Note : title should move forward bit.

About US

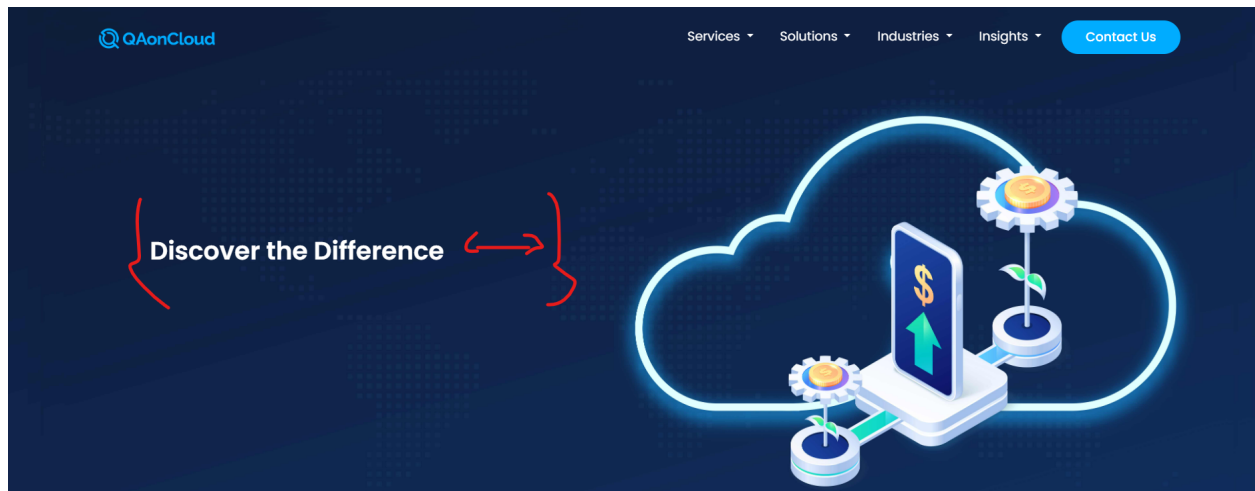

Note : Newyork should be appear in same line. eg(NewYork)

How it works

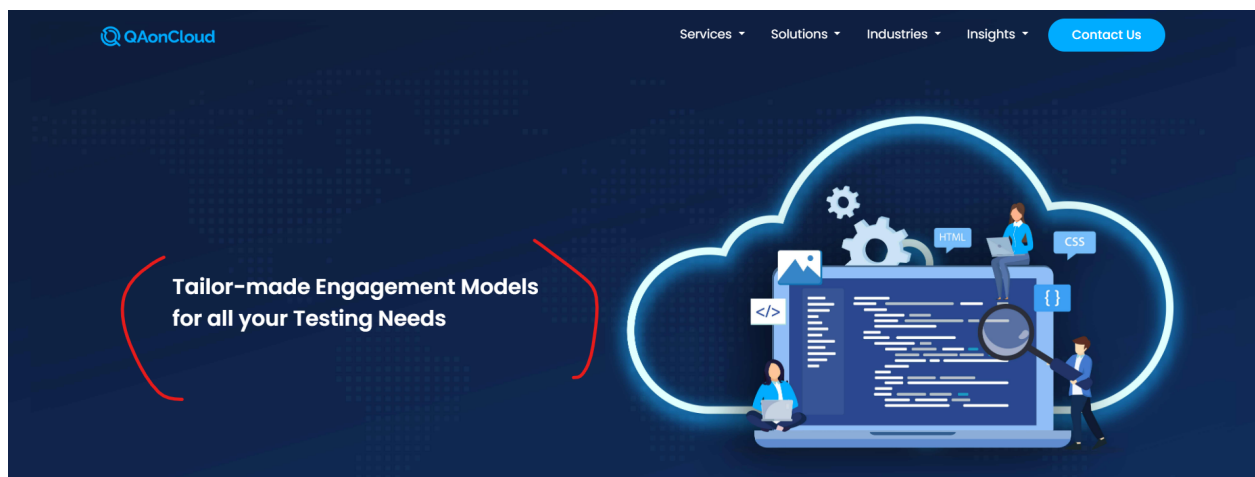

Note : Not in center aglin..

Why us

Note : Title should move little bit forward

Engagement Model

Note : Not in Center text

Note : Image broken.

FULLY MANAGED

With the Fully-Managed option, we are your quality team. Your QAonCloud team consisting of the QA manager, QA architect, and QA testers, become part of your team and extends your product team remotely. Your QA manager and QA architect partner with you to design your test strategy and prepare the testing plan for your application, along with a plan for functional and non-functional testing requirements, automation testing, and regression testing involved for each cycle of release.
