PROFILE

Highly skilled QA Engineer with 5+ years of experience in Manual and Automation testing across diverse web applications. Proven ability to identify, document, and resolve defects, ensuring high-quality software releases. Proficient in Test Case Design, SDLC (Software Development Life Cycle), and Jira. Possesses strong analytical and problem-solving skills with a passion for continuous learning and rapid technology adoption.

KEY COMPETENCIES

1. Testing Tools: JIRA, Selenium WebDriver, Eclipse, SQL Server, Visual Studios
2. Build Tools: TestNG, Junit
3. Languages: Python, C, C++, Java Basics (Selenium Related), SQL
4. API Testing Tools: Postman
5. Operating Systems: Windows 7, Windows 8, Windows 10.
6. Project Methodologies: Agile, Waterfall, STLC, SDLC.
7. Database: SQL Server, Oracle.
8. Database Management System (DBMS).
9. Specialized Domains: Logistics, Banking, Finance, Trading
10. Automation testing experience: 2 years

PROFESSIONAL EXPERIENCE

ASSOCIATE - QA TESTER

JUNE 2022 - PRESENT

Cognizant Technology Solutions

Project #1: Client Name: E*TRADE from Morgan Stanley - Quality Assurance for E*TRADE (Contact Center)

- Responsible for the test management activities within all the STLC phases
- Competency in providing estimations, requirement review and analysis, QA metrics collection and analysis
- Practice in interviewing, knowledge transfer, newcomers' onboarding and mentoring
- Experience in leading activities: running of 2 distributed teams of 1-4 people, setting-up and continuous improvement of basic QA processes (planning, coordinating and monitoring)
- Well versed with Test Documentation (Test Scenario, Test Case, Test Data, and Defect Report).
- Throughout the project in various iteration/sprints - conducted system testing, integration testing.
- Identify the test scenario to be automated.
- Good exposure on working in Agile methodology and participated in all the agile ceremonies planning, daily scrum call delivery and reporting in sprint level deliverables
- Written test cases to test in Jira and defects identified in testing environment are communicated to the developers using Jira Defect module.
- Prepared daily status report with details of executed, passed and failed test cases and defect status.

Significant Achievements:

1. Received Certification of Excellence award for effective contribution in Contact Center (WGC) project.
2. Appreciated as top performer for multiple releases.
3. Gained multiple appreciations for leading activities especially during releases with critical deadlines.
4. Appreciation received for managing a major functionality from End-To-end perspective.

TEST ANALYST

JAN 2021 TO JUNE 2022

Infosys Ltd.

Project #2: Client Name: CMA CGM Shipping Company Ltd - Automation Testing for TDM, Smart Leads, Test Data Management

Roles and Responsibilities:

- Attended multiple calls to understand and analyze functional requirements by connecting with Business and Data Analysts.
- Performed Manual Testing for the functional requirements and regressed the existing testcases.
- Written more than 50 Testcases for the functionalities that are newly introduced.
- Knowledge in database testing on manual techniques.
- Utilized multiple Selenium locators to work with web elements.
- Expertise in Postman tool for API testing with get, post, put and delete methods.
- Involvement in Automation Environment Setup Using Eclipse, Java, Selenium WebDriver Java language bindings and TestNG jars.
- Test automation scripting and execution.

Significant Achievements:

1. Got RISE award for effective contribution in CMA CGM project.
2. Appreciation for reducing manual effort in two different types of data creation activities.
3. Got RISE appreciation award for help and support in CMA CGM project.
4. Earned multiple appreciations from team for ensuring that targets are met and taking end to end responsibility of tasks.

SYSTEMS ENGINEER**OCTOBER 2019 TO DEC 2020****Infosys Ltd.**

Project #3: Client Name: Citizens Bank - Smart Leads, Test Data Management, Data Migration to AWS (Amazon Web Services)

Smart Leads:

- Supervised and co-created testing and defect-tracking documentation with 100% closure rate.
- Lead the team of 2 members to co-ordinate and completed data validation meeting deadlines

Test Data Management:

- Updated an existing Automation Script to test the data against functionalities newly added in web-based applications to test and fetch the errors detected.
- Created Test cases Using Element locators and Selenium WebDriver methods.
- Involved in Regression Testing using Selenium
- Experience in Automating Web Application Testing using Selenium WebDriver with TestNG framework.

Data Migration to AWS (Amazon Web Services):

- Data Migration has been achieved using SQL queries to fetch data from Oracle as well as Amazon S3.
- The Source and Target data are stored in Microsoft Excel sheet.
- Basic knowledge with the tools like Oracle, Amazon S3, Ethena, ALM & Well-versed in Data Validation techniques using MS Excel.

ACADEMIC QUALIFICATION**KONGU ENGINEERING COLLEGE, PERUNDURAI, IN 2019**

• Bachelor of Engineering (B.E) in Electronics and Instrumentation Engineering with an aggregate of 87.8%.

HSC & SSLC

- HSC in Bharani Park Matriculation Higher Secondary School, Vennamalai, Karur in 2015 with 93.75%
- SSLC in St. Theresa's Matriculation Higher Secondary School, Karur in 2013 with 97.8%

PERSONAL DETAILS

- Nationality: Indian
- DOB: 11th August 1998
- Marital Status: Married
- Languages: Tamil (Proficient), English (Proficient), Kannada(speak), Hindi (read and write)
