified opportunities for process improvement, leading to increased efficiency within the department.
- Managed cross-functional teams, resulting in smooth operations and successful audits.
