

VISWANATHAN S

CAREER OBJECTIVE

Seeking an entry-level position as a fresher to apply my skills in AI, machine learning, data analytics, software development, and web development. Eager to contribute to an innovative organization while enhancing my technical expertise and growing professionally

EDUCATION

Graduation

Course	B.Tech/B.E. (Information Technology)
College	Misrimal Navajee Munoth Jain Engineering College, Chennai, Chennai
Score	83.1%

Schooling

Board Name	Class XII	Class X
Tamil Nadu	Tamil Nadu	Tamil Nadu
Medium	English	English
Year of Passing	2021	2019
Score	87.77%	80.4%

INTERNSHIPS

Zhapix Technologies | July 2024 - December 2024

-Developed React.js web applications with Material UI for UI design and implemented testing using Storybook and Cypress. Built real-time projects, including a Contact Manager app, utilizing the MERN stack. Integrated APIs using Postman and managed version control with GitHub.

Dabotics India | July 2024 - August 2024

-Worked on Python programming and automation by developing and optimizing scripts, designing backend systems, and integrating applications with web services.

NOVANECTAR Services | July 2024 - August 2024

-Performed remote data extraction, transformation, and visualization. Developed projects including customer behavior trend analysis, predictive market models, and interactive dashboards.

RETECH Solutions | July 2023 - July 2023

-Worked on full-stack development, creating a blogging platform, e-commerce website, and real-time chat application.

NSIC Technical Services Centre | July 2023 - July 2023

-Completed a one-week internship on Python and AI/ML, gaining hands-on experience in machine learning algorithms and developing a stock prediction model, sentiment analysis tool, and recommendation system.

PROJECTS

Automated Question Builder Application | August 2024 - October 2024

-Designed and implemented an AI-driven question generation system using Gen AI, LLMs, and vector databases. Integrated content indexing, vector search, and NLP to generate contextually relevant questions, enhancing scalability and personalized learning.

Smart Transportation Using IoT | August 2023 - October 2023

-Designed a smart transportation system using IoT, implementing real-time vehicle tracking, route scheduling, and e-ticketing to enhance public transportation efficiency.

STOCK PREDICTION USING DATA ANALYTICS IN AI & MACHINE LEARNING | July 2023 - March 2024

-Built an AI/ML-powered stock prediction system utilizing historical data and technical indicators. Improved predictive accuracy through advanced algorithms, delivering valuable insights for investors.

AWARDS AND HONOR

Chairperson of ACM Student Chapter (2024-Present), Rotaract Club Hon. Secretary (2024-Present), RSP President and Outgoing Cadet Awardee (2020-21), NCC Cadet (CPL) - Attended camp under the Commanding Officer and earned an A certificate (2016-18), First Prize in Mini Project Expo (2024), Runner-up in Science Project Expo (2018).

SKILLS

- Data Analytics
- Artificial Intelligence
- Machine Learning
- Software Development
- Web Development
- UI Development
- Python
- Jython
- Java
- C Programming Language
- React.js
- Cypress
- DBMS
- Github
- Postman API
- Communication Skills
- Team Coordination
- Adaptability

LANGUAGES KNOWN

Tamil (Both)
English (Both)

CERTIFICATIONS

- Machine learning
- Embedded Systems Workshop
- DATA SCIENCE EXCELLENCE
- Workshop on Prompt Chat GPT in Becrez Carnival 24
- MATERIAL DATA SCIENCE AND INFORMATICS
- Network Essential
- Devops certification training
